Frequently Asked Question (FAQ) 1

What if an HAI is not applicable to our facility, such as we do not have a NICU or we do not perform HYST? Do I still need to confer rights for non-applicable measures?

Under the heading “your locations,” you will see “no locations meets criteria.” If you do not have the specified location, it is fine to accept as presented. You can confer rights for that item and the state will not receive any information because your facility will not enter data for it.

No locations meet criteria

FAQ 2

I am tracking HYST inpatient and outpatient procedures. Will my outpatient HYST data be viewed by the state?

No. The state is requesting only inpatient procedures at this time, and if your facility is tracking inpatient and outpatient HYST procedures, the confer rights template will only allow the state to view the inpatient HYST procedures.

FAQ 3

If the Confer Rights page does not appear or if I need to review it again, how can I do so?

From left navigation bar, select Group → Confer Rights. Highlight “State of Georgia” in the box on right and select gray “Confer Rights” button. A dialog box will appear stating it is a facility’s decision to confer rights; select “OK.” The conferring rights screen will appear.
