Fecal Incident

Log Fecal Incident by recording date, time, observations and chlorine level at time of event. Document actions taken and applicable chemical parameters used.

1. **CLOSE POOL**
   - **DIARRHEA?** or unknown type
     - **YES**
       - **POOL DRAINABLE?**
         - **YES**
           - **CLOSE POOL, CALL HEALTH DEPARTMENT**
         - **NO**
           - **REMOVE ALL VISIBLE FECAL MATTER**
           - **CHECK CHLORINE LEVELS**
             - **YES**
               - **CHLORINE LEVEL 3 PPM OR HIGHER?**
                 - **NO**
                   - **OPEN POOL**
                 - **YES**
                   - **RAISE CHLORINE LEVEL TO 3 PPM OR HIGHER**
                   - **RUN SYSTEM FOR 30 MINUTES**
                   - **CLEAN SKIMMERS, GUTTERS AND STRAINERS**
                   - **BACKWASH OR CLEAN FILTERS**
                   - **OPEN POOL**
                 - **OPEN POOL**
               - **RUN SYSTEM FOR 30 MINUTES**
               - **RAISE CHLORINE LEVEL TO 3 PPM OR HIGHER**
               - **RUN SYSTEM FOR 30 MINUTES**
               - **CLEAN SKIMMERS, GUTTERS AND STRANER**
               - **BACKWASH OR CLEAN FILTERS**
               - **OPEN POOL**
             - **OPEN POOL**
           - **NO**
             - **REMOVE ALL VISIBLE FECAL MATTER**
             - **DRAIN POOL**
             - **BRUSH POOL SURFACE'S WITH 100 PPM CHLORINE SANITIZING SOLUTION**
             - **RINSE AND THEN FILL POOL**
             - **ADJUST TOTAL ALKALINITY, CORRECT pH, 7.2 - 7.5, *INCREASE CHLORINE TO 3 PPM**
             - **RUN SYSTEM FOR 45 MINUTES**
             - **BACKWASH, CLEAN OR REPLACE FILTERS**
             - **OPEN POOL**
             - **OPEN POOL**
             - **OPEN POOL**
             - **OPEN POOL**
             - **OPEN POOL**
             - **OPEN POOL**
             - **OPEN POOL**
   - **NO**
     - **RUN SYSTEM FOR 30 MINUTES**
     - **RAISE CHLORINE LEVEL TO 3 PPM OR HIGHER**
     - **RUN SYSTEM FOR 30 MINUTES**
     - **CLOSE POOL**

2. **CLOSE POOL**
   - **DIARRHEA?** or unknown type
     - **YES**
       - **POOL DRAINABLE?**
         - **YES**
           - **CLOSE POOL, CALL HEALTH DEPARTMENT**
         - **NO**
           - **REMOVE ALL VISIBLE FECAL MATTER**
           - **CHECK CHLORINE LEVELS**
             - **YES**
               - **CHLORINE LEVEL 3 PPM OR HIGHER?**
                 - **NO**
                   - **DRAIN POOL**
                 - **YES**
                   - **RAISE CHLORINE TO 20 PPM MINIMUM**
                   - **BRUSH SIDES, BOTTOM, AND DECK IF CONTAMINATED, WITH 100 PPM CHLORINE**
                   - **RUN SYSTEM 13 HOURS AND UNTIL CHLORINE HAS REACHED ALLOWABLE LEVELS**
                   - **CLEAN SKIMMERS, GUTTERS AND STRAINERS**
                   - **BACKWASH, CLEAN OR REPLACE FILTERS**
                   - **OPEN POOL**
                 - **OPEN POOL**
               - **OPEN POOL**
             - **OPEN POOL**
           - **OPEN POOL**
         - **OPEN POOL**
   - **NO**
     - **OPEN POOL**

Note: * Maintain pH, between 7.2 - 7.5.

Before opening pool, check and adjust chemicals to regulatory level.
