

September 2024

# Georgia Sexual Violence Prevention Program

2024-2025 Evaluation and Performance Measurement Plan

Chronic Disease Prevention Section  
Medical and Clinical Service Division  
Georgia Department of Public Health

# Program Evaluation Plan

## The Georgia Sexual Violence Prevention Program (GASVPP)

Prepared by:

Heidi Scherer  
Kennesaw State University - *External Evaluator.*

In Collaboration with

*Vanessa Corona - Program Lead, Julian Serracin - Program Manager, Sarah Wilkinson - Deputy Director, Emma Bicego - Sr Deputy Director, and Kia Toddle - Director and Principal Investigator. Georgia Department of Public Health*

{Updated September 24, 2024}

**Section 1. Program Description:** *Provide a brief narrative that describes the overall efforts or big-picture goals of your NOFO efforts, including a brief description of your planned implementation activities.*

State-level statistics provide overwhelming evidence that sexual violence (SV) is a severe yet preventable public health problem in Georgia (see e.g., [Georgia Bureau of Investigation, 2023](#)). While data indicates that SV adversely impacts individuals across all socio-demographic characteristics, there is also evidence that risk of SV is non-randomly distributed with certain populations and geographic regions experiencing a disproportionate and elevated risk of sexual violence (see e.g., [Bureau of Justice Statistics, 2023](#)). With funding and technical support from the CDC (CE-24-0027: Rape Prevention and Education), the Georgia Sexual Violence Prevention Program (GASVPP), also referred to as the Rape Prevention and Education Program, will implement a comprehensive prevention plan to impact SV across the state.

Starting in the first year of this funding cycle, there are several primary activities being implemented. To build infrastructure and increase the capacity for SV prevention, GASVPP will be engaging in various activities and trainings focused on increasing knowledge and skills of SV prevention among staff and key program partners, as well as opportunities to promote learning and collaboration among community members. To strengthen and improve Georgia's existing State Action Plan, GASVPP staff and key program partners – including the state's SV coalition, the Georgia Network to End Sexual Assault (GNESA) – will collaborate regularly to plan, prioritize, and establish the most effective SV prevention approaches to implement across the state. To strengthen economic supports for priority populations in Georgia, GASVPP will partner with local sexual assault centers (SACs) in high-risk areas to provide training/workshops to address needs in the community related, but not limited to, housing, food, and financial insecurities. To create protective environments, SACs, along with other organizations in the community (i.e., community task forces), will conduct community needs assessments to inform the creation and implementation of programming for priority populations in their communities that address one or more of the following areas: Improving School Climate and Safety, Improving Organizational Environments, Reducing Exposure to Community Level Risk, and Modifying the Physical and Social Environment. Three primary prevention strategies will be implemented that focus on promoting social norms that protect against violence. To empower girls, engage boys as allies, and promote healthy relationships, Athletes as Leaders (AAL) and Coaching Boys Into Men (CBIM) – complimentary evidence-based programs – will be implemented at Georgia Recreation and Parks Association sites and high schools throughout the state. In addition, Public Health Districts will be responsible for implementing the Step Up. Step In. (SUSI) awareness campaign in high-risk middle and high schools in Georgia. SUSI focuses on engaging schools and communities to identify and stop sexual bullying from occurring between youth and increase SV awareness and bystander interventions.

GASVPP is committed to ensuring that resources are allocated to implement programming among priority populations in the state. To meet this end, decisions related to selecting programming and community partners is informed by analyses of community-level data that identify counties and populations in the state that have the highest risks/greatest needs related to rates of SV, risk and protective factors of SV, and social/structural determinants of health (SDOH) inequalities. In Year 1, SACs, community task forces, AAL, CBIM, and SUSI all include target populations or high-risk locations (e.g., counties, schools) in their programming and initiatives.

Through the implementation of programs and approaches to increase SV protective factors, decrease SV risk factors, and address SDOH inequalities, GASVPP aims to make long-term positive changes in the state. These long-term goals include the reduction of social/structural determinants of health inequalities that impact SV disparities and rates at the state-level and among populations that have been identified as being at an increased risk of experiencing sexual violence.

**Section 2. Evaluation Purpose:** *Provide a clear and concise explanation of the evaluation's scope and focus/goal, with reasoning behind the timeframe and needs.*

Evaluation plays a central role in organizational learning, program planning, decision-making, and measurement of outcomes and thus is central to GASVPP's efforts to reduce sexual violence in the state. For this funding cycle, GASVPP has used the CDC Framework for Evaluation in Public Health and resources from the VetoViolence EvaluACTION to devise an evaluation to assess the state's SV prevention efforts. The primary purpose of this evaluation is to monitor the activities led by GASVPP and the state-wide implementation of various evidence-based programming and community interventions and conduct process and outcome evaluations to examine the fidelity and effectiveness of these efforts. The evaluation will use a mixed methods approach that involves quantitative and qualitative methodologies to 1) identify indicators of SV and SDOH that can lead to disparities in SV rates across populations and communities; 2) collect and analyze data from activities, programs, and initiatives; and 3) use data and findings to inform continuous program improvement.

Through this evaluation, the state aims to gain knowledge on whether and in what capacity GASVPP efforts have been successful in the state including building infrastructure for SV prevention, developing and enhancing the state action plan, implementing SV prevention approaches, and using data to inform action. Specifically, the state aims to learn whether efforts have impacted short-term and intermediate outcomes from the NOFO and state logic model including increases in capacity for SV prevention, coordination with partners across the state, high-quality program implementation, positive change in risk and protective factors of SV, and data monitoring to inform decision-making. Further, through evaluation activities GASVPP hopes to gain an understanding of whether SV prevention activities have impacted the long-term outcomes to decrease rates of SV in priority populations and statewide and reduced inequalities in SDOH that impact SV rates.

