

GRITS 2.0 GA Registry of Immunization Transaction & Services

Dear Immunization Partners:

As you are aware, the Georgia Department of Public Health (DPH) has been diligently working to implement a new platform for GRITS that we are referring to as GRITS 2.0. This new platform will provide GRITS users with better technology to help monitor and manage immunization data and support clinical decision-making for your patients.

To ensure we have adequate time to test the features of the new system and train all users, we are delaying the official implementation of GRITS 2.0. Please watch your email for information regarding training and data exchange testing, and a new implementation date.

Please do not hesitate to contact grits2.0info@dph.ga.gov if you have any questions or concerns. Thank you for your continued patience as we work to complete this needed modernization of our GRITS system.

We protect lives.
