## CULTURAL COMPETENCY RESOURCE GUIDE

# CULTURAL COMPETENCY RESOURCE GUIDE

## About this Resource

This resource guide was developed by the Cultural Competency Subcommittee of the Tuberculosis Education and Training Network (TB ETN)\*. Sponsored by the Centers for Disease Control and Prevention (CDC), TB ETN was formed to bring TB professionals together to network, share resources, and build education and training skills.

Updates to the guide are made periodically. Inclusion of an organization, resource, or reference in this guide does not constitute a recommendation or endorsement by the CDC or TB ETN.

This guide includes

- Organizations and Resources                      page 1
- Books, Article, and Reports                      page 31
- Assessment Tools                                      page 42

\*For more information about TB ETN, visit [www.cdc.gov/tb/TBETN/default.htm](http://www.cdc.gov/tb/TBETN/default.htm).

This resource was last updated in May 2007.

## ORGANIZATIONS AND RESOURCES LIST

Organization Name	Contact Information	Brief Description
Agency for Health Care Policy and Research "Questions are the Answer"	Agency for Healthcare Research and Quality Office of Communications and Knowledge Transfer 540 Gaither Road, Suite 2000 Rockville, MD 20850 Phone: 301-427-1364	Tips on getting more involved with your health care by asking questions, talking to your clinician, and understanding your condition.
American Association for Respiratory Care (AARC)	9425 N. MacArthur Blvd. Suite 100 Irving, TX 75063-4706 Phone: 972-243-2272 Fax: 972-484-2720 E-mail: info@aacr.org Website: www.aarc.org	AARC distributes two independent study packages on cultural competency. "Towards Culturally Competent Respiratory Care" helps practitioners look across cultures and at ways that patients deal with illness, pain, and healing. It explores how culture impacts health care beliefs and practices and aids in developing culture-specific communication styles. "Cultural Competence" focuses on understanding the impact of ethnic, religious, and cultural backgrounds on the delivery of patient care. It presents the importance of information-gathering about the literacy, family dynamics, and health beliefs of the many cultures in the U.S. Both are available for purchase on the website.
American Association of Colleges of Pharmacy (AACP)	1426 Prince St. Alexandria, VA 22314 Phone: 703-739-2330 Fax: 703-836-8982 Website: www.aacp.org/	The American Association of Colleges of Pharmacy (AACP) is the national organization representing the interests of pharmacy education and educators. AACP maintains a webpage dedicated to cultural competency. This page can be accessed from the AACP website by clicking on For Deans, then Student Affairs, then Cultural Competence. A compilation of cultural competency resources can also be found at <a href="http://www.aacp.org/Docs/AACPFunctions/Governance/7652_FinalBibliography.pdf">www.aacp.org/Docs/AACPFunctions/Governance/7652_FinalBibliography.pdf</a>

This is a sampling of resources. Inclusion of an organization in this list does not imply an endorsement by the Centers for Disease Control and Prevention or the TB Education and Training Network.

\*Starred items include TB specific resources.

