Introduction

About this Document
The Georgia Ryan White Part B/ADAP/HICP Policies and Procedures Manual provides guidance on the Ryan White Part B, the AIDS Drug Assistance Program (ADAP), and the Health Insurance Continuation Program (HICP), and defines the administrative functions and processes in Georgia. This manual provides an overview of the Ryan White CARE Act and its various revisions with a detailed description of the most recent law implemented. A discussion follows of Georgia’s Ryan White Part B Program with specific focus on its components. Included in this manual are also lists of Georgia Ryan White Part B Clinics and ADAP/HICP Enrollment sites. The manual is a living document to be updated as needed. All information, policies, procedures and documents found herein are effective as of April 1, 2017.

Ryan White Overview
The Ryan White Comprehensive AIDS Resources Emergency Act is a Federal legislation that addresses the unmet health needs of persons living with HIV/AIDS (PLWHA) by funding primary health care and support services that enhance access to and retention in care. First enacted by Congress in 1990, it was amended and reauthorized in 1996, 2000, 2006 and 2009; it was funded at $2.32 billion in 2017.

Federal funds are awarded to agencies located around the country, which in turn deliver care to eligible individuals under funding categories called Parts.

- **Part A** provides emergency assistance to Eligible Metropolitan Areas and Transitional Grant Areas that are most severely affected by the HIV/AIDS epidemic.

- **Part B** provides grants to all 50 States, the District of Columbia, Puerto Rico, Guam, the U.S. Virgin Islands, and five (5) U.S. Pacific Territories or Associated Jurisdictions.

- **Part C** provides comprehensive primary health care in an outpatient setting for people living with HIV disease.

- **Part D** provides family-centered care involving outpatient or ambulatory care for women, infants, children, and youth with HIV/AIDS.

- **Part F** provides funds for a variety of programs:
  - The Special Projects of National Significance Program grants fund innovative models of care and supports the development of effective delivery systems for HIV care.
  - The AIDS Education and Training Centers Program supports a network of 11 regional centers and several National centers that conduct targeted, multidisciplinary education and training programs for health care providers treating people living with HIV/AIDS.
  - Dental Programs provide additional funding for oral health care for people with HIV.
  - The Minority AIDS Initiative provides funding to evaluate and address the disproportionate impact of HIV/AIDS among African Americans and other minorities.
Georgia Ryan White Part B Components
Below is a description of the Georgia Ryan White Part B Program and its components.

Ryan White Part B Program
In Georgia, the Ryan White Part B Program is administered by the Georgia Department of Public Health (DPH), Division of Health Protection, Office of HIV/AIDS. The Office of HIV/AIDS funds agencies in 16 public health districts to deliver HIV/AIDS services throughout the state. The agencies are responsible for planning and prioritizing the delivery of HIV services in their respective geographic areas. All funded agencies provide primary care services. Support services are funded based on the availability of resources. Part B also funds the Georgia ADAP and HICP, which provide medications and health insurance coverage. Please see Appendix A for a list of the Part B Primary Care Clinics.

Seventy-five percent of Part B funds must be used to fund “core medical services” which include outpatient and ambulatory health services; ADAP; AIDS pharmaceutical assistance; oral health care; early intervention services; health insurance premium and cost-sharing assistance; home health care; medical nutrition therapy; hospice care; community based health services; substance abuse outpatient care; and medical case management, including treatment adherence services. The remaining 25 percent of funds must go to support services that are needed for PLWHA to achieve their medical outcomes, such as respite care, outreach services, medical transportation, linguistic services, and referrals for health care and support services. Please see Appendix B for definitions for each of the above HIV services.

ADAP
ADAPs are state administered programs that provide HIV/AIDS medications to low-income individuals living with HIV disease, who have little or no coverage from private or third party insurance. The ADAP started as a Health Resources and Services Administration (HRSA) demonstration project to provide zidovudine (AZT), the first drug approved by Food and Drug Administration (FDA) to treat HIV infection. Since that time, ADAPs have significantly expanded to cover other FDA approved drugs to treat HIV infection and HIV-related opportunistic infections.
Georgia ADAP services are available to all eligible residents throughout all 18 health districts in the state. There are 27 enrollment sites (Appendix C) in Georgia, inclusive of seven (7) approved sites located in metro Atlanta.

HICP
The Georgia HICP is a state administered program which assists eligible persons who are unable to pay their health insurance premiums for private/individual or Consolidated Omnibus Budget Reconciliation Act (COBRA) plans. This special program pays a maximum monthly health insurance premium of $1,375.00, which may include a spouse and children on a family health insurance plan, as well as dental and vision. The HICP has expanded insurance assistance to cover medication co-pays, in addition to premiums, for eligible individuals. The program will only accept new clients who have insurance plans that include both outpatient primary care coverage and prescription coverage without a yearly cap. The HICP allows clients the opportunity and flexibility to continue to access their doctors, maintain a continuum of primary health care and sustain an improved quality of life. In addition, the program has also expanded prescription co-pay assistance to eligible Medicare Part D participants.
D co-pay assistance component of the program will assist individuals with out-of-pocket costs for ADAP approved formulary medications.

The Office of HIV/AIDS has continued to evaluate the effectiveness of the HICP which pays health insurance premiums and medication co-pays for eligible clients with health coverage. The provision of health insurance assistance has proven to be a more cost effective way to meet the needs of clients in comparison to providing expensive HIV/AIDS medications at a much higher cost. Georgia HICP services are available to all eligible residents of Georgia at all ADAP-HICP enrollment sites (Appendix C).

Minority AIDS Initiative (MAI)
The Georgia Ryan White Part B Program utilizes MAI funds for the implementation and continuation of the evidence-based Antiretroviral Treatment and Access to Services (ARTAS) Linkage Case Management intervention to conduct outreach, educate and link minority clients into care, ADAP, partner services, and other social services. Ryan White MAI funded health agencies use ARTAS as a method to identify and re-engage clients who have been “lost to care” and re-link them to care.

Emerging Communities (EC)
Georgia has one eligible emerging community, the Augusta-Richmond County, GA-SC metropolitan statistical area (MSA), part of the Augusta Health District. ECs are determined based on cumulative AIDS cases reported to and confirmed by the CDC during the most recent period of five calendar years. EC funds are used to provide increased access to unfunded or underfunded services.

Section 1: Sub-Recipient Roles & Responsibilities
The primary role of sub-recipients, the 16 funded agencies, is to provide medical and support services to all eligible persons living with HIV/AIDS who reside in Georgia. Sub-recipients are responsible for maintaining appropriate relationships with entities in the area they serve that constitute key points of access to the health care system for individuals with HIV/AIDS (emergency rooms, substance abuse treatment programs, detoxification centers, adult and juvenile detention facilities, STD clinics, and others) for the purpose of facilitating early intervention for individuals newly diagnosed with HIV/AIDS and individuals knowledgeable of their HIV status but not in care. Services provided must meet all service standards set forth by the state, and must align with HRSA’s Ryan White Universal and Part B programmatic and fiscal National Monitoring Standards.

HIV Care Continuum
The continuum of interventions that begins with outreach and testing, and concludes with HIV viral load suppression is generally referred to as the HIV Care Continuum or the HIV Treatment Cascade. The HIV Care Continuum includes the diagnosis of HIV, linkage to HIV medical care, lifelong retention in HIV medical care, appropriate prescription of antiretroviral therapy (ART), and ultimately HIV viral load suppression.

Sub-recipients are encouraged to assess the outcomes of their programs along the HIV Care Continuum. Funded agencies should work with their community and public health partners to improve outcomes across the Continuum, so that individuals diagnosed with HIV are linked and engaged in care, and started...
on ART as early as possible. Performance measures developed for the Ryan White Part B Program should be used to assess the efficacy of the programs and to analyze and improve the gaps along the Continuum.

Care Consortium
Sub-recipients must collaborate with their local Ryan White Part B HIV Care Consortia to conduct appropriate assessments of need, prioritizing and planning for the delivery of allowable Ryan White Part B medical and support services. Delivery of HIV medical and support services shall be provided either directly by the sub-recipient or indirectly through sub-contractual agreements with outpatient, home health care and support service providers. Each Ryan White Part B HIV Care Consortium should have written bylaws and procedures for membership in place. Consortia meetings should be conducted no less than quarterly. Minutes from each meeting shall be sent to the assigned District Liaison. Sub-recipients are responsible for submitting the Ryan White Part B HIV Care Application required annually.

Sub-recipients are responsible for completing a yearly needs assessment through their Ryan White Part B Care Consortia in order to gain community input that can assist in prioritizing and ranking service needs. Each sub-recipient must submit documentation of the current needs assessment to the assigned District Liaison. Information about the needs assessment is also required for the yearly Ryan White Part B HIV Care Application.

Programmatic Expectations
Each sub-recipient and sub-contractor is contractually required to be compliant with the audit requirements in 45 CFR 75 Subpart F. Each sub-recipient must also comply with the requirements listed in the Georgia DPH Annexes through which they receive funding for Ryan White, as well as those expectations delineated in this manual.

Sub-recipients are required to submit programmatic/quality reports, expenditure reports, and implementation plans, as well as utilize CAREWare to collect and report data and/or fiscal reports as necessary for all Part B Program funds. These reports are utilized for both programmatic and fiscal monitoring purposes. Programmatic/quality reports allow sub-recipients to report on the progress of goals and objectives as well as identify challenges, barriers, and technical assistance needs. Report templates can be found with the yearly annexes and by contacting your assigned District Liaison.

As part of their quarterly responsibilities, sub-recipients are responsible for submitting a Quarterly Expenditure Report, Quarterly Implementation Plan, and the Quarterly Quality Management (QM) Report. The reports are due no later than the 20th day of the month following the end of the quarter (Figure 1) and must be submitted in the format provided by the state.
Before engaging in a sub-contractual process, sub-recipients must submit a justification as to why they have a need to sub-contract services, as well as a copy of the drafted contract for approval by the Office of HIV/AIDS Ryan White Part B Program. The justification is to verify that any sub-contracts paid for with Ryan White Part B funding are compliant with Ryan White regulations and guidelines. All contracts must be fully executed and signed prior to the provision of services. Reimbursements must be based on services provided and invoices must include an appropriate description of services. Flat rate reimbursement schedules are not permitted. Sub-recipients are responsible for verifying and documenting that any sub-contractors providing services to clients have appropriate credentials, licensure and liability coverage. **Sub-recipients are required to conduct at least one on-site monitoring visit to all sub-contractors annually to assess the sub-contractors’ compliance with state and federal regulations, including HRSA Ryan White Universal and Part B programmatic and fiscal National Monitoring Standards.** On-site monitoring reports and corrective action plans are submitted when indicated. **A list of all sub-contractors and copies of all sub-contracts must be submitted to the state office on a yearly basis. These documents will also be reviewed by Georgia DPH auditors.**

Sub-recipients must submit a line-item budget using the form provided by the Office of HIV/AIDS Ryan White Part B Program. Unless otherwise directed, budgets are to be completed for the upcoming year using the same level of funding awarded the previous year. A narrative budget justification must accompany the budget form. When developing the budget, sub-recipients must be aware that the total amount of Administrative Costs and Indirect Costs paid with Ryan White Part B funds shall not exceed 10% of the total allocation. Personnel costs for direct service contractors, such as clinicians, case managers, etc., are not considered administrative and must be indicated under direct care costs.

The budget total cannot be exceeded. However, a plus or minus deviation of 10% within budget line items is authorized. **In the event that expenditures for a line item are expected to exceed these limits, a budget revision must be submitted and approved by the Office of HIV/AIDS in advance.** A maximum of two (2) budget revisions are allowed in a single fiscal year. Requests for an exemption due to extenuating circumstances (e.g., unprecedented changes in staffing) must be submitted to the Office of HIV/AIDS for review and approval.

If 75% of funds are not expensed by the end of December, the sub-recipient is required to submit a written report illustrating how the remaining funds will be spent or if the funds cannot be spent. If this
occurs, the Office of HIV/AIDS Ryan White Part B Program reserves the right to unallocate funds anticipated to lapse and reallocate those funds to another sub-recipient. For those sub-recipients receiving the additional funds, the reallocations will be a one-time allotment and will not be reoccurring funds for the succeeding fiscal year.

NOTE 1: Indirect costs taken out of Ryan White Part B funding are considered administrative and must fall within the 10% administrative cap. No indirect costs are to be charged to MAI or Emerging Community (EC) funds.

NOTE 2: Please refer to HRSA Policy Clarification Notice (PCN) #15-01 for additional details regarding the 10% administrative cap.

At a minimum of once a year, sub-recipients shall participate in a performance review (administrative site visit) of the Part B Program to be conducted by the Office of HIV/AIDS District Liaison and other staff as needed. Minimum requirements for site visits will be contingent on staffing and travel restrictions. Upon completion of the performance review, a summary of findings will be sent to the HIV Coordinator and Health Director. If the Office of HIV/AIDS Ryan White Part B Program recommends corrective action, the sub-recipient is expected to complete and submit an action plan that includes key actions and time frames to improve program performance for those areas identified. Upon receipt of the final administrative report, the sub-recipient will have 45 days to submit their corrective action plan to the Office of HIV/AIDS. If corrective action measures are not implemented within the specified timeframe, funding may be restricted.

Sliding Fee Scale
Sub-recipients shall implement a sliding fee scale policy. If the sub-recipient accepts reimbursement for primary care and support services from any third-party payer (such as private insurance or Medicaid), clients provided services under this agreement must be assessed for fees for services provided, according to a sliding fee schedule and in accordance with federal requirements outlined in the Ryan White CARE Act of 1990, as amended. Only clients whose incomes exceed 100% of the current FPL are to be assessed fees for Ryan White Part B services.

Program Income
Program income is gross income earned that is directly generated by a supported activity or earned as a result of the Federal award during the period of performance (the Part B period of performance is from April to March). Examples of program income include:

- Charges imposed on clients for services;
- Funds received by billing public or private health insurance for services provided to eligible clients;
- Fees, payments, or reimbursement for the provision of a specific service, such as patient care reimbursements received under Medicare, Medicaid, or Children’s Health Insurance Program;
- The difference between the third party reimbursement and the 340B drug purchase price.

Program income must be used for activities related to Ryan White Part B care services; including core medical and support services, clinical quality management, and administrative expenses (including
planning and evaluation). Sub-recipients should retain program income for use within their own Ryan White Part B programs, but must report program income earned through Part B and how they plan to use the funds to the state. While program income must be used for allowable services under Part B, income can be used to expand the services provided outside of what is approved in the sub-recipient Part B budget.

**NOTE 1:** Program income is not subject to the 10% administrative cap in order to support a comprehensive system of care.

**NOTE 2:** For additional information on program income refer to HRSA PCN #15-03.

**Recertification**

Ryan White Part B service providers should review client eligibility at every visit. **All Ryan White Part B, ADAP and HICP clients are required to recertify every six months.** Clients will be able to self-attest during one of their yearly recertification periods but must submit all appropriate documentation during their 12-month recertification period. Clients need to be screened for other payer sources and income to ensure program eligibility and compliance with “payer of last resort” regulations. In order to verify that Ryan White is the “payer of last resort” Ryan White clinics must collect and maintain client documentation regarding client eligibility for other health plans or lack thereof. Please see the Eligibility Recertification section for additional details. The local ADAP Coordinator or case manager should initiate the recertification process during a face-to-face interview.

**Stop Gap Medications**

Stop Gap Medication funding provides sub-recipients with the resources to purchase medications on the ADAP formulary (antiretroviral and non-antiretroviral (OI) medications) for use while clients are waiting on ADAP approval/recertification.

As Ryan White is considered the “payer of last resort,” stop gap medications are not to be used until all other resources have been exhausted. Before utilizing stop gap medications, sub-recipients should verify that ADAP applications/recertifications are submitted completely and in a timely manner to allow for processing and approval without resulting in a gap in services. In addition, sub-recipients should reach out to patient assistance programs (PAPs) whenever possible before utilizing stop gap medications. Steps taken before medications are prescribed must be documented to show that stop gap funding is being utilized appropriately.

If available resources are limited, provision of stop gap medications should be prioritized for Ryan White Part B eligible clients with the following conditions:

- Pregnancy
- CD4 count below 200 cells/mm³
- History of an AIDS defining illness
- Co-morbid conditions (e.g. HIV-associated dementia, HIV-associated nephropathy, Hepatitis B virus co-infection)
- Acute HIV infection

Stop Gap Medications cannot be utilized for individuals who do not qualify for Ryan White Part B services, as a long term solution to treating clients, or to purchase medications in bulk. Any credits from
expired medications from past purchases with state funding must be reported to the Georgia Ryan White Part B Program through the assigned District Liaison. If a sub-recipient has a need to purchase stop gap medications, a staff member will need to complete the Justification for Order of Stop Gap Medications worksheet (Appendix D), and submit to the state office through the assigned District Liaison for approval before any medications are ordered from Cardinal or any invoices are submitted to the state. If approval is granted based on the justification, the sub-recipient may then place an order for the medications and the invoice can be submitted to the state office for payment. Sub-recipients approved for the purchase of medications must continue to submit a monthly copy of the Medication Dispensing Log (Appendix E), utilizing the CAREWare URN as the client identifier and matching the information reported in the justification. This log must be submitted to the Office of HIV/AIDS on the 3rd of each month.

