

45% OF PEOPLE LIVING WITH DIAGNOSED HIV IN GEORGIA ARE AGED 50 YEARS OR OLDER.

35%

have been living with an HIV diagnosis **for more than 25 years.**

They are prescribed an average of
8
different medications
for HIV or other conditions in a year.

50%

are living **with a disability.**

9%

reported **symptoms of anxiety.**

Their **median stigma score** is
31.

The national median stigma
score for people with HIV is

38.

68%

are virally suppressed,
meaning their HIV is under
control and their sexual partners
are protected from getting HIV.