## ORGANIZATIONS AND RESOURCES LIST

Organization Name	Contact Information	Brief Description
American International Health Alliance (AIHA), EurasiaHealth Knowledge Network*	American International Health Alliance 1225 Eye St., NW, Suite 1000 Washington, D.C., United States, 20005 USA Phone: 202-789-1136 Fax: 202-789-1277 E-mail: <a href="mailto:webmaster@eurasiahealth.org">webmaster@eurasiahealth.org</a> Website: <a href="http://www.eurasiahealth.org">www.eurasiahealth.org</a>	EurasiaHealth Knowledge Network is a project of the American International Health Alliance. The mission of the organization is to advance global health through volunteer-driven partnerships that mobilize communities to better address health care priorities, while improving productivity and quality of care. AIHA facilitates and supports these partnerships by providing resources and materials for partners. EurasiaHealth Knowledge Network is an on-line clearinghouse, supported by AIHA, featuring a library of multilingual health resources, databases, and interactive forums. Links to health care organizations are available. The goal of the website is to provide information, tools, and training to enhance the knowledge of health professionals in the countries of Central and Eastern Europe and the former Soviet Union. The library includes TB-specific materials.
American Medical Association (AMA)	Contact: Enza Messineo Phone: 312 464-5333 Fax: 312 464-5830 E-mail: <a href="mailto:enza_messineo@ama-assn.org">enza_messineo@ama-assn.org</a> Website: <a href="http://www.ama-assn.org">www.ama-assn.org</a>	AMA offers a bookstore which includes resources on health literacy and patient-provider communication. These resources are available for purchase on the website.
American Translators Association (ATA)	225 Reinekers Lane Suite 590 Alexandria, VA 22314 Phone: 703-683-6100 Fax: 703-683-6122 E-mail: <a href="mailto:ata@atanet.org">ata@atanet.org</a> Website: <a href="http://www.atanet.org">www.atanet.org</a>	The American Translators Association has an online translation and interpretation services directory of all interested members, with options to search by language pair, specialty, geographic area, etc. Click on "Find a Translator or Interpreter" and then click on "directory" of choice.
Association of Asian Pacific Community Health Organizations* (AAPCHO)	300 Frank H. Ogawa Plaza Suite 620 Oakland, CA 94612 Phone: 510-272-9536 Fax: 510-272-0817 E-mail: <a href="mailto:info@aapcho.org">info@aapcho.org</a> Website: <a href="http://www.aapcho.org">www.aapcho.org</a>	Mission is to promote advocacy, collaboration, and leadership that improves the health status and health access of Asian Americans. The Association produced a Cross-Cultural Tuberculosis Guide for health centers working with Asians and Pacific Islanders at risk for tuberculosis. The website has links to products, publications, programs and other resources. AAPCHO also maintains an e-mail listserv.

This is a sampling of resources. Inclusion of an organization in this list does not imply an endorsement by the Centers for Disease Control and Prevention or the TB Education and Training Network.

\*Starred items include TB specific resources.

## ORGANIZATIONS AND RESOURCES LIST

Organization Name	Contact Information	Brief Description
AT&T Relay Services	Phone: 800-855-2881 TTY: 800-855-2880 Customer Service Phone: 800-682-8706 TTY: 800-682-8786 Website: <a href="http://www.att.com/relay">www.att.com/relay</a>	Relay refers to a family of AT&T products and services that enable people who have difficulty hearing or speaking to communicate with conventional phone users over standard phone lines. ## ORGANIZATIONS AND RESOURCES LIST

Organization Name	Contact Information	Brief Description
National Alliance for Hispanic Health	1501 Sixteenth Street, NW Washington, DC 20036-1401 Phone: 202-387-5000 Website: www.hispanichealth.org	The National Alliance for Hispanic Health (the Alliance) is the Nation's oldest and largest network of Hispanic health and human services providers. Alliance members deliver quality services to over 12 million persons annually. As the Nation's action forum for Hispanic health and well-being, the programs of the Alliance inform and mobilize consumers; support providers in the delivery of quality care; promote appropriate use of technology; improve the science base for accurate decision making; and, promote philanthropy. The publications include A Primer for Cultural Proficiency: Towards Quality Health Services for Hispanics and Workbook: Tools and Resources for Self-Assessment as well as Delivering Health Care to Hispanics: A Manual for Providers Third Edition (2004) and its companion workbook.
National Asian Women's Health Organization (NAWHO)	One Embarcadero Center San Francisco, CA 94111 Phone: 415-773-2838 Email: mail@nawho.org Website: www.nawho.org/	Founded in 1993, NAWHO has served as a powerful voice for the health of Asian American women and families. We have provided research and information about the health of Asian Americans to the public health field, as well as critically-needed health education to the Asian American community. Through innovative programs and groundbreaking partnerships, NAWHO has broken the myth of the Asian American "healthy model minority" – improving breast cancer screening outreach, increasing awareness of diabetes risk, and closing the gaps in immunization coverage. Viewed as a results-oriented organization that is able to create innovative solutions and carry out new strategies for change, policy makers and opinion leaders have time and again recognized NAWHO as an effective leader in Asian American health.

