

GEORGIA ADULT OBESITY BY COUNTY

A recent predictive modeling analysis using data from the Behavioral Risk Factor Surveillance System (BRFSS) produced county level obesity prevalence estimates for non-institutionalized civilian adults in 2007. Overall, 29% of adult Georgians were obese in 2007, but the prevalence of obesity varies across the counties, ranging from 23.3% to 35.6%. Figure 1 shows the distribution of obesity across the state. Table 1 contains the estimated adult obesity percentages for each county in 2007.

Figure 1: Estimated Percent of Adult Obesity By County in Georgia, 2007