**MAI Funding**

Sub-recipients receiving MAI funding for the implementation and continuation of ARTAS Linkage Case Management must utilize funds to coordinate linkage efforts in order to maximize education and outreach strategies to link minorities to ADAP, and reduce duplication of services and efforts. The focus of the initiative is to target those minorities who know their HIV status and have not accessed care within 6-12 months, and effectively link these clients to medical care (specifically, medication services including ADAP) within 90 days. Funding can only be used for two service categories, outreach and health education.

In addition to the quarterly expenditure reports and implementation plans, sub-recipients receiving MAI funding are required to utilized CAREWare for data collection and reporting, and submit **monthly data reports** which are due by the 15th of each month. As part of the collaborative efforts with the HIV Prevention Program, districts are also expected to participate in combined linkage efforts and ARTAS technical assistance calls.

Quality Management (QM) Expectations
Sub-recipient are expected to refer to the Georgia Ryan White Program Part B QM Plan which contains goals, objectives and strategies to ensure the implementation and monitoring of quality management activities, as well as compliance with HRSA’s QM expectations at both the state and local levels. Office of HIV/AIDS Ryan White Part B Program activities are delineated in the plan, including capacity building and providing quality-related technical assistance to funded health agencies. The statewide QM Core Team provides oversight and facilitation of the plan and is composed of multidisciplinary professionals, with representation from each funded agency, including agency staff and/or consumers.

Quality and Programmatic Compliance
Sub-recipient are expected to comply with the following requirements:

- Ensure that the medical management of HIV infection is in accordance with the United States Department of Health and Human Services (DHHS) HIV-related guidelines including: antiretroviral treatment, maternal-child transmission, post-exposure prophylaxis, management of tuberculosis and opportunistic infections, and HIV counseling and testing.
- Ensure that registered nurses (RN), nurse practitioners (NP), and Physicians Assistants (PA) practice under current HIV/AIDS-related nurse and PA protocols. The recommended protocols and/or resources include:
  - Georgia Department of Public Health, Office of Nursing, Nurse Protocols for Registered Professional Nurses in Public Health, Section 12. HIV/AIDS-related
  - DHHS, HRSA, Guide for HIV/AIDS Clinical Care (current edition)
  - Georgia Department of Public Health, Office of Nursing, Guidelines for Public Health APRN Prescriptive Authority, if applicable
- Ensure that all Physicians, Pharmacists, and all other licensed medical professionals possess current licensure and/or certification.
- Ensure that all Physicians are practicing under current HIV/AIDS-related protocols and are practicing under the current laws of the State of Georgia. If there is any lapse in licensure and/or the occurrence of suspension that deems a medical professional unable to practice medicine under current laws, the Office of HIV/AIDS’s District Liaison is to immediately be notified.
- Develop and implement a Clinical QM Program according to HRSA’s HIV/AIDS Bureau (HAB) expectations for Ryan White recipients. Include the following:
  - A written QM Plan, which is updated annually
  - Project-specific continuous quality improvement (CQI) plan (e.g., work plan)
Policies and Procedures

- A leader and team to oversee the Clinical QM Program
- QM goals, objectives and strategies
- Performance measures and mechanisms to collect data
- Communication of results to all levels of the organization, including consumers as appropriate

- Participate in the statewide Part B Clinical QM Program.
- Monitor performance measures as determined by the Part B Clinical QM Program.
- Participate in HIV clinical and case management chart reviews conducted by state office QM staff.
- Provide QM Plans, reports (to include Quality Improvement activities), and other information related to the local QM Program as requested by the Office of HIV/AIDS Ryan white Part B District Liaison and/or QM staff. Allow the District Liaison and/or QM staff access to all QM information and documentation.
- Ensure compliance with the Georgia HIV/AIDS Case Management Standards (current edition), including the following:
  - Case managers utilize the standardized case management client intake form or an equivalent for agencies using electronic medical records (EMRs).
  - All new and re-enrolling case managed clients must have an Intake, Acuity Scale, Individualized Service Plan (ISP) and case note completed within 15-30 days of intake.
  - Provide documentation that Acuity Scales and ISP’s are being updated two or more times per year in accordance with the Activity by Acuity document.
  - The ISP and case note documentation should reflect how healthcare outcomes are being improved and/or by providing guidance and assistance in improving access to needed services for client.

Section 2: Program Monitoring and Oversight
The Georgia Office of HIV/AIDS Director, Ryan White Part B Program Manager, District Liaisons, ADAP Program Manager and Fiscal Analyst are responsible for all fiscal and programmatic monitoring for the Part B program. The following is a description of the overall program and fiscal monitoring policy and activities.

Budget Review and Reporting
At the beginning of each contract period, and annually thereafter, sub-recipients develop budgets based on local prioritization of needs and in accordance with Ryan White guidelines. Budgets are submitted to the Office of HIV/AIDS for review, revision and approval. Sub-recipients are contractually obligated to submit fiscal reports on a quarterly, bi-annual and annual basis. Sub-recipients receive fiscal reports from subcontractors on a monthly basis as relevant. Programmatic reports are submitted by all sub-recipients at mid-year of the grant period, year end of the grant period, calendar year and as required by HRSA. Sub-recipients are required to report client-level data annually directly to the HAB through the Ryan White HIV/AIDS Program Services Report (RSR). It is a requirement that all subrecipients use CAREWare for managing and monitoring HIV clinical and supportive care and producing the RSR.
Eligible Service Categories
All Ryan White eligible services as defined by HRSA are eligible for reimbursement through the Georgia Ryan White Part B program. Based on a review of the current service delivery system and the variances in the care systems in each locality, Georgia allows sub-recipients to provide the full array of eligible services as determined on a local level. Services are budgeted and approved at the beginning of each grant year. For a list of allowable services and definitions refer to HRSA PCN #16-02.

NOTE: Pertaining to laboratory costs under Outpatient/Ambulatory Care - Sub-recipients are expected to utilize the state lab for services paid for by the State Office (e.g. HIV viral loads). Ordering the labs mentioned through the state lab is a cost saving measure to the sub-recipients as state lab costs do not come from assigned budgets, but are covered by the Office of HIV/AIDS Ryan White Part B Program. Tests not covered under the state lab contract can be paid for by grant funds as long as they are related to the standards of care for Ryan White clients. Every effort should be made to obtain Ryan White pricing from contracted labs in order to minimize lab costs and allow for more expanded client services through cost savings.

Invoice Review
All sub-recipients are required to submit invoices in a standardized format (by service category as opposed to operating category). Once invoices are submitted to the Department of Public Health (DPH) they are subject to two levels of review. The District Liaison is the first level of review. The invoices and reports are reviewed to ensure compliance with contract deliverables. If questions should arise on services provided, the sub-recipient is contacted for additional information. Once reviewed, the invoices are submitted for final review to Accounts Payable for payment to be rendered to the sub-recipient.

Programmatic and Fiscal Monitoring
All 16 Part B sub-recipients receive administrative, fiscal, and programmatic monitoring via monthly desk audits and annual on-site monitoring. Administrative site visits are conducted annually to monitor compliance with state and federal regulations, including HRSA Ryan White Universal and Part B programmatic and fiscal National Monitoring Standards. Examples of documentation reviewed include the following:

- Client eligibility and recertification documentation
- Fee-for-service (clients with incomes exceeding 100% of the current Federal Poverty Level)
- Programmatic report documentation
- Expenditure report documentation
- Documentation of providers’ Medicaid certification
- Mechanisms to bill third party payers
- Client rights and responsibilities in English and Spanish updated annually
- Security and confidentiality
- Linkages to external providers
- Grievance policies in English and Spanish updated annually

MAI site visits are conducted concurrently with Part B and Emerging Community visits and include: a review of the MAI budget and expenditures to date, review of demographics for clients served, outreach
and education processes, monitoring and chart review assessments. Upon completion of local programmatic site visits, District Liaisons complete site visit reports that include summary narratives; monitoring and chart review assessments; and, if necessary, request corrective action plans. If a local program is placed on a corrective action plan, District Liaisons follow-up within 45 days to discuss the plan of action and timeline for corrective measures to ensure compliance with the Ryan White HIV/AIDS Treatment Extension Act of 2009. All findings and reports are shared with the local Part B Coordinator and District Health Director, and documented in the sub-recipient’s file.

**Pharmacy Monitoring Process**

Initial pharmacy site visits are conducted to provide technical assistance for compliance with contractual guidelines. Pharmacy site audits are conducted to review and determine compliance with the ADAP Contract Pharmacy (ACP) Network contract deliverables and 340B federal requirements. Additionally, the audits serve as a venue to provide guidance, and identify training opportunities and areas for quality improvement. Presently, the ACP Network replenishment process is monitored daily via automated reports from the pharmaceutical wholesaler. The current Pharmacy Benefit Manager (PBM) is utilized to audit contract pharmacies 340B inventory, via dispensing, order history, and order balance reports. In addition, 340B and 340B prime vendor prices are reviewed quarterly.

**ADAP**

Monthly desk audits are performed to monitor ADAP client utilization including attrition patterns, clients served and adherence data from CAREWare and the PBM. ACP monitoring reports are reviewed and obtained from the PBM portal. The PBM submits monthly invoices electronically and as hard copies. Invoices provide required information based on contract deliverables indicating utilization, number of clients served, dispensing fees, administrative fees, and the number of prescriptions adjudicated. Additional reports contain data outlining comprehensive activities of all pharmacies, including date and time of medications dispensed. Custom reports outlining trends in claims adjudication and dispensing may also be requested from the PBM. Data obtained from routine and custom reports have proven to be a viable forecasting tool for fiscal and programmatic projections. Monthly QM monitoring includes a review of data to determine the percentage of clients recertified every six months, the percentage of correctly submitted applications and the percentage of newly applying ADAP clients approved or denied for services within 30 days of ADAP receiving a complete application. Technical assistance visits to enrollment sites provide opportunities for ADAP/HICP case managers and coordinators to gain additional knowledge and clarification of updates on ADAP and HICP policies and procedures. Enrollment sites may also receive annual visits to monitor the efficiency and appropriateness of ADAP and HICP files and charts.

**HICP**

The monitoring process for the HICP includes internal desk audits of client files whereby applications are checked for completeness and eligibility requirements. HICP has implemented an internal process to review recertification due dates of clients, which provides an improved method of desk monitoring to determine non-compliance and continued eligibility. Additional fields in the HICP CAREWare database enable case managers to monitor premium payment cycles for their HICP clients. Information obtained from CAREWare data is communicated to the case managers and local HICP Coordinators to maximize the effectiveness of the program and discontinue clients who were 30 days overdue for recertification.
State Program Oversight and Monitoring
The following is a brief description of the positions that have associated program oversight and monitoring duties.

**HIV Care Manager:** Directs all organizational and operational planning and administration of the Ryan White Part B Program, including: preparation of annual grant applications; federally required monthly, quarterly and annual reports; developing grant budgets based on required input from advisory councils, public hearings, and appropriate DPH staff; supervising program staff and providing monitoring/consultation/technical guidance to directors and staff of 16 health districts and organizations under contract.

**District Liaison:** Conducts routine programmatic monitoring of Ryan White service providers to assess the quality and level of services delivered by each funded public health district. Coordinates and conducts client chart reviews in order to assess programmatic contractual compliance including payer of last resort status. Develops follow-up technical assistance/improvement plans as appropriate with individual service providers; as well as procedures for the collection, verification, maintenance and analysis of service and client data. Coordinates, prepares and conducts technical assistance, trainings, and workshops.

**QM Team Lead Nurse Consultant:** Coordinates Clinical QM Program operations and supervises QM staff members. Ensures the development, implementation, evaluation and revision of the QM plan and work plan. Monitors district QM plans and quarterly reports and provides technical assistance to Part B funded public health districts in the development of local QM plans and nursing/clinical services. Develops and revises HIV-related medical guidelines and other guidelines/policies as indicated. Conducts site visits to review QM plans and activities.

**Nurse Consultant:** Closely monitors district QM plans and quarterly reports and provides technical assistance to Part B funded public health districts in the development of local QM plans and activities. Coordinates the revisions of nurse protocols, and develops or revises medical guidelines, policies, and/or procedures. Conducts site visits to review QM plans and activities.

**QM Coordinator:** Ensures the development, implementation, and evaluation of statewide Case Management standards and tools. Closely monitors district QM plans and quarterly reports and provides technical assistance to Part B funded health districts in the development of local QM plans and activities. Conducts site visits to review QM plans and activities, and/or to review case management services.

**ADAP/HICP Manager:** Responsible for managing the daily operation of the ADAP/HICP which provides medication and health insurance premium and medication co-pay assistance to persons living with HIV/AIDS. Provides technical assistance and recommends policies and procedures for the development and implementation of the ADAP, HICP and other HIV related programs. The ADAP/HICP Manager monitors ADAP and HICP enrollment agencies for compliance with state and/or federal guidelines through data collection, documentation, and site visits.

**ADAP Pharmacy Director:** Provides specialized pharmaceutical services related to Georgia’s ADAP. Responsibilities include strategic and daily operational planning for ADAP Contract ACP Network,
Policies and Procedures

audits of ADAP contracted pharmacies, performance measurement for HIV treatment and adherence, and participation in the Quality Management Program. Provides technical assistance regarding: operations of the management of 340B purchased pharmaceuticals in the areas of drug storage, handling, distribution and documentation as required by law; developing, coordinating, and participating in educational programs and ADAP education for pharmacy staff, nurses, and other disciplines; developing HIV-related policies, procedures, and protocols, monitoring drug utilization of ADAP, patient care and pharmacotherapy for HIV clients, and the results of public health initiatives directed at outcomes of therapy and ADAP.

Medical Advisor: Provides medical expertise and technical assistance to the HIV Office, Ryan White Part B/ADAP/HICP program and funded agencies, and others. Responsibilities include participation on the QM Core Team, chairing the HIV Medical Advisory Committee (HIV-MAC), conducting site visits to review clinical performance measures including: management and utilization of antiretroviral therapy, revising and approving the HIV/AIDS-related nurse protocols, providing training to HIV providers and others as indicated, mentoring physicians inexperienced in HIV care, assisting with QM-related reports and assignments, and assisting with development and/or revisions of medical guidelines, polices and/or procedures.

Section 3: Eligibility Policies & Procedures

The following section discusses eligibility policies and procedures for Ryan White Part B, ADAP and HICP services. For clients who receive only Ryan White Part B services, meaning they are not enrolled in ADAP or HICP, sub-recipients are required to keep the same level of documentation in the client file as if the client were on ADAP, unless otherwise noted.

Eligibility Determination

I. Introduction

In order to enroll into Ryan White Part B services, including ADAP and HICP, individuals must fulfill all eligibility criteria. The client is responsible for providing proof of eligibility for Ryan White Part B/ADAP/HICP to case managers and/or local ADAP/HICP coordinators. All information provided for determining program eligibility will be kept completely confidential. Part B services will not be provided, medications will not be dispensed, and health insurance premiums/ medication co-pays will not be paid until medical, financial, and residency eligibility criteria are confirmed.

Individuals are eligible for Ryan White Part B services if they meet the following criteria:

1. Must have an HIV/AIDS positive medical diagnosis,
2. Must have an income at or below 400% of the Federal Poverty Level (FPL),
3. Must be a Georgia resident, and
4. Must have no other payer source for the services provided

In addition to the criteria listed above, individuals applying for the ADAP or HICP must also meet the following criteria, when applicable:

1. AIDS defining illness, Hepatitis B, HIV nephropathy, HIV related pulmonary hypertension, HIV cardiomyopathy, HIV related encephalopathy, and those who have been on therapy, i.e. HAART experienced
2. Pregnant with no other payer source  
3. Have a valid prescription from a Georgia licensed physician  
4. Must have recent lab reports no less than six (6) months old; reports must be attached to the application  
5. Have cash assets equal to or less than $10,000.00  
6. Must be 18 years of age or older (refer to section VI for exceptions)  
7. Must not be covered by or eligible for Medicaid or other third-party payer  

Please see Appendix F for a summary table of when eligibility documentation should be collected for each client.  

II. Medical Eligibility Criteria  
In order to be eligible for Ryan White HIV/AIDS Program funded medical care, clients must have a “diagnosis of HIV disease;” however, there are no federal or state legislative requirements for a “confirmed” HIV diagnosis prior to linkage. Please refer to Appendix G (HIV Testing Algorithm) for the most current testing guidelines.  

DHHS guidelines indicate that persons with HIV or AIDS may be offered therapy as soon as they are diagnosed. Completion of the “Clinical Information” section of the Part B/ADAP/HICP application along with current labs attached (i.e., no older than six [6] months) is required for verification and eligibility.  

