

**MEMORANDUM**

**INFORMATION MEMO #14-06**

**TO:** District Nutrition Service Directors

**FROM:** Debra Keyes, MA, RD   
Director  
Georgia WIC Program

**DATE:** July 28, 2014

**SUBJECT:** Immunization Reminder

Recently, the Georgia WIC Program received a letter from USDA regarding an outbreak of measles. The Georgia WIC Program has a working relationship with the Office of Immunization and a policy to make sure that all infants and children are immunized. According to USDA, two hundred eighty-three (283) cases of measles were reported to the Center for Disease Control and Prevention (CDC) between January 1, 2014 and May 23, 2014. This is a reminder to ensure that we continue to screen the most current immunization records and refer our participants to get immunized if needed.

If you have any questions, please contact Sonia Jackson at (404) 657-2900.