Data-informed decision-making is fundamental to GASVPP's SV prevention efforts in Georgia and data from this evaluation will be used to provide real-time insights into program effectiveness and other relevant metrics that can inform strategic planning and the continuous improvement of programming. In particular, findings from analyses of county-level data provides rankings of the 159 counties in Georgia to identify areas with the greatest needs regarding rates of SV, risk and protective factors of SV, and SDOH. This data will be used by GASVPP to help identify areas in the state to target prevention and by program partners to better understand the needs of their communities. Further, data from the process and outcome evaluations of programs will be used by GASVPP to assess the fidelity of program implementation and program effectiveness which will inform decision-making. Additionally, data collected on state capacity and partner collaboration will be used by GASVPP and key program partners to gain a greater understanding of successes and challenges that can promote continuous quality improvement. Findings from the GASVPP evaluation activities will be regularly disseminated to program partners via multiple communication methods, such as presentations at meetings, academic and professional conferences, and written documents, such as evaluation reports, briefs, and infographics.

Engaging and collaborating with program and multisector partners in the evaluation process is important to ensuring buy-in, support, and usefulness of evaluation at the state- and local-level. Given the importance of strong collaboration at the state-level, key strategic program partners will be engaged at multiple levels of the evaluation. First, program partners will meet regularly through the advisory board to provide strategic input into the State Action Plan and the Evaluation Plan and will provide feedback on GASVPP activities that can inform continual improvement of the evaluation process. In addition, program partners will be directly involved in the collection of data through evaluation activities such as completing progress reports and pretest/posttest surveys. Each year at the completion of program activities, GASVPP will also involve program partners in the review and dissemination of evaluation findings to seek input from them regarding how to enhance or improve program activities and what new initiatives or data collection instruments may be incorporated in the upcoming year. Because the state evaluation plan is a living document that can be changed and improved over time to better meet state needs, program partners will also be involved in its annual review to identify targeted recommendations and action steps and make evidence-based decisions that can lead to programmatic changes to enhance program quality, effectiveness, and efficiency.

### *Evaluation Questions:*

The following list includes the primary evaluation questions to be addressed in this evaluation.

- **Question 1:** To what extent has the recipient accomplished the short- term and intermediate outcomes in the NOFO logic model?
- **Question 2:** To what extent has the recipient increased internal and partner capacity to facilitate/monitor the implementation of SV prevention strategies and promote health equity?
- **Question 3:** To what extent has the recipient leveraged multisector partnerships and resources toward SV prevention?
- **Question 4:** To what extent has the recipient implemented strategies that address SDOH?
- **Question 5:** To what extent has the recipient achieved high-quality implementation of SV prevention strategies that increase health equity at the community- and societal-levels?
- **Question 6:** To what extent has the recipient increased use of data-driven decision making, as well as state/territory- and community-level monitoring of trends, related to SV prevention and SDOH?
- **Question 7:** Which factors are critical for implementing selected prevention strategies and approaches?
- **Additional evaluation questions may be added as programming evolves.**

### **Section 3. Evaluation Activities:** *Description of Alignment of Evaluation with NOFO Strategies and Activities*

This evaluation will include activities that gauge progress across all four of the NOFO strategies.

First, to gain an understanding of whether there was improvement in short-term and intermediate outcomes for building infrastructure for SV prevention, this evaluation will collect administrative data to identify what activities the state has engaged in to increase capacity to implement SV prevention. Specifically, program documentation from GASVPP staff, evaluation team members, program partners, and sub-recipients on conference/webinar registrations, certificates for trainings, and relevant information from workplans and contracts will be monitored to examine what activities have been engaged in that strengthen infrastructure for state-wide prevention efforts. To increase capacity to promote and incorporate health equity program activities relevant to SV prevention among partnering organizations, GASVPP will collect data on such indicators as the number of SV prevention and health equity webinars and accessible training events that are promoted to partners. Participation in these types of activities should help program partners better understand how to identify community needs and devise ways to address them.

Second, evaluation activities will also be incorporated into assessing the enhancement of the State Action Plan (SAP) and achievement of corresponding short-term and intermediate outcomes. This evaluation will collect administrative data from program documentation on indicators related to partner and stakeholder engagement in the advisory board meetings where attendees from GASVPP, GNESEA, and other key partners throughout the state will collaborate to provide input on the SAP, as well as data related to the amount of resources provided to partners on the state's prevention efforts and the number of individuals/organizations that are participating in learning collaborative meetings. Together these activities and their corresponding indicators should provide GASVPP with a better understanding of how multi-sectoral partners worked together to decrease SV in Georgia.

Third, this evaluation will engage in a wide range of activities related to the collection and analysis of qualitative and quantitative data to gauge the effectiveness of the various program implementation. In order to analyze process evaluation data, this evaluation will collect data using a consistent and comprehensive format for progress reporting for each program (SUSI, CBIM, AAL, SACs, and Community Task Forces). These progress reports will collect information related to program fidelity (e.g., number of sessions/meetings, topics covered, factors critical to program implementation, successes achieved, and challenges encountered) and information regarding what specific activities were implemented to impact SDOHs and risk and protective factors of SV. To evaluate whether the selected SV prevention strategies led to improvements in targeted SV risk and protective factors, an outcome evaluation will be conducted that involves the collection and analysis of pretest and posttest data by program participants including coaches and athletes (AAL and CBIM) and middle and high school students (SUSI).

Fourth, this evaluation will expand GASVPP's existing efforts to systematically monitor and track state-level indicators of SV outcomes and risk and protective factors in Georgia. Specifically, during this funding cycle, GASVPP will also monitor multiple measures of SDOH at the community-level (e.g., county-level) to identify priority populations in the state. Indicator data from multiple, periodically updated sources have been identified that will be used to examine trends over time at the state-level and gauge how Georgia compares to other states regarding rates of SV and the multifaceted risk, protective, and health-related factors that contribute to it. Annually, this data will be analyzed with hot spot mapping analyses to identify which of the 159 counties in Georgia experience a disproportionate burden of SV, risk factors of SV, and SDOH. In turn, this data will be used by GASVPP to identify priority populations and target SV prevention efforts among these at-risk populations and locations in the state. In addition to informing decision-making of GASVPP and the subsequent outreach to build new partnerships in these priority areas, analysis of this data will also be shared with program partners to help inform their efforts to understand the needs of the communities they serve.