Medical Exceptions for ADAP enrollment during a Waitlist:  
• ADAP enrollment will be approved for pregnant immigrant women during the event of a Waiting List upon the receipt of an eligible ADAP application. The provider must include information in the clinical section regarding the pregnancy. Other pregnant women may access Medicaid.  
• Postpartum women (birth within 180 days) needing to continue ARV medication may apply for or resume ADAP services during the event of a Waiting List upon the receipt of an eligible application. The provider must include information in the clinical section.  

Adult HIV/AIDS Case Report Form Requirements  
The Georgia Adult HIV/AIDS Confidential Case Report Form (Appendix H) is required for all NEW ADAP and HICP applicants. Failure to attach Case Report Forms to new ADAP and HICP applications will result in an incomplete application. This will ultimately lead to delayed processing and/or denial of enrollment. Adult HIV/AIDS Case Report Forms are not required for persons recertifying for ADAP and HICP services. For ADAP or HICP re-enrollment, a case report may be required if a client’s confidential case report cannot be verified from the previous enrollment record.  

NOTE: In addition to the HIV Case Report form, currently required for new and re-enrollment applications, the SENDSS HIV case report can also be provided as status documentation and is acceptable documentation for the ADAP/HICP applications.
III. Prescription Eligibility Criteria
Individuals must have valid prescriptions for medications listed on the ADAP formulary (Appendix I) from a Georgia licensed physician. If the prescription includes a medication that requires prior approval (e.g., Fuzeon, Selzentry, Videx, Zerit, or those listed under the Hepatitis C Pilot), the Georgia ADAP Application for Prior Approval Medication form is required (Appendix J). A co-receptor tropism assay, trofile test, is required for Selzentry indicating sensitivity (e.g. CCR5 only virus) to the drug. Prescriptions for active and eligible clients may be taken directly to a participating pharmacy in the ACP Network (Appendix K).

NOTE: Prescriptions for clients who have recently moved to Georgia from physicians licensed in the surrounding states of Florida, South Carolina, Tennessee, and Alabama may be filled by a pharmacy in the ACP Network.

IV. Income Eligibility Criteria
Individuals with household incomes equal to or below 400% of the current Federal Poverty Level (FPL) are eligible for Ryan White Part B, ADAP, and HICP, and may receive services and drugs free of charge through the program. Clients with incomes that exceed 400% FPL are not eligible. Please see Appendix L for the most current FPL guidelines.

At the initial enrollment and every subsequent 12-month recertification date, the client must provide documentation of income for all household members. Clients will be able to self-attest during one of their yearly recertification periods but must submit all appropriate documentation during their 12 month recertification period (Appendix M and Appendix N).

NOTE: For eligibility purposes, household is defined as the client, and the client’s spouse, dependent children or adult dependents. An adult dependent is a person 18 or older who is counted as part of the household composition and is cared for or supported by the applicant.

• The “Financial/Income Information Section” of the Part B/ADAP/HICP Application must be completed for new, re-enrollees and for 12-month Recertifications for active ADAP and HICP clients (see Appendix M).
• If the client is married, documentation of the spouse’s income or verification of no income must be provided.
• If a client is married but separated; documentation of a legal separation must be provided.
• For applicants 18 years and older, only the income and assets of the applicant and the applicant’s legal spouse with whom the applicant resides will be considered.
• There may be situations when a client is being supported by his/her parent(s), or living with a friend or with other relatives who are providing food and shelter. Under these circumstances, a client with no dependents, would be counted as a household of one and must complete a notarized Support and Residency Verification Letter (Appendix O) as well as submit a Statement of Support Form from the person with whom he/she is living (Appendix P).
• If a client states that he/she has income at or below 99% of the FPL (e.g., $990.00 or less monthly), a notarized Support and Residency Verification Letter must be provided.
• Clients who are self-employed and who do not receive pay checks, may submit a signed notarized statement identifying average monthly wages. The notarized statement will be accepted by Part B/ADAP/HICP as proof of income along with the most recent or previous year’s tax return or tax transcript.

• All sources of income, both taxable and nontaxable, must be taken into account. Income that must be counted in determining eligibility includes:
  o Wages, salaries, tips, etc.
  o Taxable interest
  o Tax exempt interest
  o Ordinary dividends
  o Taxable refunds of state/local income taxes
  o Alimony or other spousal support received
  o Business income/loss
  o Capital gain/loss
  o Other gains/losses
  o IRA distributions – taxable amount
  o Pensions and annuities (veteran and employer based pensions, retirement and/or disability)
  o Rental real estate, partnerships, S corporations, trusts, etc.
  o Farm income or loss
  o Unemployment income
  o Retirement income from Social Security
  o Disability income from Social Security
  o Other income (jury duty pay, gambling)

• Documentation of income must be included with the Application and subsequent 12-month Recertification Forms. Documentation of income can include the items listed below. A more comprehensive list of income documentation can be found as part of the Modified Adjusted Gross Income (MAGI) Factsheet under Appendix Q.
  o Previous year’s Individual Federal Income Tax Return
  o Previous year’s Individual Georgia Income Tax Return
  o Previous year’s Federal Tax Transcript
  o Current W-2 (up to 3 months after the most recent year) or current 1099 (accepted up to 3 months after the most recent year)
  o Full or part time employees must provide pay stubs for a full thirty days of consecutive income for pay periods, indicating a year-to-date total, deductions, and the pay period, e.g., weekly, bi-monthly, monthly, etc.
  o Signed employer statements
  o Disability Award Letter indicating the pay period
  o Bank statement, acceptable for Social Security Retirement, VA, SSDI, Pension and/or Annuity
  o Documentation of alimony
  o Signed notarized statement by client identifying average monthly wages
  o Self-employed individuals may also submit a signed notarized statement identifying average monthly wages
NOTE 1: Total assets cannot exceed $10,000.

NOTE 2: If the person providing support to the client refuses to complete the Statement of Support, or if the client cannot provide the statement of support, the client must make a notation on the Support and Residency Verification Letter. Only use the updated versions of these documents. Previous versions will not be accepted with the applications. The Support and Residency Verification Letter cannot be changed or altered after it is signed and notarized.

NOTE 3: If a spouse’s income is reported as zero, a Support and Residency Verification Letter should be submitted with the application as verification.

NOTE 4: Marketplace insured clients receiving premium assistance through HICP may have to submit federal tax filings during recertification. (Please refer to HRSA PCN #14-01; and NASTAD ACA Federal Tax Filing Requirements Health Reform Issue Brief.)

NOTE 5: Employer statements must include employee’s dates of employment, title/position, salary, company address and phone number.

MAGI Requirements
MAGI is the methodology used to determine income, household composition, and family size. It is based on federal tax rules for determining adjusted gross income, with some modifications. Sub-recipients must utilize the MAGI/FPL Determination Worksheet (Appendix R) to determine FPL. The worksheet walks the sub-recipient through the income sources and deductions to show the total household income, and corresponding FPL. A copy of the MAGI form must be kept in the client files as part of the documentation for income verification. Forms should be kept for all Ryan White Part B clients, including ADAP and HICP clients. Please see Appendix L for the 2017 FPL Guidelines.

NOTE 1: Failure to attach income documentation, including the MAGI form described above, to ADAP applications will result in an incomplete application. MAGI forms must be kept in the client files regardless of whether the client receives ADAP or HICP services or not. MAGI forms must be completed electronically using Excel, saved as a PDF file and updated. Hand written MAGI forms cannot be calculated properly and will be disallowed.

NOTE 2: Calculated income from the MAGI form should match the income documented on the ADAP or HICP application.

V. Residency Eligibility Criteria
Ryan White Part B/ADAP/HICP applicants must be living in the state of Georgia at the time of application and residency must be documented. Clients will be able to self-attest during one of their yearly recertification periods but must submit all appropriate documentation during their 12-month recertification period.
• For ADAP, the “Georgia Residency” section of the application must be completed.
• Documentation of residency must be included in all client charts. Documentation may include:
  o Georgia state identification card (ID)/driver’s license
  o Copy of lease
  o Rent receipt
  o Utility bill, home telephone, or cable bill
  o Current voter registration card within the last 12 months
  o Vehicle registration
  o Property tax statement
  o Current W-2 (up to 3 months after the most recent year) or current 1099 (accepted up to 3 months after the most recent year)
  o SSI, SSDI, TANF, or other assistance award letter issued in their name with local address
  o Paycheck stub issued in their name from employer
  o Current medical bills or statements within thirty days
  o Insurance premium statements
• Persons, living with or supported by family/partner, who do not have the above documentation may prove residency by providing the Support and Residency Verification Letter, and the Statement of Support from the family member or friend.
• Persons who are homeless will need a letter on agency letterhead, from their case manager or social service provider, providing the location and dates of residency or the Support and Residency Verification Letter completed by the case manager or social service provider. Case managers will have the authority to notarize a statement on behalf of the client, if there is no affiliation with any other agency or shelter.

REMINDER: If the person providing support to the client refuses to complete the Statement of Support, or if the client cannot provide the statement of support, the client must make a notation on the Support and Residency Verification Letter. Previous versions of these documents or handwritten notes will not be accepted with the applications.

NOTE 1: A Georgia ID or driver’s license, alone, is not adequate proof of residency and must be accompanied by one of the above for further confirmation. A P.O. Box can be used as a mailing address; however, clients must verify address via another means. Documentation with a P.O. Box is not acceptable as proof of residency.

NOTE 2: It is not necessary to be a citizen of the United States or qualified alien to receive Part B/ADAP/HICP services. Applicants do not have to declare or document citizenship or immigration status in order to be eligible for services.

VI. Age Eligibility Criteria
Applicants should be 18 years of age or older.
NOTE 1: Children (persons under 18) are generally not eligible for Part B/ADAP services. Minors must be referred to Medicaid, the Division of Family and Children’s Services or other third-party payer for appropriate eligibility determination. If a minor is determined to be ineligible under all of these options, and documentation to that effect is provided, exceptions may be considered on a case-by-case basis. In such a case, the local Part B and/or ADAP Coordinator or case manager should contact the ADAP/HICP Manager at (404) 463-0416. State ADAP approval must be obtained before any minor may be enrolled in ADAP.

NOTE 2: For applicants less than 18 years of age, the income and assets of the applicant and the legal parent or parents with whom the applicant resides will be considered. Income and assets of step-parents and legal guardians shall not be considered.

VII. Third-Party Payer Coverage
By statute, Ryan White is considered a “payer of last resort,” meaning funds may not be used for any item or service for which payment has been made or can reasonably be expected to be made by another payment source. According to HRSA PCN #13-04, recipients and sub-recipients (in this case Georgia and the funded agencies respectively) are required to vigorously pursue enrollment into health care insurance coverage for which their clients may be eligible, including those that are part of the Health Insurance Marketplace.

In order to verify that Ryan White is the “payer of last resort” Ryan White clinics must collect and maintain client documentation regarding client eligibility for other health plans or lack thereof. Documentation needs to include the Private Insurance Enrollment Screening Form (Appendix S), referrals to enrollment assistance, and notes about educational efforts in the client files. Verification that Ryan White is the “payer of last resort” is mandatory during both the enrollment and 12-month recertification periods. Copies of informational letters/brochures utilized to educate clients should be kept on record for monitoring purposes.

At the initial enrollment and every subsequent recertification period, the client must provide proof that they are not covered under another household member’s insurance plan. Clients will be able to self-attest during one of their yearly recertification periods but must submit all appropriate documentation during every subsequent recertification period.

NOTE 1: For eligibility purposes, household is defined as the client, and the client’s spouse, dependent children or adult dependents. For purposes of ADAP enrollment, the Private Insurance Enrollment Screening Form, or approved equivalent, must be uploaded along with ADAP applications and each subsequent recertification.

NOTE 2: The Private Insurance Enrollment Screening Form should be updated throughout the year as changes occur. This form must be on file for all clients receiving Part B services, and will be reviewed during annual programmatic site visits.
Medicaid

A client who is receiving Medicaid is **not** eligible for ADAP or HICP services. One exception is if the client receives Medicaid category Qualified Medicare Beneficiary (QMB) assistance (“spend-down”), which requires the client to pay a portion of their medical expenses each month before Medicaid can provide a medical card to meet the remaining expenses. Another exception is Family Planning Medicaid (P4HB), as this category of Medicaid does not provide treatment or services related to HIV/AIDS. If a client loses Medicaid benefits or is no longer eligible he/she may qualify for enrollment/re-enrollment in ADAP.

A client who is receiving Medicaid may receive Ryan White Part B medical and/or support services utilizing Part B funds if the services rendered are not covered by the client’s Medicaid plan. **Funded agencies are required to be Medicaid certified and must bill for services as appropriate.**

**Veteran’s Administration (VA) Benefits**

Ryan White Program sub-recipients may **not** deny services, including prescription drugs, to a veteran who is otherwise eligible for Ryan White Program services. Sub-recipients may not cite the “payer of last resort” language to force an HIV-infected eligible veteran to obtain services from the VA care system or refuse to provide services. Ryan White Program services to veterans can be refused on the same basis as decisions of refusal for non-veterans. To ensure that veterans have full access to all possible services and to ensure that veterans are obtaining their preferred services, sub-recipients should inform HIV-infected veterans of the benefits, services and physical location of the VA health care system in their area. Sub-recipients may refer eligible veterans to the VA for services when appropriate, but may not require that eligible veterans access VA care against their will. ADAP clients who are also eligible for VA Benefits may receive ADAP medications. Please refer to [HRSA Policy #16-02](#) for additional information.

**Medicare Part D**

Many Medicare beneficiaries with HIV/AIDS qualify for some type of low-income subsidy (LIS). Dual eligible Medicare beneficiaries on Supplemental Security Income (SSI) and currently in a Medicare Savings Program are automatically eligible for full or partial LIS. ADAP Coordinators and other providers of approved enrollment sites should provide assistance with completing applications, providing information, referrals to websites, and plan interpretations to all ADAP clients receiving services in clinics and other agencies.

ADAP clients who are Medicare eligible must apply for a Medicare Part D Plan and maintain current enrollment status throughout the year. Failure to do so will jeopardize Medicare Part D premium costs. Medicare eligible persons without full LIS or “extra help” must also apply for a Medicare Part D plan. Assistance with medication co-payments is available through the ADAP. The Medicare Part D co-pay assistance component of the program will assist individuals with out-of-pocket costs for ADAP approved formulary medications. In the event that ADAP cannot assist Medicare Part D medication co-payments, assistance is available through the Patient Advocate Foundation (PAF). Persons may apply online at [www.copays.org](http://www.copays.org) or call 866-512-3861, Option 1. Persons who have been approved for full LIS must be disenrolled from ADAP because
Policies and Procedures

of “payer of last resort” guidelines. ADAP clients who are Medicare eligible and remain on the program will be required to recertify every 6 months according to program requirements.

• Full Low Income Subsidy (LIS) or “extra help”
  o ADAP clients who are eligible for Medicare should enroll in a Medicare Part D plan and **must** complete an application for LIS for submission to Social Security if not already auto enrolled. Clients may apply at a Social Security office or online [www.ssa.gov](http://www.ssa.gov).
  o The approval or denial letter from Centers for Medicare and Medicaid Services (CMS) must be sent to the state ADAP office by ADAP Coordinators or providers to be placed in the client’s file.
  o ADAP clients with income less than 135% FPL, who have enrolled in a Medicare Part D plan and have been “auto” approved for full LIS, will **not** be eligible to continue to receive ADAP services.

• Partial Low Income Subsidy (LIS) or “extra help”
  o ADAP clients with income between 135% and 150% FPL that are not eligible for full LIS, but are eligible for partial LIS or “extra help” will receive assistance from ADAP with co-payments. ADAP will assist with Medicare Part D co-payments through the Pharmacy Benefit Manager (PBM) after the state ADAP office has finalized the process with CMS. The state ADAP office must receive premium and plan information to assist with payments.
  o Documentation confirming that the client is only eligible for partial LIS should be sent to the State ADAP office and filed in the client’s chart upon receipt.

**NOTE 1:** The ADAP will consider exceptions on a case-by-case basis for clients who apply for LIS and are denied. For example, these clients may have assets beyond the federal limits to qualify for the federal subsidy.

**NOTE 2:** Persons who cannot access their regimen through their Medicare Part D plan must submit the proof that the medications are not available in order to remain on the program.

• ADAP clients with income over 150% FPL but not exceeding 400% FPL who are eligible for Medicare and not eligible for additional assistance from Social Security must apply for a Medicare Part D plan. ADAP will assist with Medicare Part D medication copayments on the MCARE medication copay assistance program through the PBM.

• ADAP Coordinators, Case Managers, or Providers’ Responsibilities:
  o Assist ADAP enrollees/clients who are eligible for Medicare with enrollment into a Medicare Part D plan and application for LIS.
  o Submit documentation confirming Medicare Part D plans and LIS to the state ADAP office immediately upon receipt. If client is not eligible for Full LIS, the ADAP office must receive premium and plan information to assist with payments.
  o Notify the state ADAP office to discontinue ADAP services in order to comply with the “payer of last resort” requirement, when the Medicare Part D plan and
HIV medication coverage are confirmed. Information regarding the client’s ADAP status will be indicated by the end date in the Data Rx PBM network.

