Method:The numerator is the number of infants younger than 1 year of age diagnosed with NAS in Georgia. Diagnosis was defined using ICD codes. For the first three quarters of 2015, NAS was indicated by ICD-9 codes of 779.5 (drug withdrawal syndrome in a newborn) and 760.72 (narcotics affecting fetus or newborn via placenta or breast milk). For the last quarter of 2015, the ICD-10 codes P96.1 (neonatal withdrawal symptoms from maternal use of drugs of addiction) and P04.4 (newborn affected by maternal use of drugs of addiction) were used. Iatrogenic cases were identified and removed from consideration using Stephen Patrick's methodology as described in "Neonatal Abstinence Syndrome and Associated Health Care Expenditures." The denominator is the total number of hospital births in Georgia.

SPM 5 - Percent of birthing hospitals, NICUs, and Pediatric Departments with policies and education that adhere to the American Academy of Pediatrics (AAP) Safe Sleep guidelines