**Section 4: Outcomes and Indicators:** For each outcome measured, compile and present the comprehensive details below within Table 1, ensuring all details align with each other.

Table 1. Outcomes and Indicators (add rows as needed)

|                     |  |   |
|---------------------|--|---|
| Outcome #1<br>(1.1) | Associated Effort(s)   | <input checked="" type="checkbox"/> Goal 1 <input type="checkbox"/> Goal 2 <input type="checkbox"/> Goal 3 <input type="checkbox"/> Goal 4 <input type="checkbox"/> Other   |
|                     | Evaluation Questions Addressed   | <input type="checkbox"/> Question 1 <input checked="" type="checkbox"/> Question 2 <input type="checkbox"/> Question 3 <input type="checkbox"/> Question 4 <input type="checkbox"/> Question 5 <input type="checkbox"/> Question 6 <input checked="" type="checkbox"/> Question 7   |
|                     | Description of Outcome   | <b>Increased capacity of the state health department to implement and evaluate primary prevention of SV at the community- and societal-levels</b>   |
|                     | Type   | <input checked="" type="checkbox"/> Process <input type="checkbox"/> Program/ Policy Specific <input type="checkbox"/> Risk Factor <input type="checkbox"/> Protective Factor <input type="checkbox"/> Violence Outcome <input type="checkbox"/> NOFO Level <input type="checkbox"/> Other  |
|                     | Indicator Title and Description #1   | <b>Number of SV prevention and/or evaluation webinars, accessible training events, and academic conference presentations attended by GASVPP staff and evaluation team</b>   |
|                     | Data Source Type   | <input type="checkbox"/> Needs Assessment <input type="checkbox"/> Surveillance Data <input type="checkbox"/> Law Enforcement Data <input type="checkbox"/> Hospital Data <input type="checkbox"/> Surveys <input type="checkbox"/> Interviews<br><input type="checkbox"/> Focus Groups <input checked="" type="checkbox"/> Administrative Data <input type="checkbox"/> National Data <input type="checkbox"/> State-level Data <input type="checkbox"/> Other (not listed): |
|                     | Data Source Name and Description   | Program documentation including webinar and training announcements and distribution records   |
|                     | Indicator Population   | GASVPP staff and evaluation team members  |
|                     | Baseline Value   | <input checked="" type="checkbox"/> Number: 0 ( <i>has not been previously tracked</i> ) <input type="checkbox"/> Percent: <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____ <input type="checkbox"/> Data are missing   |
|                     | Current Value  | <input checked="" type="checkbox"/> Number: 0 <input type="checkbox"/> Percent: <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____ <input type="checkbox"/> Data are missing (program unable to collect this reporting period)  |
|                     | Year 5 Target  | <input checked="" type="checkbox"/> Number: 12 <input type="checkbox"/> Percent: <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____   |
|                     | Change in Outcome Since Last Reporting Period  | <input type="checkbox"/> Moving away from goal <input type="checkbox"/> No change <input type="checkbox"/> Moving toward goal <input type="checkbox"/> Goal met <input type="checkbox"/> Goal exceeded <input checked="" type="checkbox"/> Unknown <input type="checkbox"/> Data missing  |
|                     | Progress Notes [500] Data for this indicator will be collected via the monthly TTA updates. The Y5 target estimate is based on bimonthly participation in learning events by the RPE (N = 6) and evaluation team (N = 6). These events may include internal (DPH, CDC, KSU) or external events that are focused specifically on new knowledge and/or skills on sexual violence prevention and/or evaluation. |   |
| Outcome #2<br>(1.2) | Associated Effort(s)   | <input checked="" type="checkbox"/> Goal 1 <input type="checkbox"/> Goal 2 <input type="checkbox"/> Goal 3 <input type="checkbox"/> Goal 4 <input type="checkbox"/> Other   |
|                     | Evaluation Questions Addressed   | <input type="checkbox"/> Question 1 <input checked="" type="checkbox"/> Question 2 <input type="checkbox"/> Question 3 <input type="checkbox"/> Question 4 <input type="checkbox"/> Question 5 <input type="checkbox"/> Question 6 <input checked="" type="checkbox"/> Question 7   |
|                     | Description of Outcome   | <b>Increased capacity among partnering organizations to promote and incorporate health equity program activities relevant to SV prevention</b>  |
|                     | Type   | <input checked="" type="checkbox"/> Process <input type="checkbox"/> Program/ Policy Specific <input type="checkbox"/> Risk Factor <input type="checkbox"/> Protective Factor <input type="checkbox"/> Violence Outcome <input type="checkbox"/> NOFO Level <input type="checkbox"/> Other  |
|                     | Indicator Title and Description #1   | <b>Number of SV prevention and/or health equity webinars and accessible training attended by partners</b>   |
|                     | Data Source Type   | <input type="checkbox"/> Needs Assessment <input type="checkbox"/> Surveillance Data <input type="checkbox"/> Law Enforcement Data <input type="checkbox"/> Hospital Data <input type="checkbox"/> Surveys <input type="checkbox"/> Interviews<br><input type="checkbox"/> Focus Groups <input checked="" type="checkbox"/> Administrative Data <input type="checkbox"/> National Data <input type="checkbox"/> State-level Data <input type="checkbox"/> Other (not listed): |
|                     | Data Source Name and Description   | Program documentation including webinar and training announcements and distribution records   |
|                     | Indicator Population   | Partner providers and sub-recipients  |
|                     | Baseline Value   | <input checked="" type="checkbox"/> Number: 0 ( <i>has not been previously tracked</i> ) <input type="checkbox"/> Percent: <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____ <input type="checkbox"/> Data are missing   |
|                     | Current Value  | <input checked="" type="checkbox"/> Number: 0 <input type="checkbox"/> Percent: <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____ <input type="checkbox"/> Data are missing (program unable to collect this reporting period)  |
|                     | Year 5 Target  | <input checked="" type="checkbox"/> Number: 21 <input type="checkbox"/> Percent: <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____   |
|                     | Change in Outcome Since Last Reporting Period  | <input type="checkbox"/> Moving away from goal <input type="checkbox"/> No change <input type="checkbox"/> Moving toward goal <input type="checkbox"/> Goal met <input type="checkbox"/> Goal exceeded <input checked="" type="checkbox"/> Unknown <input type="checkbox"/> Data missing  |
|                     | Progress Notes [500] <b>Data for this indicator will be collected via progress reports completed by sub-recipients. The Year 5 estimate is based on the number of organizations that had at least one representative attend a sexual violence or health equity webinar or accessible training.</b>   |   |