## BOOKS, ARTICLES, AND REPORTS

Title	Authors/Editors	Publication Information	Description/Abstract	Contact Information or Website (if available)
Achieving Cultural Appropriateness in Health Promotion Programs: Targeted and Tailored Approaches	Kreuter MW, Lukwago SN, Bucholtz RD, Clark EM, Sanders-Thompson V	2003. Health Education and Behavior 30(2):147-50	This article describes five strategies commonly used to target programs to culturally defined groups. It also explains how a sixth approach, cultural tailoring, might extend these strategies and enhance our ability to develop effective programs for cultural groups. The authors illustrate this new approach with an example of cultural tailoring for cancer prevention in a population of lower-income urban African-American women.	
Anthropology in the Clinic: The Problem of Cultural Competency and How to Fix It	Kleinman A, Benson P	2006. PLoS Med 3(10): e294	This article addresses the problems with the idea of cultural competency and emphasizes the importance of ethnography. The article give healthcare workers six steps in dealing with a patient of another culture.	<a href="http://medicine.plosjournal.s.org/perlserv/?request=get-document&amp;doi=10.1371%2Fjournal.pmed.0030294">http://medicine.plosjournal.s.org/perlserv/?request=get-document&amp;doi=10.1371%2Fjournal.pmed.0030294</a>
Beyond Cultural Competence: Teaching about Race, Gender, Class, and Sexual Orientation	Abrums ME and Leppa CL	2001. Journal of Nursing Education 40(6):270-274	Culturally competent care has been defined as "sensitive to issues related to culture, race, gender, and sexual orientation." However, teaching cultural competence to nursing students has commonly emphasized cultural or ethnic beliefs, values, and practices, rather than issues of race, gender, class, or sexual orientation. The authors use the theory of "relational positionality" to help students recognize that everyone has a perspective through which they view the world as "normal".

## BOOKS, ARTICLES, AND REPORTS

Title	Authors/Editors	Publication Information	Description/Abstract	Contact Information or Website (if available)
Can Cultural Competency Reduce Racial and Ethnic Health Disparities? A Review and Conceptual Model	Brach C and Fraserirector I	2000. Medical Care Research and Review 57:181-217	This article develops a conceptual model of cultural competency's potential to reduce racial and ethnic health disparities. The authors identify 9 major cultural competency techniques and a conceptual model for how these techniques could theoretically improve the ability of health systems and their clinicians to deliver appropriate services to diverse populations.	
Coming of Age of Multicultural Medicine	McBride, G	2005. PLoS Medicine Vol. 2(3).	This essay discusses the importance of broadening cultural awareness to enhance medicine and health care.	<a href="http://medicine.plosjournal.s.org/archive/1549-1676/2/3/pdf/10.1371_journal.pmed.0020062-L.pdf">http://medicine.plosjournal.s.org/archive/1549-1676/2/3/pdf/10.1371_journal.pmed.0020062-L.pdf</a>
Cross-cultural Caring: A Handbook for Health Professionals (2nd ed.)	Waxler-Morrison, N, et al, (Eds.).	2005	This newly revised edition describes Vietnamese, Cambodian and Laotian, Chinese, Japanese, Iranian, South Asian, and Central American ethno-cultural groups. It stresses the need to understand both the cultural beliefs and the daily life concerns facing immigrants, such as work, income, child-rearing, and aging, all of which impinge on health. This new edition provides up-to-date statistics and fresh analysis, responding to changing trends in immigration. Additional material includes a new chapter addressing the special circumstances of refugees; short real-life stories of immigrants' and refugees' experiences; and a thorough, easy-to-use index.

