Asthma Action Plan

PROVIDER INSTRUCTIONS

At initial presentation, determine the level of asthma severity

• Level of severity is determined by both impairment and risk and is assigned to the most severe category in which any feature occurs.

At subsequent visits, assess control to adjust therapy

- Level of control is determined by both impairment and risk and is assigned to the most severe category in which any feature occurs.
- Address adherence to medication, inhaler technique, and environmental control measures.
- Sample patient self-assessment tools for asthma control can be found at http://www.asthmacontrol.com/index.html http://www.asthmacontrolcheck.com

Stepwise approach for managing asthma:

• Therapy is increased (stepped up) if necessary and decreased (stepped down) when possible as determined by the level of asthma severity or asthma control.

ASTHMA MANAGEMENT RECOMMENDATIONS:

- Ensure that patient/family receive education about asthma and how to use spacers and other medication delivery devices.
- Assess asthma control at every visit by self-administered standardized test or verbal history.
- Perform spirometry at baseline and at least every 1 to 2 years for patients \geq 5 years of age.
- Update or review the Asthma Action Plan every 6 to 12 months.
- Perform skin or blood allergy tests for all patients with persistent asthma.
- Encourage patient/family to continue follow-up with their clinician every 1 to 6 months even if asthma is well controlled.
- Refer patient to a specialist if:
 - there are difficulties achieving or maintaining control OR
 - step 4 care or higher is required (step 3 care or higher for children 0-4 years of age) OR
 - immunotherapy or omalizumab is considered OR
 - additional testing is indicated OR
 - if the patient required 2 bursts of oral systemic corticosteroids in the past year or a hospitalization.

Asthma severity and asthma control include the domains of current impairment and future risk.

Impairment: frequency and intensity of symptoms and functional limitations the patient is currently experiencing or has recently experienced.

Risk: the likelihood of either asthma exacerbations, progressive decline in lung function (or, for children, reduced lung growth), or risk of adverse effects from medication.

HOW TO USE THE ASTHMA ACTION PLAN:

Top copy (for patient):

- Enter specific medication information and review the instructions with the patient and/or family.
- Educate patient and/or family about factors that make asthma worse and the remediation steps on the back of this form.
- Complete and sign the bottom of the form and give this copy of the form to the patient.

Middle copy (for school, childcare, work, etc):

- Educate the parent/guardian on the need for their signature on the back of the form in order to authorize student self-carry and self-administration of asthma medications at school and also to authorize sharing student health information with school staff.
- Provide this copy of the form to the school/childcare center/work/caretaker or other involved third party. (This copy may also be faxed to the school, etc.)

Bottom copy (for chart):

• File this copy in the patient's medical chart.

Student may self carry asthma medications: \Box Yes \Box No self administer asthma medications: \Box Yes \Box No (This authorization is for a maximum of one year from signature date.)

ORIGINAL (Patient) / CANARY (School/Child Care/Work/Other Support Systems) / PINK (Chart)

Controlling Things That Make Asthma Worse

SMOKE

- Do not smoke. Attend classes to help stop smoking.
- Do not allow smoking in the home or car. Remaining smoke smell can trigger asthma.
- Stay away from people who are smoking.
- If you smoke, smoke outside.

DUST

- Vacuum weekly with a vacuum with a high efficiency filter or a central vacuum. Try to make sure people with asthma are not home during vacuuming.
- Remove carpet if possible. Wet carpet before removing and then dry floor completely.
- Damp mop floors weekly.
- Wash bedding and stuffed toys in hot water every 1-2 weeks. Freeze stuffed toys that aren't washable for 24 hours.
- · Cover mattresses and pillows in dust-mite proof zippered covers.
- Reduce clutter and remove stuffed animals, especially around the bed.
- Replace heating system filters regularly.

PESTS

- Do not leave food or garbage out. Store food in airtight containers.
- Try using traps and poison baits, such as boric acid for cockroaches. Instead of sprays/bombs, use baits placed away from children, such as behind refrigerator.
- Vacuum up cockroach bodies and fill holes in with caulking or copper wool.
- Fix leaky plumbing, roof, and other sources of water.