- Inform clients of this entire process to alleviate anxiety.

**NOTE:** If additional assistance is needed, ADAP Coordinators may contact the State Health Insurance Assistance Program, GeorgiaCares, at 866-552-4464. Trained counselors are available to provide free, unbiased information in relation to the Medicare Prescription Drug Program and can assist clients in the enrollment process.

It is the responsibility of the Medicare eligible ADAP client to adhere to the following:

- Bring all documentation received from Social Security and Medicare Part D plans to ADAP Coordinators or providers for assistance and clarification.
- If the annual income is below 150% of FPL, apply for LIS if not already auto enrolled. Individuals with incomes between 135% and 150% FPL may also be eligible for partial LIS. Apply at any Social Security office or online at www.ssa.gov.
- Review the list of Georgia plans and enroll online at www.medicare.gov. Pay special attention to plan costs, pharmacies, and drugs covered by each plan, including:
  - The monthly premium amounts
  - Annual deductible, if any
  - Plans’ co-payments and co-insurance amounts to obtain covered medications
  - Coordinating pharmacies
  - All antiretroviral medications must be covered, but other needed medications may not be on plan formularies
  - Provide the ADAP state office proof of enrollment in a Medicare Part D plan upon receipt of information about the plan or during the next recertification appointment
  - Submit premium and plan information in order for DPH to assist with premium payments if requesting assistance with premiums
  - Contact his/her ADAP provider or case manager to schedule an appointment, if he/she needs individual counseling about Medicare Part D
  - Ensure monthly Medicare Part D premiums are paid
  - If not eligible for LIS, submit documentation to confirm the denial
  - ADAP clients who are Medicare eligible and remain on the program, must recertify every 6 months according to program requirements
  - Comply with all ADAP rules and regulations

**NOTE:** The State ADAP office may assist with premium payments. In cases where the ADAP cannot assist with premium payments, clients will need to pay premiums out-of-pocket if they do not qualify for full LIS. In these cases individuals should carefully consider plans with low premiums. Failure to pay premiums will jeopardize eligibility for ADAP and can make Medicare Part D more costly in the future. ADAP will require proof of enrollment as part of its recertification process. A 1% increase in premiums will be added for each month a beneficiary was not enrolled in Medicare Part D. Exceptions exist for retirees with healthcare benefits of equal or greater value.
For a list of Georgia’s ADAP and Medicare Part D FAQs, please see Appendix T.

Private Health Insurance
Sub-recipients are required to make every effort to enroll Ryan White Part B/ADAP eligible individuals into insurance coverage options for which they qualify, including private coverage options through the Health Insurance Marketplace. Clients must be informed that the Georgia Ryan White Part B/ADAP will provide health insurance assistance through the HICP for clients enrolled in Health Insurance Marketplace plans available in their districts, based on the guidance provided in HRSA Policy #13-05. In addition, clients must know that in order to receive health insurance premium assistance they are required to apply for premium tax credits and cost sharing subsidies, if applicable. If clients qualify for premium tax credits and subsidies, these must be applied toward the insurance plan premiums before the client seeks support from the Ryan White Program.

As clients enroll or re-enroll in Health Insurance Marketplace plans, they may be responsible for a portion of their monthly insurance premium or other out-of-pocket costs such as co-payments and deductibles. Some clients may require assistance with these out-of-pocket costs. Ryan White funds may be used for premiums and medication co-pay assistance.

In order to verify that Ryan White is the “payer of last resort” Ryan White clinics must collect and maintain client documentation regarding client eligibility for other health plans or lack thereof. Documentation must include the Private Insurance Enrollment Screening Form (Appendix S), referrals to enrollment assistance, and notes about educational efforts in the client files. Educational efforts include letting the client know there may be other options available to them, providing them with information as to where they can get assistance with enrollment into a marketplace plan (e.g., contact information for Navigators), and informing clients about any consequences for not enrolling in a plan if they are eligible. Specifically, clients should be informed that if someone can afford but doesn't have health insurance coverage, they may have to pay a fee. Copies of informational letters/brochures utilized to educate clients should be kept on record for monitoring purposes.

Clinics can utilize a Certificate of Exemption, a printout/screenshot of non-eligibility from the health insurance marketplace portal, or proof of income if the client is below 100% FPL as documentation for non-eligibility to a marketplace plan. Useful links with information about the different types of exemptions and who qualifies can be found under References. Verification that Ryan White is the “payer of last resort” is mandatory during both the enrollment and every subsequent recertification period.

If a client misses the enrollment period, Ryan White Part B/ADAP can continue to pay for services, but must make every attempt to have the client enroll during the next open enrollment period. Ryan White Part B/ADAP can continue to pay for items or services for a client up to the start date of coverage if they are not covered by another funding source. If a client is eligible for other coverage but declines to enroll, the sub-recipient must keep a “Request to Remain on ADAP and to Decline other Coverage” form (Appendix U) in the client file, and a notation needs
to be made on the Private Insurance Enrollment Screening Form. This form must be completed every time the client declines to enroll. The decision not to select other coverage when available could affect placement on the wait-list if one needs to be implemented.

A client with health insurance that covers ADAP formulary medications prescribed for him/her is not eligible to receive those medications from ADAP. If a client provides documentation that his/her health insurance has no prescription benefits he/she may be enrolled in ADAP. If a health insurance plan does not cover the full brand regime as prescribed by a provider and no other generic medications can be considered, a client may remain on ADAP with documentation/justification from the physician. In addition, a client who has a financial cap on pharmaceutical benefits may also be enrolled. Any available benefit must be exhausted in order for a client to be eligible for ADAP services. When clients have exhausted their private insurance prescription benefit, they are eligible for ADAP services if they meet all ADAP eligibility requirements and are enrolled. If a client has a limited annual prescription benefit (e.g., $1,000 cap) this benefit cannot be reserved for non-ADAP drugs. The client would be eligible for ADAP only until their private insurance prescription benefit was renewed (i.e., for a monthly cap, when a new month begins, or for an annual cap, when a new calendar year begins). Clients must utilize prescription benefits if available. Clients who voluntarily drop active health insurance coverage with prescription benefits will be required to submit a justification before an ADAP application is reviewed and considered approved based on eligibility. Clients should be notified that if there are future ADAP funding constraints, they may not be able to stay on full-pay ADAP if they are eligible for public or private insurance.

The ADAP/HICP and Part B sub-recipients must vigorously pursue and recoup all cost-sharing premium and tax credit refunds issued to a client, but due to the program. During the application process, the client must sign the Notification of Client Responsibility for Participation Form (Appendix V) for participation in the HICP. The client certifies receipt of participation responsibility, which includes the acknowledgement that he/she may be responsible for the first month’s payment, and responsibility to return refunds received from the insurer back to the ADAP/HICP program. Upon approval, HICP participants will receive notification of eligibility and the conditions of program participation. In the approval letter, participants are reminded to submit refunded premiums to the Georgia DPH ADAP/HICP program.

Participants who receive a premium overpayment refund from the insurer, must forward all funds to the Georgia ADAP/HICP program within 30 days of receipt. Refund checks should be endorsed and made payable to the Georgia Department of Public Health. Failure to remit payment to the Georgia ADAP/HICP program may affect current or future ADAP/HICP eligibility. If a client receives a refund from the health plan issuer, ADAP/HICP case managers should electronically document when the participant received the refund, amount of the refund, and document when the endorsed refund check issued by the insurer was returned to DPH.

If a participant receives a refund for premium payments paid for by DPH after ADAP/HICP disenrollment, the participant must forward all funds to the Georgia ADAP/HICP program within 30 days of receipt. If the client receives a tax credit refund due to premium overpayment, the
participant must forward the tax credit refund to the Georgia ADAP/HICP program within 30 days of receipt. The client is responsible for setting up a payment agreement with DPH before becoming eligible for re-application to the ADAP/HICP program, if the payment is not received within the allotted 30 days. The ADAP/HICP program will accept a repayment agreement. The client must submit the Repayment Agreement Form (Appendix W) through the case manager at the ADAP/HICP enrollment site. The Repayment Agreement will be approved or denied by the Georgia ADAP/HICP program administrators. If the repayment agreement is approved, the first payment should be mailed to Georgia DPH-ADAP/HICP, in the form of a money order each month. Failure to remit payment to the Georgia ADAP/HICP program as agreed for 60 consecutive days, will affect current or future ADAP/HICP eligibility.

VIII. Nursing Homes/Inpatient Care
A client who is in a nursing home/hospital or hospice is ineligible for Ryan White Part B/ADAP services. **ADAP covers only outpatient prescriptions.** Ryan White Part B/ADAP cannot pay for services that would otherwise be paid from another source. If the client is in a nursing home/hospital/hospice and has no source of payment he/she is most likely eligible for Medicaid. Medicaid should pay for the cost of all care including medications. Once discharged, the client may apply/reapply for Ryan White Part B/ADAP.

Part B/ADAP/HICP Application
A client must apply to receive Ryan White Part B/ADAP/HICP services in person at a local Part B primary care clinic or ADAP/HICP enrollment site (e.g., designated Public Health Departments or other approved agencies). The client, local Part B and/or ADAP/HICP coordinator, case manager, and the physician must sign the initial application and 12-month comprehensive recertification application. The Self Attestation Recertification Form only requires signatures of the client and case manager. Proof of Program eligibility is required as described in this document.

I. Paperless Electronic Eligibility and Enrollment Process
Effective September 2013, a Paperless Electronic Eligibility and Enrollment Process for Ryan White Part B/ADAP/HICP was implemented to provide a more efficient enrollment and recertification process. Electronic enrollment allows Case Managers and ADAP Coordinators to electronically enroll and review the eligibility of clients during the interview process utilizing an enhanced application created in CAREWare. The utilization of CAREWare for enrollment allows staff to review and approve applicants and send Approval Packets electronically.

A Georgia Ryan White Part B/ADAP/HICP application must be completed during a face-to-face interview with the applicant at a designated site. Applications must not be processed via telephone. The Ryan White Part B/ADAP/HICP application must be completed per instructions for consideration of enrollment into the program. All applications must include the required eligibility documentation as outlined in this document. **ADAP coordinators or case managers must ensure that all parts of the application are complete prior to submission, that all documentation is uploaded, and that the “Ready for Review” box is checked and “Ready for Review” date is entered when submitting an application.** The local ADAP/HICP Coordinator or case manager must review the application to ensure that it is complete and contains all supporting documentation (see checklist on the application).
If a client is applying for the HICP, the corresponding section of the application must be completed (Section VII of the application). The HICP is available only for residents of Georgia who are enrolled through District Ryan White Part B Health Department Enrollment sites or other approved agencies. In addition, HICP applications must include the Notification of Client Responsibility for Participation Form (Appendix V), summary of benefits, premium statement, insurance card, authorization to release information, and the Adult HIV/AIDS Case Report (Appendix H). Upon receipt of an HICP application, ADAP/HICP staff verifies the amount of the premium, the type of coverage along with extent of medication coverage available under the plan. Plans without comprehensive coverage will not be covered and the persons applying are therefore ineligible. The HICP will pay COBRA or individual policy premiums. Health insurance premiums will not be paid until medical, financial, residency and active insurance coverage are confirmed and no other payers are identified. The HICP also covers medication co-pays and deductibles, in addition to premiums, for eligible individuals.

**NOTE 1**: The Georgia State ADAP Office does not permit listing “Signature on file,” or “Client unable to sign.” Only a legal guardian may sign for a client who has been adjudicated incompetent by the court. A copy of the court order for an incompetent person, or the custody order must accompany the completed application.

A case manager, nurse, physician, department staff, or other unrelated person is never permitted to sign a client’s name, or to sign in the place of the client for any reason. A caretaker or spouse may not be allowed to sign, unless the client is completely physically incapacitated and cannot sign his/her name. There must be written justification for caretaker or spouse signatures with the completed application packet.

**NOTE 2**: Failure to submit the Notification of Client Responsibility for Participation Form and any of the other above referenced documents will result in an incomplete HICP application status and a delay in payment processing. These documents are required for all new applications and recertifications.

II. Incomplete Applications
Incomplete Applications cannot be processed.

**NOTE**: It is the responsibility of the local ADAP Coordinator or case manager to ensure applications are complete prior to submission. An incomplete application or recertification extends and delays the time for approval and jeopardizes access to medications or payments for health insurance premiums under the HICP.
Eligibility Recertification

All Ryan White Part B and ADAP clients are required to recertify every six months. Clients will be able to self-attest during one of their six month recertification periods, but must submit all appropriate documentation during their 12-month recertification. The local ADAP Coordinator or case manager should initiate the recertification process during a face-to-face interview. Please see Appendix F for a summary table of when eligibility documentation should be collected for each client. Refer to Appendix M for a copy of the Self-Attestation Form.

I. Recertification

- Local ADAP Coordinators and/or case managers must establish a procedure to track client recertification dates at the local level.

- The 12 Month Annual Comprehensive Recertification or Self-Attestation Form must be completed and submitted to the Office of HIV/AIDS on or before the last day of the fifth month after the initial enrollment or last recertification. For example, if a client was enrolled on January 15th, the Self-Attestation recertification must be complete and submitted on or before August 15th.
Policies and Procedures

to the ADAP office by June 30th. **It is advisable to request that clients recertify early and not wait until the month that the recertification should be completed.** See Figure 3 for example scenarios.

- Eligibility for the Ryan White Part B/ADAP must be reviewed and verified to ensure that the Program remains the “payer of last resort.” During recertification, the local ADAP Coordinator or case manager must verify if there were any changes in income, insurance, pregnancy, or residential status. If there are changes, the corresponding documentation must be attached to the 12-month Annual Comprehensive Recertification or Self-Attestation Form.
- The local ADAP Coordinator or case manager must review the Recertification Form to ensure that it is complete before submitting to the State ADAP office. Incomplete Recertification Forms cannot be processed and will not be approved until all supporting documentation is submitted.

Figure 3. Recertification Scenarios

John, Jack and Julia’s recertification date is April 5th.

John's recertification is submitted March 5th, one month before April 5th. Because State Staff have at least 30 days to process the paperwork, John’s recertification is approved by the deadline, and there is no gap in services.

Jack's recertification is submitted 2 weeks before April 5th. Because State Staff need at least 30 days to process the paperwork, Jack's recertification may not be approved by the deadline, and he could have a lapse in services.

Julia's recertification is submitted on April 4th. Because State Staff need at least 30 days to process the paperwork, her application will not be approved by the deadline. As a result, Julia will have a gap in services until approval is received.

II. **Failure to Recertify**

- Failure to complete and submit the 12-month Annual Comprehensive Recertification or Self-Attestation Form and supporting documents by the due date will result in the client’s inability to pick up medications and/or discontinuation from the program. The “End Date” in the PBM system indicates the last day that a client may pick up medications.
- Clients may apply for re-enrollment (if there is not a waiting list) at a later date if they are able to supply appropriate documentation.
- If there is a waiting list, re-enrolling clients will be prioritized along with new clients according to the established criteria.
ADAP Medications/ADAP Contract Pharmacy (ACP) Network

The main objective of the ACP Network is to provide comprehensive and convenient pharmacy services while maintaining cost savings to the Georgia AIDS Drug Assistance Program (ADAP). The mechanism used for providing ADAP medications to eligible clients entails contracting with multiple retail pharmacies to access professional, timely, and confidential “point of sale” pharmacy services processed through a PBM. The PBM and pharmacies operate in accordance with section 340B of the Public Health Service Act.

The ACP Network is comprised of statewide point of service pharmacies that facilitate formulary management, medication counseling and adherence, and compliance monitoring. The ACP Network allows eligible ADAP clients to utilize any participating pharmacy of their choice for ADAP prescription services.

I. ADAP Formulary

The Georgia ADAP formulary includes all required core classes of Food and Drug Administration (FDA) approved antiretroviral agents and a limited number of drugs to treat/prevent opportunistic infections. Drugs are added to the formulary based on the recommendations of the HIV Medical Advisory Committee and the delegated HIV and ADAP pharmacy staff. Eligible clients can access all formulary medications; however, some drugs require prior approval.

II. Prior Approval Medications

Some medications on the ADAP formulary require prior approval in order for clients to have access to these medications. In addition to the other documentation required, the Georgia ADAP Application for Prior Approval Medications must be completed and submitted to the State ADAP Office along with all required supporting documentation. The HIV Medical Advisor or designee will review all prior approval applications, and approve or deny the applications. If an application is denied, the Medical Advisor will contact the prescribing provider to discuss or request additional information. All clients of denied applications have the right to appeal the decision (see Fair Hearings and Grievance Policy).

### III. Medication Changes
- Prescriptions for medication changes may be written, called in, faxed or e-scribed to a participating pharmacy in the ACP Network.
- Medication changes occurring at the time of recertification do not eliminate the requirement for six month recertification.