## BOOKS, ARTICLES, AND REPORTS

Title	Authors/Editors	Publication Information	Description/Abstract	Contact Information or Website (if available)
Cultural Competency in Health: A Guide for Policy, Partnerships and Participation	National Health and Medical Research Council (NHMRC)	Australia 2006	This 85-page resource provides a model to help policy makers and managers with culturally competent policy and planning at all levels of the health system: systemic, organisational, professional and individual. The guide draws together evidence on programmes for increasing cultural competence and research on influences and determinants of healthy living and environments, within culturally and linguistically diverse communities. It provides practical strategies for increasing cultural competency and gives examples of evaluated programmes at the local level that aim to make a difference. In short, the guide advocates that successful health promotion campaigns are those that are culturally sensitive and create long-term partnerships with stakeholders, business and community groups.	Ms Cathy Clutton A/g Executive Director Policy and Practice National Health and Medical Research Council, Australia nhmrc.publications@nhmrc.gov.au
Cultural Competency in Health Social and Human Services: Directions for the Twenty-First Century	Lecca PD, Quervalu I, Nunes JV, and Gonzales HF	1998. New York: Garland Publishing, Inc.	This book presents information and techniques for improving cultural competency in the delivery of health, social, and human services to ethnic and racial minority groups in the United States. Special attention is paid to the importance of understanding the social and culture backgrounds of clients when assessing diagnosis of policy and economic issues. This book also includes material on cultural competency for special populations as the mentally ill, the elderly, children, and families.	
Cultural Diversity in Health and Illness, 5th Edition	Spector RE	2000. Prentice Hall Health	This book promotes an awareness of the dimensions and complexities involved in caring for people from diverse cultural backgrounds. Emphasizes the influence of social, political, and demographic changes.	

This is a sampling of resources. Inclusion of an organization in this list does not imply an endorsement by the Centers for Disease Control and Prevention or the TB Education and Training Network.

## BOOKS, ARTICLES, AND REPORTS

Title	Authors/Editors	Publication Information	Description/Abstract	Contact Information or Website (if available)
Culturally and Linguistically Appropriate Health Care for Racial or Ethnic Minorities: Analysis of the US Office of Minority Health's Recommended Standards	Shaw-Taylor Y	2002. Health Policy 62:211-221	This paper examines the recommended standards for culturally and linguistically competent health care delivery released by the Office of Minority Health. The paper argues that the public health agency must play a pivotal role in the delivery of culturally and linguistically competent health care in the community.	
Culturally Competent Healthcare Systems	Anderson LM, Scrimshaw SC, Fullilove MT, Fielding JE, Normand J, and Task Force on Community Preventive Services	2003. American Journal of Preventive Medicine 24:8-79	The authors reviewed 5 interventions to improve cultural competence in healthcare systems: programs to recruit and retain staff members who reflect the cultural diversity of the community served; use of interpreter services or bilingual providers for clients with limited English proficiency; cultural competency training for healthcare providers; use of linguistically and culturally appropriate health education materials; and culturally specific healthcare settings.	
Culture & Nursing Care: A Pocket Guide	Gibson J, Dibble S, & Minarik P, Eds.	1996. San Francisco: University of California	This book offers practicing nurses a snapshot of human diversity. It offers general guidelines to alert nurses to the similarities as well as differences between and within the groups. Each chapter outlines issues related to health and illness, symptom expression, self-care, birth, death, religion, and family participation in care, among other topics.	<a href="http://nurseweb.ucsf.edu/www/book4.htm">http://nurseweb.ucsf.edu/www/book4.htm</a>

