

August 9, 2019

Dear Partners,

The Georgia Department of Public Health Special Supplemental Nutrition Program for Women, Infants and Children (WIC) would like to provide an update on the availability of the following formulas:

- Enfamil 24
- EnfaGrow Premium Toddler Transitions
- EnfaGrow Toddler Transitions Gentlease

In a previous communication it was announced that the products listed above would be available, late July 2019. However, the actual availability date has been confirmed as August 12, 2019. Additionally, EnfaGrow Toddler Transitions Soy is no longer included in the update and will not be made available through Georgia WIC as it is being discontinued by the manufacturer.

Please note that these products require documentation of an approved medical diagnosis prior to issuance. A complete listing of all Georgia WIC approved formulas and medical foods can be found at wic.ga.gov, under the Health Care Provider link. Attached you will find the revised Georgia WIC Formula Guide which list contract formulas and a short list of products that are not approved in Georgia.

Please remember that Georgia WIC promotes and supports exclusive breastfeeding as the normative standard for infant feeding. When WIC eligible moms are unable to breastfeed, they should be offered a Georgia WIC contract formula or an alternative formula that is medically indicated.

Thank you for your ongoing partnership and support of the Georgia WIC program. This letter and the attached, Georgia WIC Formula Guide may be used and shared, as deemed appropriate. Contact the State WIC Nutrition Unit at 404-657-2900 with additional questions or for more information.

Sincerely,

Sean C. Mack
State WIC Director
Georgia WIC Program

Attachment: Georgia WIC Formula Guide

Georgia WIC Formula Guide

A reference for approved formulas provided by the Georgia Special Supplemental Nutrition Program for Women, Infants, and Children (WIC)

Human Milk is the Gold Standard

Approved contract formulas not requiring medical documentation for infants (< 12 months):

Milk Based Formula:
Enfamil Infant

Lactose-Reduced Formula:
Enfamil Gentlease

Soy Based Formula:
Enfamil ProSobee

Approved contract formulas requiring medical documentation:

- Enfamil A.R.*
- EnfaGrow Premium Toddler Transitions
- EnfaGrow Toddler Transitions Soy
- Enfamil 24
- EnfaGrow Toddler Transitions Gentlease

* The approved rice-added contract formula, **Enfamil A.R.**, requires the following two conditions prior to issuance:

- 1) Diagnosis of **gastroesophageal** reflux disease (GERD) **and** one of the following conditions:
- 2) Tube feeding, GERD surgery (fundoplication), risk or history of aspiration, weight loss, or poor weight gain (drop of at least one weight channel on growth chart). Note: If weight is not provided, issuance will be based on weight obtained at WIC clinic.

Follow WIC Medical Documentation Guidelines for All Other Formulas
