

The screenshot shows the TRAIN Georgia website interface. At the top right, a user profile dropdown menu is open, displaying the name "David" next to a person icon. The menu options are "Your Profile" and "Log Out, DAVID". A red arrow points from the "David" text to the dropdown menu. Below the header, the "TRAIN Georgia" logo is on the left, and the "DPH GEORGIA DEPARTMENT OF PUBLIC HEALTH" logo is on the right. The navigation menu includes "HOME", "COURSE CATALOG", "YOUR LEARNING", "CALENDAR", "RESOURCES", "DISCUSSIONS", and "HELP". A search bar is located to the right of the navigation menu. The main content area features an "Announcements" section with a title "Need to take the HEADS UP to Youth Sports Concussion course?". The announcement text includes instructions on how to create an account and a notice that the course has moved to CDC TRAIN as of 3/1/2020. A small image of two women in a meeting is on the left side of the announcement. At the bottom of the announcement, there are navigation arrows and the text "1 of 3".

20

This screenshot is similar to the one above, showing the TRAIN Georgia website. The user profile dropdown menu is open, showing "Your Profile" and "Log Out, DAVID". A red arrow points from the "David" text in the header to the dropdown menu. The rest of the page content, including the navigation menu, search bar, and the "Announcements" section with the "Need to take the HEADS UP to Youth Sports Concussion course?" announcement, is identical to the previous screenshot. A small URL "www.train.org/georgia/edit/account" is visible at the bottom left of the announcement image.

Course Provider (Fields marked below are required)

Please review the content listing requirements and complete the form below. Your request will be reviewed.

1. Content must be designed for the continuing education and training of professionals who protect the public's health and be consistent with the target audiences in the TRAIN Learning Network. Consumer-oriented health education and materials are not permitted.
2. Content must be designed to build knowledge, skills, or competence in one or more of the subject areas of the TRAIN Learning Network.
3. Content must be designed for instructional - not reference - use by learners or trainers. Content must be delivered in formats consistent with those on the TRAIN Learning Network.

I have reviewed the content listing requirements.

What public health-related topics will be covered in your content?

What audiences does the majority of your content serve?

Is your organization accredited to provide training related to these topics or audiences?

Does any of your public health-related content offer continuing education credits?

Will there be fees charged for any of your content?

Additional information you wish to provide