Title	Authors/Editors	Publication Information	Description/Abstract	Contact Information or Website (if available)
Culture within the Context of Care: An Integrative Review	Kehoe KA, D'eramo G, and Newlin K	2003. Ethnicity & Disease 13:344-353	This review examines the literature on culturally relevant healthcare interventions, and their effect on health outcomes. Results of the review indicate that culturally relevant interventions significantly improve health outcomes for patients with diabetes mellitus (DM), drug addiction, sexually transmitted infections (STIs), and other health problems.	
Culture, Illness, and Care: Clinical Lessons from Anthropologic and Cross-Cultural Research	Kleinman A, Eisenberg L, and Good B	1978. Annals of Internal Medicine 88(2):251-8	Concepts derived from anthropologic and cross-cultural research may provide an alternative framework for identifying issues such as patient dissatisfaction, inequity of access to care, and costs no that require resolution. The article discusses how these social science concepts can be developed into clinical strategies with direct application in practice and teaching.	
Guide to Culturally Competent Health Care	Purnell, L. D., & Paulanka, B. J.	c2005	This guide offers information for students who feel uncomfortable dealing with those from a cultural background different than their own. It provides a summary of issues to be aware of, including cultural variations regarding personal space, dietary preferences, activities of daily living, communication, symptom management, activities of daily living, religious and health practices.	<a href="http://www.fadavis.com/online_store/catalog/catalog_detail.cfm?&amp;publication_id=1995&amp;CFID=2575200&amp;CF_TOKEN=76218465">www.fadavis.com/online_store/catalog/catalog_detail.cfm?&amp;publication_id=1995&amp;CFID=2575200&amp;CF_TOKEN=76218465</a>
Guide to Healthy Living for Hispanics (Guidebook and Video)	National Hispanic Medical Association and Pfizer	1999	The video is a Spanish-language (with English subtitles) 30-minute educational drama/documentary on healthy living. The guidebook is bilingual, 60 pages of disease information, and diet and exercise tips.	Call: 1-800-456-0180 ext. 402 to order a copy

Illness Narratives: Suffering, Healing, and the Human Condition	Kleinman A.	1988. New York: Basic Books	Kleinman, a psychiatrist at Harvard Medical School, pleads for doctors to consider psychological and social aspects of chronic illness along with the medical aspects. He points out a need for change in the education of physicians to reflect this broader view. He presents case histories to illustrate the differing reactions of patients to their illnesses. A distinctive feature is a comparison of patients in the United States and China, making the effect of social elements on illness graphically clear.

Improving Your Cultural Awareness with Culture Clues	Abbott PD, Short E, Dodson S, Garcia C, Perkins J, and Wyant S	2002. The Nurse Practitioner 27(2):44-51	The University of Washington Medical Center (UWMC) administered a survey to gauge patient education support needs among staff, the results indicated a need for cultural competency. Using action methodology and needs assessment, the committee charged with developing a tool to meet this need launched a new concept: Culture Clues. These brief documents provide culture-specific patient information, allowing staff to approach patients according to their culture. The committee created six Culture Clues and is developing more.	<a href="http://depts.washington.edu/pfes/cultureclues.html">http://depts.washington.edu/pfes/cultureclues.html</a>
Insurgent Multiculturalism: Rethinking How and Why We Teach Culture in Medical Education	Wear D	2003. Academic Medicine 78(6):549-554	The author proposes a theoretical orientation for cultural competency that reorganizes common curricular responses to the study of culture in medical education. What has come to be known in medical education as cultural competency is theoretically truncated and may actually work against what educators hope to achieve. Using Giroux's concept of insurgent multiculturalism, she suggests that the critical study of culture might be a bridge to certain aspects of professional development. Insurgent multiculturalism moves inquiry away from a focus on nondominant groups to a study of how unequal distributions of power allow some groups but not others to acquire and keep resources, including the rituals, policies, attitudes, and protocols of medical institutions.

