

NOTICE OF ADOPTION OF REGULATIONS

Revisions to Chapter 511-2-9 “Syringe Services Programs”

The Department of Public Health hereby adopts the amendments to Rule 511-2-9, “Syringe Services Programs,” as provided in the Notice of Proposed Rulemaking issued on March 3, 2022. This action is taken pursuant to the Department’s authority under Georgia Code Sections 31-2A-6 and 16-13-32(c)(3).

In accordance with Georgia Code Section 31-5-1, the above-listed amendments will take effect on May 18, 2022.

This 21st day of April, 2022.

Kathleen E. Toomey, M.D., M.P.H.
Commissioner
Georgia Department of Public Health

SYRINGE SERVICES PROGRAMS**

TABLE OF CONTENTS

511-2-9-.08	Granting and Suspension or Revocation of Registration
--------------------	--

Rule 511-2-9-.08 Granting and Suspension or Revocation of Registration

- (1) The Department shall grant an application for registration only upon a satisfactory showing that both the Program and its Administrator are willing and able to operate in compliance with the Program's Policies and Procedures Manual and all provisions of these rules.
- (2) The Department may deny an application for registration or suspend or revoke a registration, after notice and an opportunity for a hearing, upon a finding that the Applicant, Program, or Administrator has:
 - (a) Failed to meet all requirements for Program registration;
 - (b) Violated any federal or state law or rule related to Syringe Services Programs, without regard to whether such violation is criminally punishable;
 - (c) Knowingly made misleading, deceptive, untrue, or fraudulent representations related to the operation of a Syringe Services Program or on any document connected therewith, or made a false or deceptive statement to the Department; or
 - (d) Engaged in any practice harmful to the public which materially affects the ability of the Applicant, Program, or Administrator to operate a Syringe Services Program or threatens the public health, safety, or welfare.
- (3) In its sole discretion, the Department may allow a Program an opportunity to correct alleged deficiencies prior to initiating the suspension or revocation of a registration, in accordance with the following procedures:
 - (a) The Department shall provide written notice to the Administrator, via email and first class U.S. mail to the Administrator's address on file with the Department, of the Program's alleged deficiencies. Notice shall be complete upon mailing.
 - (b) Within thirty calendar days of the notice, the Program shall develop and submit to the Department a written corrective action plan to address the deficiencies. The corrective action plan shall include:
 - (c) Steps required to correct the deficiencies; and
 - (d) A deadline of no more than ninety calendar days for completion.
 - (e) If the Department, in its sole discretion, approves the corrective action plan, the Program shall implement the plan. The Department may conduct a Site inspection at any time during the implementation period. If the Department determines, in its sole discretion, that the deficiencies have been corrected, no further action shall be taken.
 - (f) If the Program fails to submit a sufficient corrective action plan, fails to correct the deficiencies as specified in the corrective action plan, or if the Department determines for any reason that a corrective action program is no longer appropriate, the Department may take action to suspend or revoke the Program's registration.

(4) Procedures for the denial of an application or suspension or revocation of a Program registration.

(a) The Department shall provide written notice to the Program's Administrator, via email and certified mail to the Administrator's address on file with the Department, of the denial of the Program's application or the suspension or revocation of the Program's registration and the grounds therefor. Notice shall be complete upon mailing.

(b) The denial, suspension, or revocation shall become effective twenty days after notice is complete, unless the Program submits a timely request for a hearing; provided, however, that a Program registration may be suspended immediately, prior to a hearing, upon a written finding set forth in the notice that the public health, safety, or welfare imperatively require emergency action. All hearing requests must be delivered to and received by the Director of the Syringe Services Program no later than thirty days after notice is complete.

(c) The Department shall refer a timely request for a hearing to the Office of State Administrative Hearings within thirty days after receipt, unless the Department and the Program agree otherwise. After thirty days from the Department's receipt of the hearing request, the Program may petition the Office of State Administrative Hearings for an order permitting the request to be filed directly with the Office of State Administrative Hearings.

(d) At least one year shall pass from the date of denial of an application before the Department will consider a new application for registration. At least two years shall pass from the date of revocation of a registration before the Department will consider a new application for registration; provided, however, that a Program whose registration was revoked for failure to renew may submit a new application prior to the expiration of the two-year waiting period.

Authority: O.C.G.A. §§ 16-13-32, 31-5-2, 50-13-13, 50-13-41.
