Financial Aid and Cost to Interns

There is no tuition fee at this time to participate in the DPH WIC Dietetic Internship Program. Participation in the DPH WIC Dietetic Internship Program may allow college loans to be deferred. Also, because of the internship status, educational loans may be requested through the Academy of Nutrition and Dietetics (AND) or a lending institution. Seeking financial aid is the responsibility of the dietetic intern.

DPH WIC dietetic interns continue to receive their full-time salary and fringe benefits from their District Public Health employer during the internship. Dietetic interns do not receive stipends in addition to their salaries provided by their employer. Interns must provide their own transportation, laptop, and Internet service. When WIC funds are available, the intern's District Public Health Office can assist the intern with WIC-allowable expenses such as lodging, travel, conference fees, books, etc., but this is not an expectation. The following costs to the intern are estimates and subject to change:
