The Georgia Youth Risk Behavior Survey (YRBS) monitors students’ health risks and behaviors in six categories: unintentional injury and violence, tobacco use, alcohol and other drug use, dietary behavior, and physical activity. The YRBS is conducted every two years among a representative group of Georgia public school students in grades 6-8.

The YRBS monitors students’ health risks and behaviors in six categories: unintentional injury and violence, tobacco use, alcohol and other drug use, dietary behavior, and physical activity.
