

Georgia Department of Public Health Cancer State Aid Program

HOW TO OBTAIN OUTPATIENT PRESCRIPTIONS

The Cancer State Aid Program (CSA) provides assistance for currently enrolled patients to obtain cancer related prescriptions.

All prescriptions must have CSA approval before they are dispensed to be eligible for program reimbursement.

The participating doctor or pharmacy must fax a completed Medication Request Form to CSA to receive confirmation of coverage and RX approval before dispensing.

Medication Request Forms are posted on the CSA website in the “materials for providers” section.

Please fax the completed form to: **(404) 657-6316.**

To inquire about prescription approvals, please contact CSA:
(404) 463-5111.