### IV. Medication Counseling and Pick-up
- All participating pharmacies in the ACP Network offer pharmacist to patient medication counseling and allow the client an opportunity to ask questions and review information.
- All clients must pick-up their medications in person or receive medications delivered to the client, client’s caregiver, or designated agent’s home address from an ACP Network participating pharmacy. Delivery is prohibited to enrollment sites, clinics, doctor’s offices, etc.
- For more information please see the current Department of Health and Human Services (DHHS) HIV-related Guidelines, available online at [http://www.aidsinfo.nih.gov/guidelines](http://www.aidsinfo.nih.gov/guidelines).

### V. Medication Prior Approval Request for Travel
- The Medication Override Request Form (Appendix X) must be submitted to the ADAP/HICP Office, along with supporting documentation for review.
- The request form must be submitted 30 days prior to the participant’s travel date, and the request must not exceed a 60 day supply. **Allow up to 10 business days for approval.**
- The Medication Prior Approval Request for Travel must meet the following eligibility criteria before consideration and approval:
  - Current ADAP/HICP program participation
Policies and Procedures

- 90 consecutive days of medication utilization
- Complete Application for Prior Approval form
- Supporting Documentation (i.e. Travel itinerary; documenting the client’s first and last name, date of departure and date of return.)

VI. Lost/Stolen Medication

- The Medication Override Request Form (Appendix X) must be submitted to the ADAP/HICP Office, along with supporting documentation for review.
- The Ryan White Part B ADAP/HICP program monitors utilization and limits ADAP/HICP formulary medications to a 30 day supply per client.
- Requests for replacement of lost or stolen HIV or Hepatitis C medication is subject to review by the Georgia Department of Public Health ADAP/HICP program to ensure that the program remains the “payer of last resort.” All other medication assistance programs must be explored before a request is submitted to the Georgia ADAP/HICP program.
- The local ADAP/HICP case manager must facilitate the request and ensure that all required documents are complete for review. Allow up to 5 business days for approval.
- Replacement medication requests are limited to one approval per year.
- Replacement medication requests must meet the following eligibility criteria before consideration and approval:
  - Current ADAP/HICP program participation
  - 90 consecutive days of medication utilization
  - Complete Medication Replacement Request form
  - Supporting Documentation (i.e. Case report for stolen vehicle, burglary, fire or theft.)

ADAP Waiting List

The ADAP is sometimes unable to meet the demand for new enrollments due to lack of sufficient funding. As a result, the State ADAP Office will implement a waiting list should ADAP experience the inability to serve all eligible applicants.

During the implementation of a waiting list, the State ADAP office will provide letters which can be forwarded to Pharmaceutical Patient Assistance Programs (PAPs) to ensure that applicants have access to medications.

Discontinuation of Services

ADAP Coordinators or case managers must inform the State ADAP Office when a patient discontinues or terminates ADAP or HICP services. The ADAP/HICP Discontinuation Form (Appendix Y) must be completed and sent to the State ADAP Office.

I. Reasons for Discontinuation

Discontinuation or termination of services from ADAP may occur for a number of reasons including, but not limited to:

- The client has been determined eligible for Medicaid benefits
- The client has obtained or currently has private insurance, or other third-party payer benefits, with prescription drug coverage for HIV medications
- The client’s household income rises to more than 400% of the current FPL
• The client has been approved for LIS benefits under Medicare Part D
• The client moves out of Georgia, or cannot be located
• The client does not reside in the state of Georgia
• The client fails to pick up medications, for more than 60 days, and is refusing to adhere to the medication regimen despite counseling, support or other assistance offered
• The client fails to recertify
• It is discovered that the client failed to report substantial income, or insurance benefits that made him/her ineligible at the time of application, or subsequent to application
• The client fails to provide necessary proof of eligibility
• The client is placed in an institution such as a nursing home, hospital, hospice, state or federal prison, or jail for more than 30 days
• The client has died

**NOTE:** If the ADAP office has not received a Recertification Form within 30 days of the expiration of the due date and has not received any notification from the case manager or ADAP coordinator, the State office ADAP staff will notify the case manager or ADAP Coordinator that the client will be automatically moved to inactive status and discontinued from the program. Clients may apply for re-enrollment (if there is not a waiting list) at a later date if they are able to supply appropriate documentation.

Discontinuation or termination of services from HICP may occur for a number of reasons including, but not limited to:
• Failure to recertify
• Termination of COBRA coverage
• Moved or relocated
• Income exceeds eligibility requirements
• Employed with affordable coverage
• Client has received a refund of insurance premiums paid by DPH and has not returned the refund to the State office
• Another payer is identified
• The client fails to provide necessary proof of eligibility
• Incarcerated for more than 30 days
• Admitted to hospice
• The client has died

**II. Failure to Pick Up Medications and Discontinuation**
• If a client fails to show at all for 60 or more days to pick up their medications, he/she must be discontinued from ADAP.
• The case manager or ADAP Coordinator should make a minimum of two attempts to contact the client after he/she fails to pick-up their medications after the first month. Communication with the client and/or attempts to contact the client must be documented in the client’s record.

**NOTE:** This does not necessarily preclude later re-enrollment into the Program. An ADAP Application must be submitted for re-enrollment (Appendix M).
III. Procedures for Discontinuation

Enrollment sites are instructed to do the following:

1) Complete the ADAP/HICP Discontinuation Form in CAREWare (Appendix Y).
2) Document the reason for disenrollment on the form, noting that the client was notified of the action or that there were attempts to notify the client of the action.
3) Document the date of discontinuation.
4) Upload the discontinuation form in CAREWare and mark it “Ready for D/C.”

Security and Confidentiality

Ryan White Part B funded agencies, local ADAP/HICP enrollment sites and the ADAP State Office must take the following steps to ensure all clients’ security and confidentiality.

- All personnel must ensure that client charts are secure and that client confidentiality is maintained.
- All personnel must sign confidentiality agreements and agreements must be kept on file.
- All sites must ensure compliance with the Health Insurance Portability and Accountability Act (HIPAA).
- Client charts must be kept in a locked area when not in use.
- If information is maintained in an electronic format, computers must be password protected and secure while in use (e.g., placed with screen out of view, attended at all times, and turned off when unattended).
- Access to areas containing client charts, computers, and medications must be restricted to authorized personnel only or clients/visitors with escorts.

Fair Hearings and Grievance Policy

All ADAP/HICP applicants have a right to make a grievance (complaint) and request a fair hearing if they feel they have been erroneously denied assistance due to medical reasons or criteria, or the State ADAP office has delayed the processing of an application. In addition, local ADAP/HICP enrollment sites must have local grievance policies and processes in place.

I. Fair Hearing Regarding Application or Recertification Process

- Requests for Fair Hearings regarding the Application or Recertification process must be made in writing and submitted within 10 business days of the denial or discontinuation of services.
- The request must include the following:
  - A written request for a Fair Hearing stating the reason the applicant feels that he/she should have been approved for the program.
  - A copy of the original application.
  - Any documentation that the applicant has to support their position.
  - A copy of the denial letter from the Office of HIV/AIDS.
- Please submit requests to:
  - Local District or Approved Agency HIV Coordinator or Manager, and
  - State ADAP/HICP Manager
    Georgia Department of Public Health
Office of HIV/AIDS  
2 Peachtree Street NW  
14th Floor  
Atlanta, GA 30303-3186

- The State ADAP/HICP Manager will respond to the client’s request within 10 business days.
- If the client does not agree with the answer, the client may request a face-to-face meeting with the local ADAP Coordinator or case manager, the State ADAP/HICP Manager, and a representative of the client’s choice.
- The State ADAP/HICP Manager will issue a written decision within 10 business days.
- If the client does not agree with the decision, he/she may appeal to the HIV Care Manager or Office of HIV/AIDS Director in writing.

II. Fair Hearing Regarding Medical Eligibility

- Requests for Fair Hearings regarding denials due to medical criteria must be made in writing and submitted within 10 days of the denial or discontinuation of services.
- The request must include the following:
  - A written request for a Fair Hearing stating the reason the applicant feels that he/she should have been approved for the program.
  - A copy of the original application.
  - Any documentation that the applicant has to support their position.
  - A copy of the denial letter from the Office of HIV/AIDS.
- Please submit requests to:
  - Local District or Approved Agency HIV Coordinator or Manager, and
  - State ADAP/HICP Manager  
    Georgia Department of Public Health  
    Office of HIV/AIDS  
    2 Peachtree Street NW  
    14th Floor  
    Atlanta, GA 30303-3186
- The State ADAP/HICP Manager will respond to the client’s request within 10 business days.
- If the client does not agree with the answer, the client may request an appeal to the HIV Medical Advisory Committee.
- The Chairman of the HIV Medical Advisory Committee will consult the Medical Advisory Committee and respond in writing to the client within 10 business days.

III. Grievance Policy

- All sites must have a documented grievance policy and process.
- The Grievance Policy must be displayed in a highly visible area and convenient to clients.
- Clients must be made aware of their Rights and Responsibilities including the grievance process.

APPENDICES
## Appendix A: Part B Primary Care Clinics

### District 1-1 (Rome)
- **Northwest GA Specialty Care Clinic**
  - 16 East 12th Street, Suite 202
  - Rome, GA 30161

  - **Janet Eberhart**
  - 706-295-6701

  - **Monday - Wednesday** 8:00 am - 5:00 pm
  - **Thursday** 8:00 am - 6:00 pm
  - **Friday** 8:00 am - 2:00 pm

### Satellite Clinic
- **Catoosa County Health Department**
  - 145 Catoosa Circle
  - Ringgold, GA 30736

  - **Janet Eberhart**
  - 706-295-6701

  - **2nd Thursday** 8:00 am - 2:00 pm

  Counties include: Bartow, Catoosa, Chattooga, Dade, Floyd, Gordon, Haralson, Paulding, Polk, and Walker

### District 1-2 (Dalton)
- **The Living Bridge Center**
  - Whitefield County Health Department
  - 808 Professional Blvd.
  - Dalton, GA 30720

  - **Jeff Vollman**
  - 706-281-2360

  - **Monday - Thursday** 7:30 am - 5:30 pm

### Satellite Clinic
- **Cherokee Co.- Canton Health Dept.**
  - 1219 Univeter Road
  - Canton, GA 30114

  - 706-281-2360

  - **First and third Mondays of each month**
  - 9:00 am - 4:00 pm

### Satellite Clinic
- **Fannin County Health Department**
  - 95 Ouida Street
  - Blue Ridge, GA 30513

  - 706-281-2360

  - **Six times annually, call for schedule**
  - 9:00 am - 4:00 pm

  Counties include: Cherokee, Fannin, Gilmer, Murray, Pickens, and Whitfield

### District 2 (Gainesville)
- **Hall County Health Department**
  - 1290 Athens Street
  - Gainesville, GA 30507

  - **Karla Henriquez**
  - 770-535-5801

  - **Fax** 770-535-5742

  - **Monday/Wed./Thurs.** 8:00 am - 5:00 pm
  - **Tuesday** 8:00 am - 7:00 pm
  - **Friday** 8:00 am - 3:00 pm

### Satellite Clinic
- **Stephens County Health Dept.**
  - 64 Boulevard
  - Toccoa, GA 30577

  - **Karla Henriquez**
  - 770-535-5801

  - **2nd and 4th Wednesday of each month**
  - 9:00 am - 3:00 pm

  Counties include: Banks, Dawson, Forsyth, Franklin, Habersham, Hall, Hart, Lumpkin, Rabun, Stephens, Towns, Union, and White
Policies and Procedures

Last Revised 3/21/2017
Appendix B: Glossary of HIV Services

Please refer to HRSA PCN #16-02 for additional details.

Core Medical Services

AIDS Drug Assistance Program (ADAP) Treatments: The ADAP is a state-administered program authorized under Part B of the Ryan White HIV/AIDS Program (RWHAP) to provide FDA-approved medications to low income clients with HIV disease who have no coverage or limited health care coverage. ADAPs may also use program funds to purchase health insurance for eligible clients and for services that enhance access to, adherence to, and monitoring of antiretroviral therapy. RWHAP ADAP recipients must assess and compare the aggregate cost of paying for the health insurance option versus paying for the full cost for medications and other appropriate HIV outpatient/ambulatory health services to ensure that purchasing health insurance is cost effective in the aggregate. Eligible ADAP clients must be living with HIV and meet income and other eligibility criteria as established by the state.

AIDS Pharmaceutical Assistance: Used as a supplement to provide medication assistance when an ADAP has a restricted formulary and/or restricted financial eligibility criteria. RWHAP Part B recipients using the Local Pharmaceutical Assistance Program (LPAP) service category must establish the following:

- Uniform benefits for all enrolled clients throughout the service area
- A recordkeeping system for distributed medications
- An LPAP advisory board
- A drug formulary approved by the local advisory committee/board
- A drug distribution system
- A client enrollment and eligibility determination process that includes screening for ADAP and LPAP eligibility with rescreening at minimum of every six months
- Coordination with the state’s RWHAP Part B ADAP
  - A statement of need should specify restrictions of the state ADAP and the need for the LPAP
- Implementation in accordance with requirements of the 340B Drug Pricing Program and the Prime Vendor Program

Only RWHAP Part A grant award funds or Part B Base award funds may be used to support an LPAP. ADAP funds may not be used for LPAP support. LPAP funds are not to be used for Emergency Financial Assistance. Emergency Financial Assistance may assist with medications not covered by the LPAP.

Early Intervention Services (EIS): Includes counseling individuals with respect to HIV/AIDS' testing (including tests to confirm the presence of the disease, tests to diagnose the extent of immune deficiency, and tests to provide information on appropriate therapeutic measures); referrals; other clinical and diagnostic services regarding HIV/AIDS; periodic medical evaluations for individuals with HIV/AIDS; and provision of therapeutic measures. The elements of EIS often overlap with other service category descriptions; however, EIS is the combination of such services rather than a stand-alone service. RWHAP Part recipients should be aware of programmatic expectations that stipulate the allocation of funds into specific service categories.
Policies and Procedures

RWHAP Part B EIS services must include the following four components:

- Targeted HIV testing to help the unaware learn of their HIV status and receive referral to HIV care and treatment services if found to be HIV infected
  - Recipients must coordinate these testing services with other HIV prevention and testing programs to avoid duplication of efforts
  - HIV testing paid for by EIS cannot supplant testing efforts paid for by other sources
- Referral services to improve HIV care and treatment services at key points of entry
- Access and linkage to HIV care and treatment services such as HIV Outpatient/Ambulatory Health Services, Medical Case Management, and Substance Abuse Care
- Outreach Services and Health Education/Risk Reduction related to HIV diagnosis

Health Insurance Premium and Cost Sharing Assistance for Low-Income Individuals: Provides financial assistance for eligible clients living with HIV to maintain continuity of health insurance or to receive medical and pharmacy benefits under a health care coverage program. For purposes of this service category, health insurance also includes standalone dental insurance. The service provision consists of the following:

- Paying health insurance premiums to provide comprehensive HIV Outpatient/Ambulatory Health Services, and pharmacy benefits that provide a full range of HIV medications for eligible clients; and/or
- Paying standalone dental insurance premiums to provide comprehensive oral health care services for eligible clients; and/or
- Paying cost sharing on behalf of the client.

To use RWHAP funds for health insurance premium assistance (not standalone dental insurance assistance), a RWHAP Part recipient must implement a methodology that incorporates the following requirements:

- RWHAP Part recipients must ensure that clients are buying health coverage that, at a minimum, includes at least one drug in each class of core antiretroviral therapeutics from the Department of Health and Human Services (HHS) treatment guidelines along with appropriate HIV outpatient/ambulatory health services.
- RWHAP Part recipients must assess and compare the aggregate cost of paying for the health insurance option versus paying for the full cost for medications and other appropriate HIV outpatient/ambulatory health services to ensure that purchasing health insurance is cost effective in the aggregate, and allocate funding to Health Insurance Premium and Cost Sharing Assistance only when determined to be cost effective.

To use RWHAP funds for standalone dental insurance premium assistance, a RWHAP Part recipient must implement a methodology that incorporates the following requirement:

- RWHAP Part recipients must assess and compare the aggregate cost of paying for the standalone dental insurance option versus paying for the full cost of HIV oral health care services to ensure that purchasing standalone dental insurance is cost effective in the aggregate, and allocate funding to Health Insurance Premium and Cost Sharing Assistance only when determined to be cost effective.
Policies and Procedures

Home and Community-Based Health Services: Provided to a client living with HIV in an integrated setting appropriate to a client’s needs, based on a written plan of care established by a medical care team under the direction of a licensed clinical provider. Services include:

- Appropriate mental health, developmental, and rehabilitation services
- Day treatment or other partial hospitalization services
- Durable medical equipment
- Home health aide services and personal care services in the home

Inpatient hospitals, nursing homes, and other long-term care facilities are not considered an integrated setting for the purposes of providing home and community-based health services.