|                     |   |   |
|---------------------|---|---|
| Outcome #3<br>(2.1) | Associated Effort(s)  | <input type="checkbox"/> Goal 1 <input checked="" type="checkbox"/> Goal 2 <input type="checkbox"/> Goal 3 <input type="checkbox"/> Goal 4 <input type="checkbox"/> Other   |
|                     | Evaluation Questions Addressed  | <input type="checkbox"/> Question 1 <input type="checkbox"/> Question 2 <input checked="" type="checkbox"/> Question 3 <input type="checkbox"/> Question 4 <input type="checkbox"/> Question 5 <input type="checkbox"/> Question 6 <input checked="" type="checkbox"/> Question 7   |
|                     | <b>Description of Outcome</b>   | <b>Increased partner participation and awareness of Georgia's efforts to prevent SV</b>   |
|                     | Type  | <input checked="" type="checkbox"/> Process <input type="checkbox"/> Program/ Policy Specific <input type="checkbox"/> Risk Factor <input type="checkbox"/> Protective Factor <input type="checkbox"/> Violence Outcome <input type="checkbox"/> NOFO Level <input type="checkbox"/> Other  |
|                     | <b>Indicator Title and Description #1</b>   | <b>Percent of organizations attending all of the RPE advisory board meetings</b>  |
|                     | Data Source Type  | <input type="checkbox"/> Needs Assessment <input type="checkbox"/> Surveillance Data <input type="checkbox"/> Law Enforcement Data <input type="checkbox"/> Hospital Data <input type="checkbox"/> Surveys <input type="checkbox"/> Interviews<br><input type="checkbox"/> Focus Groups <input checked="" type="checkbox"/> Administrative Data <input type="checkbox"/> National Data <input type="checkbox"/> State-level Data <input type="checkbox"/> Other (not listed): |
|                     | Data Source Name and Description  | Program documentation including meeting minutes and records   |
|                     | Indicator Population  | Partner providers and sub-recipients  |
|                     | Baseline Value  | <input type="checkbox"/> Number: <input checked="" type="checkbox"/> Percent: 0 ( <i>has not been previously tracked</i> ) <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____ <input type="checkbox"/> Data are missing   |
|                     | Current Value   | <input type="checkbox"/> Number: <input checked="" type="checkbox"/> Percent: 0 <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____ <input type="checkbox"/> Data are missing (program unable to collect this reporting period)  |
|                     | Year 5 Target   | <input type="checkbox"/> Number: <input checked="" type="checkbox"/> Percent: 80% <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____  |
|                     | Change in Outcome Since Last Reporting Period   | <input type="checkbox"/> Moving away from goal <input type="checkbox"/> No change <input type="checkbox"/> Moving toward goal <input type="checkbox"/> Goal met <input type="checkbox"/> Goal exceeded <input checked="" type="checkbox"/> Unknown <input type="checkbox"/> Data missing  |
|                     | Progress Notes [500] Data for this indicator will be collected from meeting attendance records. Organizations required to attend advisory board meetings include partnering health districts (SUSI), community task forces, sexual assault centers, Georgia Recreation and Parks Association (CBIM & AAL), and partnering high schools (CBIM & AAL).  |   |
| Outcome #4<br>(2.2) | Associated Effort(s)  | <input type="checkbox"/> Goal 1 <input checked="" type="checkbox"/> Goal 2 <input type="checkbox"/> Goal 3 <input type="checkbox"/> Goal 4 <input type="checkbox"/> Other   |
|                     | Evaluation Questions Addressed  | <input checked="" type="checkbox"/> Question 1 <input checked="" type="checkbox"/> Question 2 <input checked="" type="checkbox"/> Question 3 <input type="checkbox"/> Question 4 <input type="checkbox"/> Question 5 <input type="checkbox"/> Question 6 <input checked="" type="checkbox"/> Question 7   |
|                     | <b>Description of Outcome</b>   | <b>Increased partner awareness of effective primary prevention strategies and the disparate burden of SV</b>  |
|                     | Type  | <input checked="" type="checkbox"/> Process <input type="checkbox"/> Program/ Policy Specific <input type="checkbox"/> Risk Factor <input type="checkbox"/> Protective Factor <input type="checkbox"/> Violence Outcome <input type="checkbox"/> NOFO Level <input type="checkbox"/> Other  |
|                     | <b>Indicator Title and Description #1</b>   | <b>Number of resources (e.g., informative emails, infographics, statistics, dashboards) distributed to partners that include information/guidance on SV prevention and/or health equity</b>   |
|                     | Data Source Type  | <input type="checkbox"/> Needs Assessment <input type="checkbox"/> Surveillance Data <input type="checkbox"/> Law Enforcement Data <input type="checkbox"/> Hospital Data <input type="checkbox"/> Surveys <input type="checkbox"/> Interviews<br><input type="checkbox"/> Focus Groups <input checked="" type="checkbox"/> Administrative Data <input type="checkbox"/> National Data <input type="checkbox"/> State-level Data <input type="checkbox"/> Other (not listed): |
|                     | Data Source Name and Description  | Program documentation including resource distribution records (e.g., emails, listservs)   |
|                     | Indicator Population  | Partner providers and sub-recipients  |
|                     | Baseline Value  | <input checked="" type="checkbox"/> Number: 0 ( <i>has not been previously tracked</i> ) <input type="checkbox"/> Percent: <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____ <input type="checkbox"/> Data are missing   |
|                     | Current Value   | <input checked="" type="checkbox"/> Number: 0 <input type="checkbox"/> Percent: <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____ <input type="checkbox"/> Data are missing (program unable to collect this reporting period)  |
|                     | Year 5 Target   | <input checked="" type="checkbox"/> Number: 12 <input type="checkbox"/> Percent: <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____   |
|                     | Change in Outcome Since Last Reporting Period   | <input type="checkbox"/> Moving away from goal <input type="checkbox"/> No change <input type="checkbox"/> Moving toward goal <input type="checkbox"/> Goal met <input type="checkbox"/> Goal exceeded <input checked="" type="checkbox"/> Unknown <input type="checkbox"/> Data missing  |
|                     | Progress Notes [500] Data for this indicator will be collected via a monthly data collection instrument completed by RPE to track and monitor activities. The Y5 estimate is based on monthly sharing of resources with program partners on SV prevention and/or health equity. These resources could include internal documents related to GA RPE program evaluation findings or the priority population analyses, or external resources about SV prevention from local, state, or national organizations. |   |
| Outcome #5<br>(2.3) | Associated Effort(s)  | <input type="checkbox"/> Goal 1 <input checked="" type="checkbox"/> Goal 2 <input type="checkbox"/> Goal 3 <input type="checkbox"/> Goal 4 <input type="checkbox"/> Other   |
|                     | Evaluation Questions Addressed  | <input type="checkbox"/> Question 1 <input checked="" type="checkbox"/> Question 2 <input checked="" type="checkbox"/> Question 3 <input type="checkbox"/> Question 4 <input type="checkbox"/> Question 5 <input type="checkbox"/> Question 6 <input checked="" type="checkbox"/> Question 7  |
|                     | <b>Description of Outcome</b>   | <b>Increased coordination and collaboration opportunities among partners, health departments, the Georgia Network to End Sexual Assault (GNESA), representatives from underserved communities and other sectors to prevent SV</b>   |
|                     | Type  | <input checked="" type="checkbox"/> Process <input type="checkbox"/> Program/ Policy Specific <input type="checkbox"/> Risk Factor <input type="checkbox"/> Protective Factor <input type="checkbox"/> Violence Outcome <input type="checkbox"/> NOFO Level <input type="checkbox"/> Other  |
|                     | <b>Indicator Title and Description #1</b>   | <b>Number of peer-learning/collaborative meetings for sub-recipients, program partners, and community organizations</b>   |
|                     | Data Source Type  | <input type="checkbox"/> Needs Assessment <input type="checkbox"/> Surveillance Data <input type="checkbox"/> Law Enforcement Data <input type="checkbox"/> Hospital Data <input type="checkbox"/> Surveys <input type="checkbox"/> Interviews<br><input type="checkbox"/> Focus Groups <input checked="" type="checkbox"/> Administrative Data <input type="checkbox"/> National Data <input type="checkbox"/> State-level Data <input type="checkbox"/> Other (not listed): |

