Bill Seifarth, MS, NRP  
Executive Director  
National Registry of Emergency Medical Technicians  
P.O. Box 29233  
Columbus, OH 43229

RE: Support for NREMT Pathways for Registration

Dear Mr. Seifarth,

The Georgia Department of Public Health, Office of EMS and Trauma (“Department”) supports **ALL** National Registry of EMT’s (“NREMT”) pathways to registration including but not limited to:

- The re-entry process for all registration levels
- EMS Fellowship Trained or EMS Board Certified Physicians challenging any registration level

The Department will accept all NREMT registrants, regardless of registration pathway, for consideration in the Georgia EMS license application process.

***Important Note: This letter of support only expresses the Department’s support of the NREMT registration process and does not guarantee licensure in Georgia. All applications for Georgia EMS licensure must meet licensing requirements as set forth in the Department’s Rules and Regulations 511-9-2.***

Sincerely,

Michael B. Johnson, MS, NRP  
Director, Office of EMS and Trauma  
Georgia Department of Public Health  
1680 Phoenix Boulevard, Suite 200  
Atlanta, Georgia 30349
