Vaccine Storage Temperature Log (Fahrenheit)

VFC PIN: _____ Month/Year: _____

- **Providers are required to have protocols for reviewing and recording min/max temperature reading at the beginning of each work day.**
- Complete this log by marking the:
  - ✓ Time of day the temperatures were checked.
  - ✓ Initials of the staff person recording the temperature.
  - ✓ An "X" in the box that corresponds with the current temperature/time of day.
- If the temperature is in the too warm or too cold row, write the actual temperature in the box; do not use an X.
- Fill in the minimum and maximum temperatures in the morning (if you have that information).
- Take immediate action on any temperature you find in the shaded area!
- If the temperature in your refrigerator/freezer is not on the grid **or** is in a shaded area, mark the vaccine in question and do not use it until you've called the Georgia Immunization Program, 800-848-3868 or 404-657-5013.
- If the vaccine has gotten too warm or too cold, you will not be able to distinguish viable from nonviable vaccine by looking at it.
- Keep these monthly temperature logs for three years.

Days 1-15

Day of Month	Example		1		2		3		4		5		6		7		8		9		10		11		12		13		14		15	
Time of day	am	pm	am	pm	am	pm	am	pm	am	pm	am	pm	am	pm	am	pm	am	pm	am	pm	am	pm	am	pm	am	pm	am	pm	am	pm	am	pm
	8:00																															
Staff Initials	JM																															

Refrigerator - Aim for 40°F