|  |  |   |
|--|--|---|
|  | Data Source Name and Description   | Program documentation including meeting minutes, agendas, and records   |
|  | Indicator Population   | Partner providers, sub-recipients, GNESEA, and GASVPP staff   |
|  | Baseline Value   | <input checked="" type="checkbox"/> Number: 0 ( <i>has not been previously tracked</i> ) <input type="checkbox"/> Percent: <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____ <input type="checkbox"/> Data are missing   |
|  | Current Value  | <input checked="" type="checkbox"/> Number: 0 <input type="checkbox"/> Percent: <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____ <input type="checkbox"/> Data are missing (program unable to collect this reporting period)  |
|  | Year 5 Target  | <input checked="" type="checkbox"/> Number: 4 <input type="checkbox"/> Percent: <input type="checkbox"/> Proportion: <input type="checkbox"/> Other: _____  |
|  | Change in Outcome Since Last Reporting Period  | <input type="checkbox"/> Moving away from goal <input type="checkbox"/> No change <input type="checkbox"/> Moving toward goal <input type="checkbox"/> Goal met <input type="checkbox"/> Goal exceeded <input checked="" type="checkbox"/> Unknown <input type="checkbox"/> Data missing  |
|  | Progress Notes [500] Data for this indicator will be collected via a monthly data collection instrument completed by RPE to track and monitor activities. The Y5 estimate is based on peer-learning and/or collaborate meetings that are offered on a quarterly basis throughout the year. This indicator can include any events or meetings where multiple program partners (2+) are in attendance with the goal of learning from and with each other. This could include events with either internal (DPH, program partners) or external speakers. |   |

| Progress Notes [500] Data for these indicators can be collected from the County Health Rankings dashboard at the state- and county-levels:<br><a href="https://www.countyhealthrankings.org/health-data/georgia?year=2024">https://www.countyhealthrankings.org/health-data/georgia?year=2024</a> . The target value will be to observe a 10% decrease in the % observed across the 5-year reference period. |  |

**Section 5. Barriers and Facilitators:** *In this section, identify the barriers and facilitators your program encountered or anticipates encountering.*