Home Health Care: The provision of services in the home that are appropriate to a client’s needs and are performed by licensed professionals. Services must relate to the client’s HIV disease and may include:

- Administration of prescribed therapeutics (e.g. intravenous and aerosolized treatment, and parenteral feeding)
- Preventive and specialty care
- Wound care
- Routine diagnostics testing administered in the home
- Other medical therapies

The provision of Home Health Care is limited to clients that are homebound. Home settings do not include nursing facilities or inpatient mental health/substance abuse treatment facilities.

Hospice: End-of-life care services provided to clients in the terminal stage of an HIV-related illness. Allowable services are:

- Mental health counseling
- Nursing care
- Palliative therapeutics
- Physician services
- Room and board

Services may be provided in a home or other residential setting, including a non-acute care section of a hospital that has been designated and staffed to provide hospice services. This service category does not extend to skilled nursing facilities or nursing homes. To meet the need for hospice services, a physician must certify that a patient is terminally ill and has a defined life expectancy as established by the recipient. Counseling services provided in the context of hospice care must be consistent with the definition of mental health counseling. Palliative therapies must be consistent with those covered under respective state Medicaid programs.

Medical Case Management, including Treatment Adherence Services: The provision of a range of client-centered activities focused on improving health outcomes in support of the HIV care continuum. Activities may be prescribed by an interdisciplinary team that includes other specialty care providers. Medical Case Management includes all types of case management encounters (e.g., face-to-face, phone contact, and any other forms of communication). Key activities include:
• Initial assessment of service needs
• Development of a comprehensive, individualized care plan
• Timely and coordinated access to medically appropriate levels of health and support services and continuity of care
• Continuous client monitoring to assess the efficacy of the care plan
• Re-evaluation of the care plan at least every 6 months with adaptations as necessary
• Ongoing assessment of the client’s and other key family members’ needs and personal support systems
• Treatment adherence counseling to ensure readiness for and adherence to complex HIV treatments
• Client-specific advocacy and/or review of utilization of services

In addition to providing the medically oriented services above, Medical Case Management may also provide benefits counseling by assisting eligible clients in obtaining access to other public and private programs for which they may be eligible (e.g., Medicaid, Medicare Part D, State Pharmacy Assistance Programs, Pharmaceutical Manufacturer’s Patient Assistance Programs, other state or local health care and supportive services, and insurance plans through the health insurance Marketplaces/Exchanges).

Medical Case Management services have as their objective improving health care outcomes whereas Non-Medical Case Management Services have as their objective providing guidance and assistance in improving access to needed services. Visits to ensure readiness for, and adherence to, complex HIV treatments shall be considered Medical Case Management or Outpatient/Ambulatory Health Services. Treatment Adherence Services provided during a Medical Case Management visit should be reported in the Medical Case Management service category whereas Treatment Adherence services provided during an Outpatient/Ambulatory Health Service visit should be reported under the Outpatient/Ambulatory Health Services category.

**Medical Nutrition Therapy:** Includes the following:
• Nutrition assessment and screening
• Dietary/nutritional evaluation
• Food and/or nutritional supplements per medical provider’s recommendation
• Nutrition education and/or counseling

These services can be provided in individual and/or group settings and outside of HIV Outpatient/Ambulatory Health Services. All services performed under this service category must be pursuant to a medical provider’s referral and based on a nutritional plan developed by the registered dietitian or other licensed nutrition professional. Services not provided by a registered/licensed dietitian should be considered Psychosocial Support Services under the RWHAP.

**Mental Health Services:** The provision of outpatient psychological and psychiatric screening, assessment, diagnosis, treatment, and counseling services offered to clients living with HIV. Services are based on a treatment plan, conducted in an outpatient group or individual session, and provided by a mental health professional licensed or authorized within the state to render such services. Such
professionals typically include psychiatrists, psychologists, and licensed clinical social workers. Mental Health Services are allowable only for HIV-infected clients.

**Oral Health Care**: Provide outpatient diagnostic, preventive, and therapeutic services by dental health care professionals, including general dental practitioners, dental specialists, dental hygienists, and licensed dental assistants.

**Outpatient/Ambulatory Health Services**: Diagnostic and therapeutic services provided directly to a client by a licensed healthcare provider in an outpatient medical setting. Outpatient medical settings include clinics, medical offices, and mobile vans where clients do not stay overnight. Emergency room or urgent care services are not considered outpatient settings. Allowable activities include:

- Medical history taking
- Physical examination
- Diagnostic testing, including laboratory testing
- Treatment and management of physical and behavioral health conditions
- Behavioral risk assessment, subsequent counseling, and referral
- Preventive care and screening
- Pediatric developmental assessment
- Prescription, and management of medication therapy
- Treatment adherence
- Education and counseling on health and prevention issues
- Referral to and provision of specialty care related to HIV diagnosis

Treatment Adherence services provided during an Outpatient/Ambulatory Health Service visit should be reported under the Outpatient/Ambulatory Health Services category whereas Treatment Adherence services provided during a Medical Case Management visit should be reported in the Medical Case Management service category.

**Substance Abuse Outpatient Care**: The provision of outpatient services for the treatment of drug or alcohol use disorders. Services include:

- Screening
- Assessment
- Diagnosis, and/or
- Treatment of substance use disorder, including:
  - Pretreatment/recovery readiness programs
  - Harm reduction
  - Behavioral health counseling associated with substance use disorder
  - Outpatient drug-free treatment and counseling
  - Medication assisted therapy
  - Neuro-psychiatric pharmaceuticals
  - Relapse prevention

Acupuncture therapy may be allowable under this service category only when, as part of a substance use disorder treatment program funded under the RWHAP, it is included in a documented plan. Syringe
access services are allowable, to the extent that they comport with current appropriations law and applicable HHS guidance, including HRSA- or HAB-specific guidance.

**Support Services**

**Child Care Services:** The RWHAP supports intermittent child care services for the children living in the household of HIV-infected clients for the purpose of enabling clients to attend medical visits, related appointments, and/or RWHAP-related meetings, groups, or training sessions. Allowable use of funds include:

- A licensed or registered child care provider to deliver intermittent care
- Informal child care provided by a neighbor, family member, or other person (with the understanding that existing federal restrictions prohibit giving cash to clients or primary caregivers to pay for these services)

The use of funds under this service category should be limited and carefully monitored. Direct cash payments to clients are not permitted. Such arrangements may also raise liability issues for the funding source which should be carefully weighed in the decision process.

**Emergency Financial Assistance:** Provides limited one-time or short-term payments to assist the RWHAP client with an emergent need for paying for essential utilities, housing, food (including groceries, and food vouchers), transportation, and medication. Emergency financial assistance can occur as a direct payment to an agency or through a voucher program. Direct cash payments to clients are not permitted. It is expected that all other sources of funding in the community for emergency financial assistance will be effectively used and that any allocation of RWHAP funds for these purposes will be as the payer of last resort, and for limited amounts, uses, and periods of time. Continuous provision of an allowable service to a client should not be funded through emergency financial assistance.

**Food Bank/Home Delivered Meals:** Refers to the provision of actual food items, hot meals, or a voucher program to purchase food. This also includes the provision of essential non-food items that are limited to the following:

- Personal hygiene products
- Household cleaning supplies
- Water filtration/purification systems in communities where issues of water safety exist

Unallowable costs include household appliances, pet foods, and other non-essential products.

**Health Education/Risk Reduction:** The provision of education to clients living with HIV about HIV transmission and how to reduce the risk of HIV transmission. It includes sharing information about medical and psychosocial support services and counseling with clients to improve their health status. Topics covered may include:

- Education on risk reduction strategies to reduce transmission such as pre-exposure prophylaxis (PrEP) for clients’ partners and treatment as prevention
- Education on health care coverage options (e.g., qualified health plans through the Marketplace, Medicaid coverage, Medicare coverage)
Health Education/Risk Reduction services cannot be delivered anonymously.

**Housing:** Housing services provide transitional, short-term, or emergency housing assistance to enable a client or family to gain or maintain outpatient/ambulatory health services and treatment. Housing services include housing referral services and transitional, short-term, or emergency housing assistance. Transitional, short-term, or emergency housing provides temporary assistance necessary to prevent homelessness and to gain or maintain access to medical care. Housing services must also include the development of an individualized housing plan, updated annually, to guide the client’s linkage to permanent housing. Housing services also can include housing referral services: assessment, search, placement, and advocacy services; as well as fees associated with these services. Eligible housing can include either housing that:

- Provides some type of core medical or support services (such as residential substance use disorder services or mental health services, residential foster care, or assisted living residential services); or
- Does not provide direct core medical or support services, but is essential for a client or family to gain or maintain access to and compliance with HIV-related outpatient/ambulatory health services and treatment. The necessity of housing services for the purposes of medical care must be documented.

RWHAP recipients and subrecipients must have mechanisms in place to allow newly identified clients access to housing services. RWHAP recipients and subrecipients must assess every client’s housing needs at least annually to determine the need for new or additional services. In addition, RWHAP recipients and subrecipients must develop an individualized housing plan for each client receiving housing services and update it annually. RWHAP recipients and subrecipients must provide HAB with a copy of the individualized written housing plan upon request.

RWHAP Part A, B, C, and D recipients, subrecipients, and local decision making planning bodies are strongly encouraged to institute duration limits to housing services. The U.S. Department of Housing and Urban Development (HUD) defines transitional housing as up to 24 months and HRSA/HAB recommends that recipients and subrecipients consider using HUD’s definition as their standard. Housing services cannot be in the form of direct cash payments to clients and cannot be used for mortgage payments.

**Legal Services:** See *Other Professional Services*

**Linguistic Services:** Provision of interpretation and translation services, both oral and written, to eligible clients. These services must be provided by qualified linguistic services providers as a component of HIV service delivery between the healthcare provider and the client. These services are to be provided when such services are necessary to facilitate communication between the provider and client and/or support delivery of RWHAP-eligible services. Services provided must comply with the National Standards for Culturally and Linguistically Appropriate Services (CLAS).
**Medical Transportation:** The provision of non-emergency transportation services that enables an eligible client to access or be retained in core medical and support services.

Medical transportation may be provided through:
- Contracts with providers of transportation services
- Mileage reimbursement (through a non-cash system) that enables clients to travel to needed medical or other support services, but should not in any case exceed the established rates for federal Programs (Federal Joint Travel Regulations provide further guidance on this subject)
- Purchase or lease of organizational vehicles for client transportation programs, provided the recipient receives prior approval for the purchase of a vehicle
- Organization and use of volunteer drivers (through programs with insurance and other liability issues specifically addressed)
- Voucher or token systems

Costs for transportation for medical providers to provide care should be categorized under the service category for the service being provided.

Unallowable costs include:
- Direct cash payments or cash reimbursements to clients
- Direct maintenance expenses (tires, repairs, etc.) of a privately-owned vehicle
- Any other costs associated with a privately-owned vehicle such as lease, loan payments, insurance, license, or registration fees

**Non-Medical Case Management Services:** Non-Medical Case Management Services (NMCM) provide guidance and assistance in accessing medical, social, community, legal, financial, and other needed services. Non-Medical Case management services may also include assisting eligible clients to obtain access to other public and private programs for which they may be eligible, such as Medicaid, Medicare Part D, State Pharmacy Assistance Programs, Pharmaceutical Manufacturer’s Patient Assistance Programs, other state or local health care and supportive services, or health insurance Marketplace plans. This service category includes several methods of communication including face-to-face, phone contact, and any other forms of communication deemed appropriate by the RWHAP Part recipient. Key activities include:
- Initial assessment of service needs
- Development of a comprehensive, individualized care plan
- Continuous client monitoring to assess the efficacy of the care plan
- Re-evaluation of the care plan at least every 6 months with adaptations as necessary
- Ongoing assessment of the client’s and other key family members’ needs and personal support systems

Non-Medical Case Management Services have as their objective providing guidance and assistance in improving access to needed services whereas Medical Case Management services have as their objective improving health care outcomes.
Other Professional Services: Other Professional Services allow for the provision of professional and consultant services rendered by members of particular professions licensed and/or qualified to offer such services by local governing authorities. Such services may include:

- Legal services provided to and/or on behalf of the individual living with HIV and involving legal matters related to or arising from their HIV disease, including:
  - Assistance with public benefits such as Social Security Disability Insurance (SSDI) or Interventions necessary to ensure access to eligible benefits, including discrimination or breach of confidentiality litigation as it relates to services eligible for funding under the RWHAP
  - Preparation of:
    - Healthcare power of attorney
    - Durable powers of attorney
    - Living wills
- Permanency planning to help clients/families make decisions about the placement and care of minor children after their parents/caregivers are deceased or are no longer able to care for them, including:
  - Social service counseling or legal counsel regarding the drafting of wills or delegating powers of attorney
  - Preparation for custody options for legal dependents including standby guardianship, joint custody, or adoption
- Income tax preparation services to assist clients in filing Federal tax returns that are required by the Affordable Care Act for all individuals receiving premium tax credits

Legal services exclude criminal defense and class-action suits unless related to access to services eligible for funding under the RWHAP.

Outreach Services: The provision of the following three activities:

- Identification of people who do not know their HIV status and linkage into Outpatient/Ambulatory Health Services
- Provision of additional information and education on health care coverage options
- Reengagement of people who know their status into Outpatient/Ambulatory Health Services

Outreach programs must be:

- Conducted at times and in places where there is a high probability that individuals with HIV infection and/or exhibiting high-risk behavior
- Designed to provide quantified program reporting of activities and outcomes to accommodate local evaluation of effectiveness
- Planned and delivered in coordination with local and state HIV prevention outreach programs to avoid duplication of effort
- Targeted to populations known, through local epidemiologic data or review of service utilization data or strategic planning processes, to be at disproportionate risk for HIV infection

Funds may not be used to pay for HIV counseling or testing under this service category. Outreach services cannot be delivered anonymously as personally identifiable information is needed from clients for program reporting.
Permanency Planning: See Other Professional Services

Psychosocial Support Services: Provide group or individual support and counseling services to assist eligible people living with HIV to address behavioral and physical health concerns. These services may include:

- Bereavement counseling
- Caregiver/respite support (RWHAP Part D)
- Child abuse and neglect counseling
- HIV support groups
- Nutrition counseling provided by a non-registered dietitian (see Medical Nutrition Therapy Services)
- Pastoral care/counseling services

Funds under this service category may not be used to provide nutritional supplements (See Food Bank/Home Delivered Meals). RWHAP-funded pastoral counseling must be available to all eligible clients regardless of their religious denominational affiliation. Funds may not be used for social/recreational activities or to pay for a client’s gym membership.

Referral for Health Care and Support Services: Directs a client to needed core medical or support services in person or through telephone, written, or other type of communication. This service may include referrals to assist eligible clients to obtain access to other public and private programs for which they may be eligible (e.g., Medicaid, Medicare Part D, State Pharmacy Assistance Programs, Pharmaceutical Manufacturer’s Patient Assistance Programs, and other state or local health care and supportive services, or health insurance Marketplace plans).

Referrals for Health Care and Support Services provided by outpatient/ambulatory health care providers should be reported under the Outpatient/Ambulatory Health Services category. Referrals for health care and support services provided by case managers (medical and non-medical) should be reported in the appropriate case management service category (i.e., Medical Case Management or Non-Medical Case Management).

Rehabilitation Services: Provided by a licensed or authorized professional in accordance with an individualized plan of care intended to improve or maintain a client's quality of life and optimal capacity for self-care. Examples of allowable services under this category are physical and occupational therapy.

Respite Care: The provision of periodic respite care in community or home-based settings that includes non-medical assistance designed to provide care for an HIV-infected client to relieve the primary caregiver responsible for the day-to-day care of an adult or minor living with HIV. Recreational and social activities are allowable program activities as part of a respite care service provided in a licensed or certified provider setting including drop-in centers within HIV Outpatient/Ambulatory Health Services or satellite facilities. Funds may not be used for off premise social/recreational activities or to pay for a client’s gym membership. Funds may be used to support informal, home-based Respite Care, but liability issues should be included in the consideration of this expenditure. Direct cash payments to clients are not permitted.
Substance Abuse Services (residential): The provision of services for the treatment of drug or alcohol use disorders in a residential setting to include screening, assessment, diagnosis, and treatment of substance use disorder. This service includes:

- Pretreatment/recovery readiness programs
- Harm reduction
- Behavioral health counseling associated with substance use disorder
- Medication assisted therapy
- Neuro-psychiatric pharmaceuticals
- Relapse prevention
- Detoxification, if offered in a separate licensed residential setting (including a separately-licensed detoxification facility within the walls of an inpatient medical or psychiatric hospital)

Substance Abuse Services (residential) is permitted only when the client has received a written referral from the clinical provider as part of a substance use disorder treatment program funded under the RWHAP. Acupuncture therapy may be allowable funded under this service category only when it is included in a documented plan as part of a substance use disorder treatment program funded under the RWHAP.