MOLD

- Use exhaust fans or open windows for cross ventilation when showering or cooking.
- Clean mold off hard surfaces with detergent in hot water and scrub with stiff brush or cleaning pad, then rinse clean with water. Absorbent materials with mold may need to be replaced.
- Make sure people with asthma are not in the room when cleaning.
- · Fix leaky plumbing or other sources of water or moisture.

ANIMALS

- Consider not having pets. Avoid pets with fur or feathers.
- Keep pets out of the bedroom of the person with asthma.
- Wash your hands and the hands of the person with asthma after petting animals.

ODORS/SPRAYS

- Avoid using strongly scented products, such as home deodorizers and incense, and perfumed laundry products and personal care products.
- Do not use oven/stove for heating.
- When cleaning, keep person with asthma away and don't use strong smelling cleaning products.
- Avoid aerosol products.
- Avoid strong or extra strength cleaning products.
- Avoid ammonia, bleach, and disinfectants.

POLLEN AND OUTDOOR MOLDS

- Try to stay indoors when pollen and mold counts are high.
- Keep windows closed during pollen season.
- Avoid using fans; use air conditioners.

COLDS/FLU

- Keep your body healthy with enough exercise and sleep.
- Avoid close contact with people who have colds.
- Wash your hands frequently and avoid touching your hands to your face.
- Get an annual flu shot.

WEATHER AND AIR POLLUTION

- If cold air is a problem, try breathing through your nose rather than your mouth and covering up with a scarf.
- Check for Spare the Air days and nights and avoid strenuous exercise at those times.
- On very bad pollution days, stay indoors with windows closed.

EXERCISE

- Warm up before exercising.
- Plan alternate indoor activities on high pollen or pollution days.
- If directed by physician, take medication before exercise. (See Green Zone of Asthma Action Plan.)

SCHOOL AUTHORIZATION FORM To be completed by Parent/Guardian and turned in to the school

AUTHORIZATION AND DISCLAIMER FROM PARENT/GUARDIAN: I request that the school assist my child with the asthma medications listed on this form, and the Asthma Action Plan, in accordance with state laws and regulations.

🗆 Yes 🛛 🗅 No.

My child may carry and self-administer asthma medications and I agree to release the school district and school personnel from all claims of liability if my child suffers any adverse reactions from self-administration of asthma medications:

AUTHORIZATION FOR USE OR DISCLOSURE OF HEALTH INFORMATION TO SCHOOL DISTRICTS

Completion of this document authorizes the disclosure and/or use of individually identifiable health information, as set forth below, consistent with Federal laws (including HIPAA) concerning the privacy of such information. Failure to provide all information requested may invalidate this authorization.

USE AND DISCLOSURE INFORMATION:

Patient/Student Name:		/		
Last	First	N	11 Date of Birth	
I, the undersigned, do hereby authorize (name of age	ency and/or health care	e providers):		
(1)	(2)			to provide
health information from the above-named child's me	edical record to and fro	m:		
School or school district to which disclosure is made		Address / City and State / Zip Code		-
Contact person at school or school district		Area Code and Telephone Number		-
The disclosure of health information is required for the	he following purpose:			
Requested information shall be limited to the followi	ing: 🛛 All health infor	mation; or	Disease-specific information	n as described:
DURATION: This authorization shall become effective immediatel	y and chall romain in c	ffact until	(optor data) or for a	when wear from the
date of signature, if no date entered.	y and shan ternalit in e			ne year nom me
RESTRICTIONS:				
Law prohibits the Requestor from making further dis			less the Requestor obtains anot	ther authorization
form from me or unless such disclosure is specifically YOUR RIGHTS:	required or permitted	uy law.		

I understand that I have the following rights with respect to this Authorization: I may revoke this Authorization at any time. My revocation must be in writing, signed by me or on my behalf, and delivered to the health care agencies/persons listed above. My revocation will be effective upon receipt, but will not be effective to the extent that the Requestor or others have acted in reliance to this Authorization. **RE-DISCLOSURE:**

I understand that the Requestor (School District) will protect this information as prescribed by the Family Equal Rights Protection Act (FERPA) and that the information becomes part of the student's educational record. The information will be shared with individuals working at or with the School District for the purpose of providing safe, appropriate, and least restrictive educational settings and school health services and programs.

I have a right to receive a copy of this Authorization. Signing this Authorization may be required in order for this student to obtain appropriate services in the educational setting.