Table 2. Barriers (add rows as needed)

|            |  |  |
|------------|--|--|
| Barrier #1 | <b>Barrier Type</b>  | Select all that apply<br><input type="checkbox"/> Lack of buy-in from partners<br><input type="checkbox"/> Lack of community engagement<br><input type="checkbox"/> Insufficient funding or resources<br><input checked="" type="checkbox"/> Inability to access/collect data<br><input type="checkbox"/> Implementation issues<br><input type="checkbox"/> Evaluation issues<br><input type="checkbox"/> Staffing issues<br><input checked="" type="checkbox"/> Lack of skills or capacity<br><input type="checkbox"/> State or local climate<br><input type="checkbox"/> Other (not listed): Please specify  |
|            | <b>Description of Barrier</b><br>(max 2000 characters with spaces) | <i>Anticipated Barrier:</i> Given a lack of experience conducting community needs assessments, it is anticipated that some of the community task forces and SACs may experience difficulties developing and administering their community needs assessments such as identifying how to identify and sample their target populations to produce representative samples. In turn, if these difficulties are not addressed there is the potential that the findings from the assessments may not be fully representative of community needs, which could lead task forces to develop strategies or interventions that may be less effective.  |
|            | <b>Program Component</b>   | Select all that apply<br><input type="checkbox"/> Work Plan<br><input checked="" type="checkbox"/> State Action Plan/Strategic Plan<br><input checked="" type="checkbox"/> Prevention Strategies<br><input checked="" type="checkbox"/> Data to Action<br><input type="checkbox"/> Evaluation<br><input type="checkbox"/> Sustainability<br><input type="checkbox"/> Capacity Assessment   |
|            | <b>Actions Taken</b><br>(max 2000 characters with spaces)          | To prepare for this possibility, the evaluation team will provide a presentation and Q&A session on best practices for sampling, identifying target populations, and appropriate sample sizes for community needs assessment for community task forces and SACs before they finalize their assessment activities. Infographics will be created to support these efforts.   |
|            | <b>Resources Used</b><br>(max 2000 characters with spaces)         | To create materials for the presentation, peer-reviewed research and guidance on community needs assessment will be referenced. Coordination and cooperation of program partners and an online meeting space (MS Teams) will also be used.   |
| Barrier #2 | <b>Barrier Type</b>  | Select all that apply<br><input type="checkbox"/> Lack of buy-in from partners<br><input type="checkbox"/> Lack of community engagement<br><input checked="" type="checkbox"/> Insufficient funding or resources<br><input checked="" type="checkbox"/> Inability to access/collect data<br><input type="checkbox"/> Implementation issues<br><input type="checkbox"/> Evaluation issues<br><input type="checkbox"/> Staffing issues<br><input type="checkbox"/> Lack of skills or capacity<br><input checked="" type="checkbox"/> State or local climate<br><input type="checkbox"/> Other (not listed): Please specify   |
|            | <b>Description of Barrier</b><br>(max 2000 characters with spaces) | There is a limited number of up-to-date sexual violence sources at the county- and state-level. For the limited data available, most data are from official law enforcement sources, and none are victimization-focused and provide insights on the assaults not reported to law enforcement (e.g., the dark figure of sexual violence) which is estimated to be almost 80% of all rapes/sexual assaults that occurred nationwide in 2022 (BJS, 2023). Therefore, police data substantially underestimates the real rates in the state. Further, rape/sexual assault rates are not available for all areas of the state as 30% of law enforcement departments in the state do not report their data to the GBI/FBI. In addition, when data is available, the release is typically lagged by over a year which limits the ability to inform decision-making in real time. |

|            |  |   |   |
|------------|--|---|---|
|            | <b>Program Component</b>   | Select all that apply<br><input type="checkbox"/> Work Plan<br><input type="checkbox"/> State Action Plan/Strategic Plan<br><input type="checkbox"/> Prevention Strategies  | <input checked="" type="checkbox"/> Data to Action<br><input type="checkbox"/> Evaluation<br><input type="checkbox"/> Sustainability<br><input type="checkbox"/> Capacity Assessment  |
|            | <b>Actions Taken</b><br>(max 2000 characters with spaces)          | To address this barrier, the evaluation will include additional measures of SV in the county-level analyses to help fill the gaps in the missing crime rate data. These sources include data from the correctional system such as county-rates of individuals on the sexual offender registry and on community supervision for sexual violence offenses.  |   |
|            | <b>Resources Used</b><br>(max 2000 characters with spaces)         | Helpful resources to address this barrier in the future could include additional measures of SV at the county-level, particularly those that measure victimization rather than perpetration.  |   |
| Barrier #3 | <b>Barrier Type</b>  | Select all that apply<br><input type="checkbox"/> Lack of buy-in from partners<br><input type="checkbox"/> Lack of community engagement<br><input checked="" type="checkbox"/> Insufficient funding or resources<br><input type="checkbox"/> Inability to access/collect data<br><input checked="" type="checkbox"/> Implementation issues  | <input type="checkbox"/> Evaluation issues<br><input checked="" type="checkbox"/> Staffing issues<br><input checked="" type="checkbox"/> Lack of skills or capacity<br><input type="checkbox"/> State or local climate<br><input type="checkbox"/> Other (not listed):                |
|            | <b>Description of Barrier</b><br>(max 2000 characters with spaces) | <i>Anticipated Barrier:</i> As a result of county-level hot spot mapping analyses, high-risk populations and counties in Georgia have been identified as in need for SV prevention efforts. However, many of these counties have not previously been involved in GASVPP's efforts to reduce SV in the state and therefore relationships between GASVPP and county program partners in these areas are limited. Therefore, it is possible that there will need to be some initial work to increase knowledge/awareness in an effort to expand prevention efforts into new areas in the state and develop new partnerships with organizations in these areas. |   |
|            | <b>Program Component</b>   | Select all that apply<br><input type="checkbox"/> Work Plan<br><input type="checkbox"/> State Action Plan/Strategic Plan<br><input checked="" type="checkbox"/> Prevention Strategies   | <input type="checkbox"/> Data to Action<br><input type="checkbox"/> Evaluation<br><input type="checkbox"/> Sustainability<br><input type="checkbox"/> Capacity Assessment   |
|            | <b>Actions Taken</b><br>(max 2000 characters with spaces)          | To address this potential barrier, GASVPP can continue to reach out and make connections to organizations in these counties to share funding opportunities and inform the counties on the efforts that the state is undertaking to reduce sexual violence.  |   |
|            | <b>Resources Used</b><br>(max 2000 characters with spaces)         | Resources that can be used to address this potential barrier include listservs or email lists of individuals/organizations across the state that GASVPP can use to share relevant information on prevention efforts/opportunities.  |   |
| Barrier #4 | <b>Barrier Type</b>  | Select all that apply<br><input checked="" type="checkbox"/> Lack of buy-in from partners<br><input checked="" type="checkbox"/> Lack of community engagement<br><input type="checkbox"/> Insufficient funding or resources<br><input type="checkbox"/> Inability to access/collect data<br><input checked="" type="checkbox"/> Implementation issues   | <input type="checkbox"/> Evaluation issues<br><input checked="" type="checkbox"/> Staffing issues<br><input type="checkbox"/> Lack of skills or capacity<br><input checked="" type="checkbox"/> State or local climate<br><input type="checkbox"/> Other (not listed): Please specify |
|            | <b>Description of Barrier</b><br>(max 2000 characters with spaces) | <i>Anticipated Barrier:</i> It is anticipated that some partners implementing programs may experience some technology limitations when conducting evaluation activities that require access to smart phones, tablets, or computers.   |   |
|            | <b>Program Component</b>   | Select all that apply<br><input type="checkbox"/> Work Plan<br><input type="checkbox"/> State Action Plan/Strategic Plan<br><input type="checkbox"/> Prevention Strategies  | <input type="checkbox"/> Data to Action<br><input checked="" type="checkbox"/> Evaluation<br><input type="checkbox"/> Sustainability<br><input type="checkbox"/> Capacity Assessment  |
|            | <b>Actions Taken</b><br>(max 2000 characters with spaces)          | To address this barrier, additional guidance is provided in the evaluation instructions to help prepare for the administration of the surveys and access to technology to complete them. In addition, when needed, paper-based copies of the survey have also been prepared and shared with sub-recipients when program participants are not able to complete the assessments electronically.   |   |

