Adult (≥19 years old) Vaccine Supply Decision Guide

Annex to Vaccine Eligibility Table

Does the adult have private insurance, Medicaid, or Medicare (Part B and/or Part D)?

Yes

Does the adult’s insurance plan* cover the needed vaccine?

Yes

Client is considered fully insured. Administer county purchased vaccine. (Private purchased)

Unsure

No

Client is considered uninsured. Administer 317-supplied vaccine if client meets current eligibility criteria.

No

Client is considered underinsured. Administer 317-supplied vaccine if client meets current eligibility criteria.

It is the individual's responsibility to understand their insurance status and identify in-network providers. For more information about immunizations covered by Medicaid and other payers, review the GA Public Health Billing Manual.

*Adults with Medicaid or Medicare coverage are considered insured