</tr>
</tbody>
</table>
1. Laboratories should conduct initial testing for HIV with an FDA-approved antigen/antibody (Ag/Ab) combination immunoassay* that detects HIV-1 and HIV-2 antibodies and HIV-1 p24 antigen to screen for established infection with HIV-1 or HIV-2 and for acute HIV-1 infection. No further testing is required for specimens that are nonreactive on the initial immunoassay.
   
   * Exception: As of April 2014, data are insufficient to recommend use of the FDA-approved single-use rapid HIV-1/HIV-2 antigen/antibody combination immunoassay as the initial assay in the algorithm.

2. Specimens with a reactive Ag/Ab combination immunoassay result (or repeatedly reactive, if repeat testing is recommended by the manufacturer or required by regulatory authorities) should be tested with an FDA-approved antibody immunoassay that differentiates HIV-1 antibodies from HIV-2 antibodies. Reactive results on the initial Ag/Ab combination immunoassay and the HIV-1/HIV-2 antibody differentiation immunoassay should be interpreted as positive for HIV-1 antibodies, HIV-2 antibodies, or HIV antibodies, undifferentiated.

3. Specimens that are reactive on the initial Ag/Ab combination immunoassay and nonreactive or indeterminate on the HIV-1/HIV-2 antibody differentiation immunoassay should be tested with an FDA-approved HIV-1 nucleic acid test (NAT).
   - A reactive HIV-1 NAT result and nonreactive HIV-1/HIV-2 antibody differentiation immunoassay result indicates laboratory evidence for acute HIV-1 infection.
   - A reactive HIV-1 NAT result and indeterminate HIV-1/HIV-2 antibody differentiation immunoassay result indicates the presence of HIV-1 infection confirmed by HIV-1 NAT.
   - A negative HIV-1 NAT result and nonreactive or indeterminate HIV-1/HIV-2 antibody differentiation immunoassay result indicates a false-positive result on the initial immunoassay.

4. Laboratories should use this same testing algorithm, beginning with an Ag/Ab combination immunoassay, with serum or plasma specimens submitted for testing after a reactive (preliminary positive) result from any rapid HIV test.

Appendix H: Case Report Form

GEORGIA ADULT HIV/AIDS CONFIDENTIAL CASE REPORT FORM
(Patients ≥ 13 years of age at time of diagnosis)

Mail completed form to: Georgia Department of Public Health, Epidemiology Section P.O. Box 2107 Atlanta, GA 30301
For additional information: Phone: 1-800-827-9769 or visit our website at http://health.state.ga.us/epi/hivaids

All health care providers AND HIV/AIDS testing sites diagnosing and/or providing care to a patient with HIV are obligated to report using Georgia HIV/AIDS Case Report. Case reports should be completed within seven (7) days after diagnosing or providing care to a patient with HIV/AIDS. Providers are required to submit reports on any patient new to his or her care, regardless if they have previously received care elsewhere.

### Policies and Procedures

**IV. Patient History**

Preceding the first positive HIV antibody test or AIDS diagnosis, this patient had (respond to all categories):

- Sex with male  
- Sex with female  
- Injected non-prescription drugs  
- **HETEROSEXUAL relations with any of the following:**
  - intravenous/injection drug user  
  - Bisexual male  
- Person with AIDS or documented HIV infection, risk not specified  
- Received transfusion of blood/blood components (other than clotting factor) (document reason in the Comments section)
  - First date received  
  - Last date received  
- Worked in a healthcare or clinical laboratory setting
  - specify occupation and setting (if applicable):
    - Other risk  
    - Transplant  
    - Received clotting factor  
  - describe other risk:

</tbody>
</table>

- These medications will be available on the formulary until the funds for the pilot are exhausted. The program will provide notification when the pilot program is closed.

- Prior Approval Application is required prior to dispensing.
## Georgia ADAP Application for Prior Approval Medications

### DATE OF REQUEST:

<table>
<thead>
<tr>
<th>[ ]</th>
<th>[ ]</th>
</tr>
</thead>
</table>

### CLIENT INFORMATION:

- **Client Name (Last, First, M):**
- **District/Clinic where the client is seen:**
- **Client Caregiver:**
  1. Patient is willing to take (or caregiver to administer) medications as directed. [ ] Yes [ ] No
  2. Patient has prior evidence of adherence to therapy and medical care; and prescriber has reasonable expectation that adherent behavior will continue. [ ] Yes [ ] No
  3. Patient's home has sufficient storage at the proper temperature. [ ] Yes [ ] No

### DRUGS REQUESTED & REQUIRED INFORMATION:

Please complete the corresponding section for the specific drugs requested and check the appropriate boxes, or supply the response/supporting documentation.

#### Fuzeon (Enfuvirtide)

- 1) Current antiretroviral regimen:
- 2) Please attach copies of the most recent viral load, CD4 count and all available resistance testing.
- 3) Proposed optimized regimen:
- 4) Does the client have a history of moderate to severe adverse events/intolerances/allergies to medications? [ ] Yes [ ] No
  - **If yes, what medications?**
  - **Describe the reaction:**
- 5) Does the client have a history of enrollment in a recent study or Expanded Access Program? (If yes, please provide documentation.) [ ] Yes [ ] No

*If a client's regimen includes Fuzeon, the Georgia ADAP recommends completing a "Fuzeon Nurse Connections" enrollment form to arrange for a home visit from a Fuzeon Nurse Educator to help the client to become confident in their ability to reconstitute and inject Fuzeon. The form is available at [www.fuzeon.com](http://www.fuzeon.com) or via phone at 877-4FUZEON (877-433-8366).*

#### Selzentry (Maraviroc)

- 1) Current antiretroviral regimen:
- 2) Please attach copies of the most recent viral load, CD4 count, tropism assay test, and all available resistance testing.
- 3) Proposed optimized regimen:
Georgia ADAP Application for Prior Approval Medications

4) Does the client have a history of moderate to severe adverse events/intolerances/allergies to medications? □ Yes □ No
   - If yes, what medications?
   - Describe the reaction:

☐ Videx (Didanosine)
1) Current antiretroviral regimen:
2) Length of time on current regimen:
3) Reason for continuing or adding Videx to the regimen:
4) Please attach copies of the most recent viral load, CD4 count and all available resistance testing.

☐ Zerit (Stavudine)
1) Current antiretroviral regimen:
2) Length of time on current regimen:
3) Reason for continuing or adding Zerit to the regimen:
4) Please attach copies of the most recent viral load, CD4 count and all available resistance testing.

Please select requested regimen from the options listed below. (Ribavirin will be weight based.):
☐ Harvoni (Ledipasvir-sofosbuvir)
☐ Daklinza (Daclatasvir) plus Sovaldi (Sofosbuvir) □ with Ribavirin or □ without Ribavirin
☐ Sovaldi (Sofosbuvir) plus Ribavirin
☐ VIEKIRA PAK □ with Ribavirin or □ without Ribavirin
☐ Technivie □ with Ribavirin or □ without Ribavirin
☐ Zepatier □ with Ribavirin or □ without Ribavirin

Requested Course of Therapy: □ 12 weeks, □ 16 weeks, or □ 24 weeks
1) Client is an active and stable ADAP client. (Requirement) □ Yes □ No
2) Client Weight: 3) Client Age: 4) Client Sex:
5) Current antiretroviral regimen:
6) List of current non-HIV medications:
# Georgia ADAP Application for Prior Approval Medications

7) Does the client have a history of moderate to severe adverse events/intolerances/allergies to medications?  
   - Yes  No
   - If yes, what medications?  
   - Describe the reaction:  

8) Please attach copies of the most recent lab work: HIV viral load, CD4 count, CMP, CBC, PT/INR, pregnancy test (if woman of child bearing age), Hepatitis C antibody, Hepatitis C viral load, NS5A resistance-associated polymorphism test (for Zepatier: genotype 1a), Hepatitis C genotype/subtype, i.e. 1a, 1b, etc. In addition, all clients initiating HCV therapy should be assessed for HBV coinfection with HBsAg, anti-HBs, and anti-HBe, as per current AALSD guidelines and FDA Safety Announcement.

9) Hepatitis C Stage: 0 1 2 3 4 compensated cirrhosis decompenesed cirrhosis  
   - Please check the lab performed within the last 12 months and include a copy:  
   - Liver Biopsy  FIB-4 Calculation  Non-Invasive Biomarker Testing

10) Please attach the client's MELD or Child-Pugh score.

11) Does the client have a history of Hepatitis C treatment?  
    - Yes  No
    - If yes, what treatment?  

12) The requesting provider is asking the State Medical Advisor to make the treatment recommendation.  
    - Yes  No

## Provider/Prescriber Guidelines:

Patient must have a repeat HIV viral load and CD4 count performed 12 and 24 weeks after initiation of the regimen to assess effectiveness.

If CD4 and/or viral load have not improved, clinical improvement (or clinically stable if condition was worsening before) must be documented for continuation of the new regimen.

The prescriber must review the state guidelines and/or restrictions concerning the use of these medications to determine that the patient qualifies.

The prescriber should be an experiences HIV/AIDS provider or should consult with a specialist and must have sufficient office/clinic capability to provide patient education and monitoring.

Appendix M: Ryan White Part B/ADAP Electronic Application

Instructions for Completing the Georgia ADAP/HICP Application Form

The Medicaid Screening Worksheet must be completed before completing Section I of the Application Form.

Section I. Patient Information

Last Name: Enter the client’s last name.

First Name: Enter the client’s first name.

Middle Initial: Enter the client’s middle initial.

Maiden Name: Enter the client’s maiden name, if applicable.

Address: Enter the client’s home address.

Mailing Address: Enter the client’s mailing address, if different from home address. If the mailing and home addresses are the same, enter same as above.

Marital Status: Check the box indicating the client’s current legal marital status.

Pregnancy Status: Check the box indicating the client’s current pregnancy status.

County: Enter the client’s county.

Date of Birth: Enter the client’s date of birth using the MM/DD/YYYY format. Example: 01/01/1965

Social Security Number: Enter the client’s 9-digit social security number, if applicable.

Gender: Enter the client’s gender.

Ethnicity: Indicate whether the client is Hispanic, Non-Hispanic or Unknown.

Race: Indicate the client’s race. Note: If a client does not identify with any of the races indicated on the form, check “unknown.”

Telephone Number #1: Enter the primary phone number for the client, including area code.

Telephone Number #2: Enter the emergency phone number for the client, including area code.

Client Status: Check the box indicating if this is a new client application, a current client recertifying or a client transferring from another enrollment site.
Section II. Clinical Information

Diagnosis Status: Indicate the client’s current diagnosis status by selecting one diagnosis option.

Diagnosis: Indicate the date the diagnosis was initially made.

CD4: Indicate the client’s current CD4, and include the date of the test. Also indicate the NADIR CD4 count, if known, and include the date.

Viral Load: Indicate the client’s current HIV Viral Load, and include the date of the test. Also include the highest HIV viral load, if known, and include the date.

ART History: ART (Antiretroviral Therapy): A standard anti-HIV treatment regimen consists of a combination of three or more drugs that suppresses retroviral replication. Indicate whether the client is ART experienced and check the box(es) to identify the client’s previous means of accessing ART. If the client is new to ART, or ART naïve, check the box(es) that support the decision to initiate ART.

Example #1: If the client’s CD4 count is 600 and he/she has never been on ART but has a history of Opportunistic Infections, the prescribing clinician will check the boxes marked ☑ ART Naïve and ☑ History of Opportunistic Infections.

Example #2: If the client’s CD4 count is 800 and the client was on ART while in the Department of Corrections, the prescribing clinician will check the boxes marked ☑ ART Experienced and ☑ Department of Corrections.

Note: Case Reports MUST be attached to all new ADAP or HICP applications. The “yes” box should be checked if the Case Report is attached. If the “no” box is checked or a Case Report is not attached, the applications will not be approved.

Section III. Physician Information

Physician Information: Complete the name of the physician, clinic name, address, city, state, and zip code and phone number. The prescribing clinician must sign the form. An APRN or PA may also sign application forms but must be approved by DPH.

ADAP application/recertification forms completed and signed by an APRN must include the delegating physician’s name and phone number. ADAP application/recertification forms completed and signed by a PA must include the supervising physician’s name and phone number.

Section IV. Financial/Income Information

Indicate the current age of the client; his/her gross monthly income, and the source of income.

Assets: Complete this section by entering the amount of client assets for each of the types listed in the section.

** Cash Assets COUNTED towards ADAP eligibility are defined as any easily accessible or liquid cash such as assets in:
  ➢ Checking account, savings account, short term CD (3 months or less)
  ➢ Non retirement stock portfolios/mutual funds
  ➢ Equity in rental/vacation property

Assets NOT COUNTED towards ADAP include:
  ➢ Life insurance policies, and retirement/pension accounts
  ➢ Personal residence
  ➢ Personal transportation
**Documentation of Income:** Complete the documentation of income section and attach appropriate documents – MAGI form.

**Section V. Georgia Residency**

Indicate whether or not the client is currently living in Georgia. Indicate the type of documentation the client provided to document GA residency and attach copies. **Applicants who have no proof of residency in their names may submit a Statement of Support Form from persons with whom they live. That statement must be attached to a notarized Support and Residency Verification Letter signed by the applicant.**

**Section VI. Third Party Payer/Insurance Information**

**Insurance Information:** Complete this section by indicating if the client has any of the listed sources of insurance coverage. Include policy numbers, insurance company names, phone numbers, and contacts as applicable. Please include all requested Medicare, Low Income Subsidy (LIS) and/or Medicaid information. Attach information and/or documentation regarding Medicare Part D plan status and coverage details. If the applicant is not insured, please indicate in the appropriate box.

**Section VII. HICP Information**

**HICP Information:** Complete this section only if the client is applying to the Health Insurance Continuation Program (HICP).

**Section VIII. Applicant Agreement**

Print the client’s name. This section must be signed and dated by the client, indicating that he/she understands the intent of the AIDS Drug Assistance Program and authorizes his/her HIV information to be released to the Department of Public Health, HIV/AIDS Office Unit. **Also, inform the client that applicants do not have to declare or document citizenship or immigration status to be eligible for services.**

**Section IX. Case Manager Agreement**

Case manager must print his/her name and contact information and sign the application.

**Section X. Checklist**

The checklist is to be completed by the case manager. Each of the items on the checklist is required, if applicable, in order to enroll a client into the AIDS Drug Assistance Program. Incomplete application packets cannot be processed and will be returned to the enrolling agency. Please attach all supporting documents to the application prior to submission.

**Section XI. Waiting List Criterion**

In the event of a Waiting List, the CD4 count will be assessed for clients considered for enrollment as funds become available.

The Medicaid Screening Worksheet, income, residency, labs and other supporting documents must be included with the ADAP Application and Recertification.
Ryan White Application

Eligibility Criteria

Applicant must have the following information before proceeding with application:

Proof of HIV Diagnosis

Proof of Income

Proof of Georgia Residency

</table>

NOTE: For families with more than ten members, add the amount indicated beside +1 under the appropriate poverty level for EACH additional family member.

Attention: This form is only to be used for persons newly Applying and Annual Recertifications. Please use shortened ADAP/HICP Form for six (6) month recertifications. **Only clients and case managers must sign recerts.**
Before applying or re-certifying for the Georgia Ryan White Program (ADAP or HICP), the following Medicaid Screening Worksheet must be completed and attached to the application.

Please answer the following questions to assist in determining if the client is eligible for Medicaid/Other Insurance before applying for the ADAP/HICP. Answering Yes to any of the questions may indicate that the client is eligible for Medicaid assistance. The contact number for the Georgia Department Human Services (DHS) for questions relating to Medicaid is 1-888-295-1769 or via the web at www.compass.ga.gov.

1. Does the client have a Social Security Number?
   - Yes
   - No

2. What is the current (gross) annual income for client? 

3. Is the client a female with a minor child(ren) in the home?
   - Yes
   - No

4. Is the client 65 years of age or older?
   - Yes
   - No

5. Is the client disabled?
   - Yes
   - No

6. Has the client previously applied for Medicaid, and been denied?
   - Yes
   - No

   If yes, when? 

   Is denial being appealed?
   - Yes
   - No (Refer to DHS appeal)

7. Has client's physical condition gotten worse since last applied for Medicaid?
   - Yes (Refer back to Medicaid)
   - No

8. Has the client applied for Medicaid and been approved for full benefits?
   - Yes
   - No

   If Yes, please stop here, client is not eligible for ADAP.

   If No and only eligible for QMB or SLMB, continue completing the application.

9A. Has the client applied for Medicare Part D plan? 
   - Yes
   - No

9B. Has the client applied for LIS?
   - Yes
   - No

10. Has the client been approved for Full LIS?
    - Yes
    - No

    If Yes, not eligible for ADAP or HICP
    - Yes
    - No

    If No, continue completing the application

VII. HEALTH INSURANCE CONTINUATION PROGRAM (HICP) INFORMATION

☐ Is the applicant enrolling or recertifying HICP?

We will need this information to pay your premiums. You must submit a copy of your most recent premium bill or payment coupons. Also, a copy of your Health Insurance Policy benefit information regarding pharmaceutical coverage equivalent to medications on the ADAP Formulary as well as coverage for other essential medical benefits must be attached.