|   |  |
|---|--|
| <b>Resources Used</b><br><i>(max 2000 characters with spaces)</i> | This barrier may be addressed through increased flexibility in the evaluation procedures used among some priority populations. |
|---|--|

Table 3. Facilitators (add rows as needed)

|                |   |   |   |
|----------------|---|---|---|
| Facilitator #1 | <b>Facilitator Type</b>   | <input checked="" type="checkbox"/> Strong partners<br><input type="checkbox"/> Connection to community<br><input type="checkbox"/> Access to funding or resources<br><input type="checkbox"/> Access to data<br><input type="checkbox"/> Strong implementation   | <input type="checkbox"/> Strong evaluation<br><input type="checkbox"/> Adequate, experienced staff<br><input type="checkbox"/> Access to training/technical assistance<br><input type="checkbox"/> Other (not listed): Please specify                       |
|                | <b>Description of Facilitator</b><br><i>(max 2000 characters with spaces)</i> | Strong partnerships with organizations and individuals across the state who are passionate about reducing sexual violence and are engaged in high-quality program implementation in their communities and among high-risk populations.  |   |
|                | <b>Program Component</b>  | Select all that apply<br><input type="checkbox"/> Work Plan<br><input checked="" type="checkbox"/> State Action Plan/Strategic Plan<br><input checked="" type="checkbox"/> Prevention Strategies  | <input type="checkbox"/> Data to Action<br><input checked="" type="checkbox"/> Evaluation<br><input checked="" type="checkbox"/> Sustainability<br><input type="checkbox"/> Capacity Assessment   |
|                | <b>Resources Used</b><br><i>(max 2000 characters with spaces)</i>             | GASVPP team members' skills and efforts to identify appropriate partners and foster relationships necessary for fruitful partnerships and state-level data on SV and SDOH that informed the identification of priority populations.   |   |
| Facilitator #2 | <b>Facilitator Type</b>   | <input type="checkbox"/> Strong partners<br><input type="checkbox"/> Connection to community<br><input type="checkbox"/> Access to funding or resources<br><input type="checkbox"/> Access to data<br><input type="checkbox"/> Strong implementation  | <input checked="" type="checkbox"/> Strong evaluation<br><input checked="" type="checkbox"/> Adequate, experienced staff<br><input type="checkbox"/> Access to training/technical assistance<br><input type="checkbox"/> Other (not listed): Please specify |
|                | <b>Description of Facilitator</b><br><i>(max 2000 characters with spaces)</i> | GASVPP team members' and external evaluators' knowledge and expertise on sexual violence that support the selection of evidence-based strategies, program implementation and evaluation, and using data to inform decision-making.  |   |
|                | <b>Program Component</b>  | Select all that apply<br><input checked="" type="checkbox"/> Work Plan<br><input checked="" type="checkbox"/> State Action Plan/Strategic Plan<br><input type="checkbox"/> Prevention Strategies  | <input checked="" type="checkbox"/> Data to Action<br><input checked="" type="checkbox"/> Evaluation<br><input type="checkbox"/> Sustainability<br><input type="checkbox"/> Capacity Assessment   |
|                | <b>Resources Used</b><br><i>(max 2000 characters with spaces)</i>             | Access to professional development trainings and sexual violence research and resources.  |   |
| Facilitator #3 | <b>Facilitator Type</b>   | <input type="checkbox"/> Strong partners<br><input type="checkbox"/> Connection to community<br><input type="checkbox"/> Access to funding or resources<br><input type="checkbox"/> Access to data<br><input checked="" type="checkbox"/> Strong implementation   | <input type="checkbox"/> Strong evaluation<br><input type="checkbox"/> Adequate, experienced staff<br><input type="checkbox"/> Access to training/technical assistance<br><input type="checkbox"/> Other (not listed): Please specify                       |
|                | <b>Description of Facilitator</b><br><i>(max 2000 characters with spaces)</i> | Evidence-based programming and strategies that: (1) target SV outcomes, risk and protective factors of SV, and SDOH inequalities; (2) address the focus areas of strengthening economic support, creating protective environments, and promoting social norms that protect against violence; and (3) promote fidelity of curricula through TA support, site visits, and regularly meetings with program partners. |   |
|                | <b>Program Component</b>  | Select all that apply<br><input type="checkbox"/> Work Plan<br><input type="checkbox"/> State Action Plan/Strategic Plan<br><input checked="" type="checkbox"/> Prevention Strategies   | <input type="checkbox"/> Data to Action<br><input type="checkbox"/> Evaluation<br><input type="checkbox"/> Sustainability<br><input type="checkbox"/> Capacity Assessment   |

