Adult (≥19 years old) Vaccine Supply Decision Guide

Annex to Vaccine Eligibility Table

**Algorithm for Public Health Clinics**

- **Does the adult have private insurance, Medicaid, or Medicare (Part B and/or Part D)?**
  - **No**
    - Client is considered uninsured. Administer 317-supplied vaccine if client meets current eligibility criteria.
  - **Yes**
    - **Does the adult’s insurance plan* cover the needed vaccine?**
      - **No**
        - Client is considered underinsured. Administer 317-supplied vaccine if client meets current eligibility criteria.
      - **Yes**
        - Client is considered fully insured. Administer county purchased vaccine. (Private purchased)
      - **Unsure**
        - It is the individual's responsibility to understand their insurance status and identify in-network providers. For more information about immunizations covered by Medicaid and other payers, review the GA Public Health Billing Manual.

---

*Adults with Medicaid or Medicare coverage are considered insured
