

Georgia Monkeypox (Mpox) Situational Report

December 28, 2022

The data include laboratory positive mpox cases in Georgia and data on persons who have received mpox vaccine in Georgia. The data are inclusive of case reports and vaccine information received by the Georgia Department of Public Health available by 10 am on 12/28/2022. Data are updated weekly and are subject to change as follow up activities are ongoing.

*December 28, 2022: due to a total increase of <5 cases since last update, demographic tables are not updated this week to prevent the sharing of identifiable information in new cases. Demographic tables will be updated on weeks where 5 or more new cases have been added since the last update.

GA Total Case Count as of December 28, 2022: 1,984