|                |   |   |
|----------------|---|---|
|                | <b>Resources Used</b><br><i>(max 2000 characters with spaces)</i>             | Access to resources on SV programming and evaluation data on the program's effectiveness and multiple staff members who provide individual attention and support to program partners.   |
| Facilitator #4 | <b>Facilitator Type</b>   | <input type="checkbox"/> Strong partners<br><input type="checkbox"/> Connection to community<br><input type="checkbox"/> Access to funding or resources<br><input type="checkbox"/> Access to data<br><input type="checkbox"/> Strong implementation <input type="checkbox"/> Strong evaluation<br><input type="checkbox"/> Adequate, experienced staff<br><input checked="" type="checkbox"/> Access to training/technical assistance<br><input type="checkbox"/> Other (not listed): Please specify |
|                | <b>Description of Facilitator</b><br><i>(max 2000 characters with spaces)</i> | Support, expertise, and guidance of the CDC program and evaluation officers.  |
|                | <b>Program Component</b>  | Select all that apply<br><input type="checkbox"/> Work Plan<br><input type="checkbox"/> State Action Plan/Strategic Plan<br><input checked="" type="checkbox"/> Prevention Strategies <input checked="" type="checkbox"/> Data to Action<br><input checked="" type="checkbox"/> Evaluation<br><input type="checkbox"/> Sustainability<br><input checked="" type="checkbox"/> Capacity Assessment  |
|                | <b>Resources Used</b><br><i>(max 2000 characters with spaces)</i>             | Monthly meetings between CDC officers and GASVPP, shared materials and guidance via email and partner portal, and GASVPP requests for TTA received from partners via reporting and meetings.  |
| Facilitator #5 | <b>Facilitator Type</b>   | <input type="checkbox"/> Strong partners<br><input type="checkbox"/> Connection to community<br><input type="checkbox"/> Access to funding or resources<br><input checked="" type="checkbox"/> Access to data<br><input type="checkbox"/> Strong implementation <input type="checkbox"/> Strong evaluation<br><input type="checkbox"/> Adequate, experienced staff<br><input type="checkbox"/> Access to training/technical assistance<br><input type="checkbox"/> Other (not listed): Please specify |
|                | <b>Description of Facilitator</b><br><i>(max 2000 characters with spaces)</i> | Multiple county-level data sources on structural determinants of health inequalities that can be analyzed to identify priority populations.   |
|                | <b>Program Component</b>  | Select all that apply<br><input type="checkbox"/> Work Plan<br><input type="checkbox"/> State Action Plan/Strategic Plan<br><input type="checkbox"/> Prevention Strategies <input checked="" type="checkbox"/> Data to Action<br><input type="checkbox"/> Evaluation<br><input type="checkbox"/> Sustainability<br><input type="checkbox"/> Capacity Assessment   |
|                | <b>Resources Used</b><br><i>(max 2000 characters with spaces)</i>             | Public websites and data depositories that include county-level data.   |

**Section 6. Evaluation Timeline:** Provide an overview of the main evaluation tasks and a timeline, including the work schedule, key tasks, assigned personnel, and resources needed for evaluation activities in Table 4.

Table 4. Evaluation Timeline (add rows as needed)

| Key Evaluation Tasks  | Resources Needed  | Partners Involvement   | Person(s) Responsible  | Timeline (start/end date)           |
|---|---|--|--|-------------------------------------|
| <b>Data Collection</b>  |   |  |  |                                     |
| <i>Develop/update process and outcome evaluation tools for each specific approach/program.</i>  | <i>Data about the purpose/goals of programs, curriculum and/or materials used, information on program implementation, Qualtrics for creating pre/post-tests, website builder for administration of pre/post-tests (GASVPP.com).</i> | <i>GASVPP team provides the resources needed, the external evaluation team develops the evaluation tools, and program partners provide feedback on evaluation materials and instructions.</i>          | <i>Heidi Scherer (Lead External Evaluator)<br/>Sara Evans (External Evaluator)<br/>Beverly Churchwell (External Evaluator)</i> | <i>Annually, February - July</i>    |
| <i>Collect pre- and post-test data and progress report data for each approach/program.</i>  | <i>Data collection instructions, Qualtrics software, and program facilitator to administer surveys.</i>   | <i>External evaluators develop instructions, GASVPP team distributes and explains instructions, program facilitators collect the data, and the state GASVPP Team Lead oversees the entire process.</i> | <i>Vanessa Corona (RPE Team Lead)</i>  | <i>Annually, August - December</i>  |
| <i>Collect county-level data on sexual violence, risk factors of sexual violence, and structural determinants of health inequality indicators.</i>                                    | <i>Access to county- and state-level data.</i>  | <i>The external evaluation team collects data on all selected county-level indicators.</i>   | <i>Heidi Scherer (Lead External Evaluator)</i>   | <i>Annually, April – July</i>       |
| <b>Data Analysis</b>  |   |  |  |                                     |
| <i>Analyze county-level data on sexual violence, risk factors of sexual violence, and structural determinants of health inequality outcomes to create rankings and hot spot maps.</i> | <i>Access to data, statistical software, and graphic software for producing tables and figures for the report.</i>  | <i>The external evaluation team analyzes data on all selected county-level indicators and produces reports, maps, and infographics for the GASVPP team.</i>  | <i>Heidi Scherer (Lead External Evaluator)</i>   | <i>Annually, August - October</i>   |
| <i>Analyze process and outcome evaluation data for each specific approach/program and produce</i>   | <i>Access to data, statistical software, and graphic software for</i>   | <i>The external evaluators compile datasets, analyze the data, report the findings, and produce a written evaluation report.</i>   | <i>Heidi Scherer (Lead External Evaluator)</i>   | <i>Annually, November - January</i> |

|   |  |  |  |                                 |