National Standards for Culturally and Linguistically Appropriate Services in Health Care (CLAS)	Office of Minority Health	2001. U.S. Department of Health and Human Services, Office of Minority Health	The national standards were issued by the U.S. Department of Health and Human Services (HHS) Office of Minority Health (OMH) to respond to the need to ensure that all people entering the health care system receive equitable and effective treatment in a culturally and linguistically appropriate manner. These standards for culturally and linguistically appropriate services (CLAS) are proposed as a means to correct inequities that currently exist in the provision of health services and to make these services more responsive to the individual needs of all patients/consumers.	<a href="http://www.omhrc.gov/clas/">www.omhrc.gov/clas/</a>
Pocket Guide to Cultural Health Assessment Third Edition	D'Avanzo C, Geissler E.	2003. Mosby.	This guide presents practical, concise information that could impact patient and family care. An introduction to people from more than 180 countries is presented alphabetically for easy reference.	
Research on Culturally Competent Healthcare Systems: Less Sensitivity, More Statistics	Hayes-Bautista D	2003. American Journal of Preventive Medicine. 24:3S	This article calls for more research on the effectiveness of cultural competence in health care setting.	<a href="http://www.atpm.org/publications/AJPM_Supplement_Apr03/ResearchCulturCompetentHealthcareSystems.pdf">www.atpm.org/publications/AJPM_Supplement_Apr03/ResearchCulturCompetentHealthcareSystems.pdf</a>
Summary of State Law Requirements Addressing Language Needs in Health Care	National Health Law Program	Jan. 2006	State laws provide a source of potential protection for limited English proficient (LEP) persons. In recent years, state legislatures and administrative agencies have increasingly recognized the need for linguistically-appropriate health care and have adopted measures that require or encourage health and social service providers to overcome language barriers. This document offers citation to, and a short description of, each state's laws regarding services to LEP persons in health care settings.	<a href="http://www.healthlaw.org/library.cfm?fa=detailitem&amp;fromFa=detail&amp;id=97684&amp;folderID=74931&amp;appView=folder&amp;r=rootfolder~~23177,appview~~folder.id~~74931,fa~~detail">www.healthlaw.org/library.cfm?fa=detailitem&amp;fromFa=detail&amp;id=97684&amp;folderID=74931&amp;appView=folder&amp;r=rootfolder~~23177,appview~~folder.id~~74931,fa~~detail</a>

Teaching Patients with Low Literacy Skills, Second Edition	Doak C, Doak L, & Root J	1996. Philadelphia: J.B. Lippincott Company	Included in this book is a chapter on assessing the suitability of materials for a variety of concepts including cultural appropriateness. The authors offer the SAM: a suitability assessment of materials instrument. SAM provides a numerical percentage score that may fall into one of three categories: superior, adequate, or not suitable. The application of SAM can pinpoint specific deficiencies in an instruction that can reduce its suitability	
The Spirit Catches You and You Fall Down: A Hmong Child, Her American Doctors, and the Collision of Two Cultures	Fadiman, A	1997. USA: Farrar, Straus, and Giroux	This 339-page novel is the true story of a refugee Hmong child and her family who try to negotiate the American medical system in order to diagnose and treat her illness. They speak no English, have recently come to this country, and face a frightening and confusing disease. Through this personal story, the book exposes the problems, realities, and worst-case scenarios of culture-clash in a medical setting. As background reading, this novel is a great eye-opener for teachers who are discussing the American health system in class, or for health professionals who see patients from other cultures, particularly Hmong patients.

Unequal Treatment: Confronting Racial and Ethnic Disparities in Healthcare.	Institute of Medicine	2003. Washington D.C.: The National Academic Press	Congress, in 1999, requested an IOM study to assess the extent of disparities in the types and quality of health services received by U.S. racial and ethnic minorities and non-minorities; explore factors that may contribute to inequities in care; and recommend policies and practices to eliminate these inequities. The report from that study, Unequal Treatment: Confronting Racial and Ethnic Disparities in Health Care, found that a consistent body of research demonstrates significant variation in the rates of medical procedures by race, even when insurance status, income, age, and severity of conditions are comparable.	<a href="http://www.iom.edu/report.asp?id=4475">www.iom.edu/report.asp?id=4475</a>