Insurance or COBRA Company
Plan Name
Mailing Address (for premium remittance)
City, State, Zip Code
Telephone #

What type of coverage is this?
☐ Cobra ☐ Individual ☐ Health Care Access ☐ Other Coverage

If COBRA, when is the effective date? ____________________________

Note: If this is a COBRA policy, you must try to get a Health Care Access policy when the policy ends.

What is your:

Monthly Premium Rate/Amount
Quarterly Premium Rate/Amount
Policy Number
Due Date of Next Premium

The most recent premium notice or coupon must be attached.

What is the name of the company that the premium checks are made out to?

Page 8
VIII. APPLICANT AGREEMENT

I fully understand that the AIDS Drug Assistance Program (ADAP) is intended for clients with HIV infection who are unable to pay for their medications and the Georgia Health Insurance Continuation Program (HICP) is intended for clients with HIV infection who are unable to pay for their health insurance premiums. I hereby certify that the information supplied in this application and accompanying attachments is complete and accurate. I fully understand that I am responsible for completing the recertification process, every 6 months, in order to continue to receive ADAP/HICP services. If I fail to comply with this policy, I fully understand that I can be removed from ADAP/HICP.

Furthermore, I hereby authorize the release of medical information, including information about my HIV status to the HIV/AIDS Office, to all other entities involved in the processing of my ADAP or HICP documentation, to entities involved in the dispensing of my HIV/AIDS medication, and to the Pharmacy Benefit Manager (PBM). In the event of a program audit, I understand that ADAP and HICP applications, recertifications, and other supporting documentation may be subject to review by State of Georgia Auditors and I therefore authorize access to my records.

I further authorize the staff members of the DPH, HIV/AIDS Office to disclose my confidential information to the extent necessary to carry out the purposes listed above.

X. ADAP DISTRICT OR AGENCY STAFF MUST USE THE FOLLOWING CHECKLIST TO ENSURE THAT ALL DOCUMENTATION IS ATTACHED AND THE APPLICATION IS COMPLETE. PLEASE CHECK ALL THAT APPLY.

All applications must include the following information or documentation.

☐ Section I: Patient Information is Complete

☐ Section II: Clinical Info is Complete
  ☐ Copies of Lab Results

☐ Section III: Physician Information is Complete

☐ Section IV: Financial Information is Complete
  ☐ Change/View Poverty Level Link Completed
  ☐ Proof of Income is Attached
  ☐ MAGI Attached

☐ Section V: Georgia Residency is Complete
  ☐ Proof of Georgia Residency is Attached

☐ Section VI: Third Party Payer/Insurance Complete
  ☐ Change/View Insurance Assessment Link Completed
  ☐ Private Insurance Enrollment Screening Form
  ☐ Request to Remain on ADAP Form
    If Applicable

☐ Section VII: HICP Information is Complete
If applicant applying to HICP, Health insurance policy information regarding coverage must be attached.

☐ Summary of Benefits

☐ Notification of Client Responsibility is attached

☐ Insurance Cards

☐ Premium Statements

☐ Authorization to obtain and release inform

Note: Must be faxed to the insurance company prior to submitting application

☐ Medicaid Screening Worksheet is Complete

     ☐ Medicaid Eligibility Printout

     ☐ Copy of Medicaid/Medicare Card, if applicable

     ☐ Copy of Medicare Part D Plan Card (Premium and/or Co-Pay Assistance)

     ☐ Copy of denial or approval letter for LIS

☐ Application has been signed and dated by:

     ☐ Client

     ☐ Physician

     ☐ CaseManager

     ☐ APRN or PA

☐ Case Report is Attached

☐ Application is Complete with required attachments
Appendix N: Self-Attestation Form

Before applying or re-certifying for the Georgia Ryan White Program (ADAP or HICP), the following Medicaid Screening Worksheet must be completed and attached to the application.

Please answer the following questions to assist in determining if the client is eligible Medicaid/Other Insurance before applying for the ADAP/HICP. Answering Yes to any of the questions may indicate that the client is eligible for Medicaid assistance. The contact number for Georgia Department of Human Services (DHS) is 1-888-295-1769 or via the web www.compass.ga.gov.

1. Does the client have a Social Security Number?
   □ Yes     □ No

2. What is the current (gross) annual income for client?

3. Is the client a female with minor child(ren) in the home?
   □ Yes     □ No

4. Is the client 65 years of age or older?
   □ Yes     □ No

5. Is the client disabled?
   □ Yes     □ No

6. Has the client previously applied for Medicaid and been denied?
   □ Yes     □ No

   If yes, when? ____________________________
   If yes, is denial being appealed?
   □ Yes     □ No (Refer to DHS to appeal)

7. Has client's physical condition gotten worse since last applied for Medicaid?
   □ Yes (Refer back to Medicaid)     □ No

8. Has the client applied for Medicaid and been approved for full benefits?
   □ Yes     □ No

   If Yes, please stop here, client is not eligible for ADAP.

   If No and only eligible for QMB or SLMB, continue completing the application.

9A. Has the client applied for a Medicare Part D plan? 9B. Has the client applied for LIS?
   □ Yes     □ No     □ Yes     □ No

10. Has the client been approved for Full LIS?
    □ Yes     □ No
# Policies and Procedures

**Procedure:** This form is to be completed and submitted to the HIV office on or before the last day of the 5th month after the initial enrollment or 12 month annual comprehensive recertification.

***Required: Most recent Medicaid Status printout.***

Appendix Q: Modified Adjusted Gross Income (MAGI) Factsheet

Using the Modified Adjusted Gross Income (MAGI) Methodology to Determine Ryan White Part B / ADAP / HICP Eligibility

What is MAGI?
- It is a method for how income is counted, and how household composition and family size is determined.
- It is based on the federal tax rules for determining adjusted gross income, with some modifications.
- Grantors can utilize the MAGI form to facilitate the process of determining FPL.

Why use MAGI?
- To align eligibility methodologies with other state programs, including Medicaid, in order to encourage collaboration across agencies and facilitate the eligibility determination process for clients.

How does MAGI differ from how the program was determining income prior to 2014?
- One of the main differences is that MAGI does not count child support, Supplemental Income from Social Security (defined in the line item definition table), worker’s compensation, food stamps or monetary gifts toward total adjusted gross income.

The MAGI process of determining income eligibility for Ryan White Part B/ ADAP/ HICP became effective as of April 1, 2014.

All enrollment sites were provided with a copy of the Excel MAGI Worksheet along with the Ryan White Part B/ ADAP/ HICP Policies and Procedures document. The worksheet is self-calculating, meaning it will calculate total gross income and Federal Poverty Level automatically.

Enrollment sites are to use the MAGI Worksheet for all clients when:
- enrolling into the program
- self-attesting (if there are changes to income)
- completing the yearly recertification

The MAGI Worksheet is to be kept in the client’s file and submitted with the ADAP/ HICP application, along with proof of income.

Information on what counts as income, and acceptable documentation can be found in the Policies and Procedures document. More detailed examples of documentation can be found in the table attached.

For additional questions regarding the MAGI process and use, please contact your state liaison.

• Letter of award indicating pay period                    |
| Disability Income from Social Security (SSDI)           | Social Security Disability Insurance is funded through payroll taxes. SSDI recipients are considered "insured" because they have worked for a certain number of years and have made contributions to the Social Security trust fund in the form of FICA Social Security taxes. SSDI candidates must be younger than 65 and have earned a certain number of "work credits." | • Bank Statement  
• Letter of award indicating pay period                    |
| Supplemental Income from Social Security (SSI)          | Supplemental Security Income is a program that is strictly need-based, according to income and assets, and is funded by general fund taxes. To meet the SSI income requirements, a person must have less than $2,000 in assets (or $3,000 for a couple) and a very limited income. | • Bank Statement  
• Letter of award indicating pay period                    |
| Other Income (Jury Duty Pay, Gambling, Winnings)        | Miscellaneous income. "Other income" usually includes unexpected money from an event from which a person did not receive any W-2 form. | • Line 21 on Form 1040*  
• Documentation of gambling or winning earnings  
• Documentation of jury duty pay                          |
| Child Support Received, Workers Comp, Monetary Gifts    | Listing of child support received, workers compensation income, and/or monetary gifts. | • Documentation of child support received, workers compensation, and/or monetary gifts |
| Educator Expenses                                       | If a person is an eligible educator, he/she can deduct up to $250 ($500 if married, filing jointly and both spouses are educators, but not more than $250 each) of any unreimbursed expenses you paid or incurred for books, supplies, computer equipment (including related software and services), other equipment, and supplementary materials that used in the classroom. | • Line 23 on Form 1040*  
• Documentation of expenses incurred as an eligible educator. |

*Documentation lists yearly amount. Totals must be divided by 12 months if using the monthly MAGI form.

Appendix T: Georgia’s ADAP & Medicare Part D FAQs

**Georgia’s AIDS Drug Assistance Program and Medicare Part D**

**Frequently Asked Questions**

**For HIV-positive Medicare Beneficiaries and Their Service Providers.**

*Medicare Part D affects persons on Social Security Disability Insurance (SSDI) or Social Security Administration (SSA) retirement. It does not apply to people that only get Social Security Income (SSI).*

1. **What is the AIDS Drug Assistance Program (ADAP)?**
   ADAP provides HIV medications to persons who lack prescription coverage or other means to get their HIV medications. The Ryan White HIV/AIDS Treatment Modernization Extension Act of 2009 and the State of Georgia fund ADAP. The Health Resources and Services Administration set ADAP policies for all states. Georgia’s ADAP is managed by the Department of Public Health. There are 27 sites where people can enroll.

2. **What is Medicare Part D?**
   Medicare Part D is a drug program with many plans sold by companies. The plans differ in things like price and covered drugs, so people should choose a plan to meet their needs. People may have to pay some drug costs. Learn more at [www.medicare.gov](http://www.medicare.gov) or [www.medicarerights.org](http://www.medicarerights.org), or call 800-633-4227.

3. **What is “Extra Help?”**
   Some people can get Low Income Subsidies (LIS) *Extra Help,* which greatly lowers out-of-pocket costs. Persons on both Medicaid and Medicare automatically get *Extra Help.* Persons not enrolled may apply at Social Security offices or [www.ssa.gov](http://www.ssa.gov).

4. **What is the “donut hole” (or “gap in coverage”)?**
   In most plans, persons pay the first $400 of drug costs and then 15% up to $3,700. But they must pay 100% of the coverage gap between $3,700 and $4,950.00. This coverage gap is called the “donut hole.” After paying $4,950.00, 95% of other drug costs for the year are covered.

5. **What does this mean for people with HIV?**
   HIV drugs are costly, so people with HIV may reach the “donut hole” quickly. But many can’t even pay the first $400. ADAP may help them with some costs.

6. **How can people with HIV get drugs if they can’t afford Medicare Part D?**
   People with incomes up to $18,060.00 should apply for LIS *Extra Help.* If they get full *Extra Help* they will not have a “donut hole.” They may pay $3.30 to $8.25 for each drug and may not have to pay some costs.
7. **Can ADAP assist people eligible for Medicare Part D?**  
   Yes. Persons who cannot pay out-of-pocket costs should talk to their case managers at their ADAP enrollment site. Georgia ADAP may help with costs not covered by Medicare Part D.

8. **What rules apply for persons with incomes under 135% of Federal Poverty?**  
   Persons with HIV on Medicare with incomes below 135% of Federal Poverty don’t qualify for ADAP if they have financial help or get full LIS *Extra Help*. They should apply for LIS or Extra Help right away.

9. **What is the reason for this rule?**  
   Persons that can get medications in other ways are not eligible for ADAP. ADAP is for people that can’t get their medications any other way. People who get full LIS *Extra Help* have no “donut hole” or other costs.

10. **What rules apply for those with incomes over 135% of Federal Poverty?**  
    Clients on Medicare or with incomes over 135% of Federal Poverty can stay on the ADAP and receive assistance with Co-Pays if they are in a Medicare Part D plan and do not get full LIS *Extra Help*.

11. **What is the reason for this rule?**  
    Clients with incomes over 135% of Federal Poverty may not be able to pay Medicare Part D costs. They might be able to stay on the ADAP and receive assistance with Co-Pays.

12. **When will over 135% people have to show they are in Part D?**  
    **To stay on the ADAP, low-income** clients on Medicare must show they are in a Medicare Part D plan at their next recertification.

13. **Tips for Very Low-Income clients (below 135% of Federal Poverty):**  
    - Apply for LIS *Extra Help*.
    - Review plan options, such as pharmacies and covered medications (antiretrovirals must be covered but other mediations may not be). Learn about plans and apply online at [www.medicare.gov](http://www.medicare.gov).
    - If you can get partial LIS or *Extra Help*, you may have co-pays to get drugs through Medicare Part D.
    - Clients should ask their doctors right away to write their prescriptions for 90 or 100 days to lower costs. This is because there is a co-payment each time you get a drug. Getting a 90-day supply save money.

14. **Tips for Low-Income clients (incomes over 135% of Federal Poverty):**  
    - If your income is below 150% of Federal Poverty, apply for *Extra Help*. Persons with incomes between 135% and 150% of Federal Poverty may be able to get Partial Extra Help. Sign up at Public Aid or Social Security office or at [www.ssa.gov](http://www.ssa.gov).
    - Look at the Georgia plans and sign up at [www.medicare.gov](http://www.medicare.gov). Look at plan costs (such as monthly premiums and co-pays), drug stores used and covered drugs (antiretroviral drugs must be covered but others may not be).
    - Observe ADAP rules.
Policies and Procedures

- Show proof you are in a Medicare Part D plan at you next recertification.
- If you need help with Medicare Part D, contact your ADAP enrollment site.
- You must pay the monthly premiums. If you don’t pay them, you may not be able to be on ADAP and your Medicare Part D cost may go up.

15. What should people who are on both Medicaid and Medicare know about Medicare Part D coverage?
People on both Medicaid and Medicare (dual eligibles) must use Medicare Part D for drugs. They can still use Medicaid for other medical care, such as doctor’s visits.

Letters about this change were sent to dual eligibles. They can check their status at www.medicare.gov or talk to a counselor for help.

To avoid a break in coverage, dual eligibles were placed in Medicare Part D plans and should have received letters about the plans they have been assigned. Dual eligibles should check www.medicare.gov to see if the plan meets their needs. Medicare Part D plans must include anti-retroviral drugs, so persons with HIV should make sure their other medications are on the plan. Most medications cost $3.30 to $8.25. But some medication may not be in the plan, and may be full price. It may help to change plans.

16. What is GeorgiaCares?
GeorgiaCares (www.mygeorgiacares.org/) is the State Health Insurance Assistance Program which has staff who can talk about the Medicare Prescription Drug Program and help individuals to sign up for Medicare Part D.

Appendix U: Request to Remain on ADAP and to Decline other Coverage

BEFORE SIGNING READ THIS DOCUMENT CAREFULLY AND BE SURE YOU UNDERSTAND

You are getting this letter because you can get health coverage through another program (Health Insurance Marketplace, Medicare Part D) but have decided not to obtain coverage. If you decide not to get other coverage and want to keep getting services from the Ryan White Part B Program, including ADAP - Medication Assistance (ADAP), there may be serious consequences.

- Under the Affordable Care Act (ACA), the penalty for not having health insurance in 2017 is $695 or 2.5% of your yearly household income, whichever is more. The Ryan White Part B Program **will not** help you pay this penalty. You will have to pay the penalty yourself.
- The State ADAP office may assist with Medicare Part D premium payments. In cases where the ADAP cannot assist with premium payments, clients will need to pay premiums out-of-pocket if they do not qualify for Full Low-Income Subsidy (LIS). In these cases individuals should carefully consider plans with low premiums. Failure to pay premiums can make Medicare Part D more costly in the future. A 1% increase in premiums will be added for each month a beneficiary was not enrolled in Medicare Part D.
- If you choose to not get health insurance and are enrolled in the Ryan White Part B Program, you will only be able to get medications listed on the ADAP Formulary and only be able to see Ryan White Part B Program doctors and providers.
- If the Ryan White Part B Program does not have enough money to help everyone, there will be people placed on a wait-list. The decision not to select other coverage when available could affect placement on the wait-list.

Initial all of the following:

______ I choose not to get health insurance even though I could (includes Marketplace insurance or Medicare Part D coverage).
______ I want to keep getting medications from ADAP.
______ I understand that the health care network and/or services available to me may be limited by not enrolling in health insurance for which I am eligible.
______ I understand that if I am enrolled in ADAP I will only be able to get medications on the ADAP Formulary and only see Ryan White Part B Program doctors and providers.
______ I understand that if I do not get health insurance, the Ryan White Part B Program will not pay the penalty.
______ If there is an ADAP wait-list in the future, I understand that my choice not to get health insurance will affect my place on the ADAP wait-list.

*Review and sign the reverse side.*
I agree that I have completely read this letter and understand the information. By signing below, I agree to the facts and conditions in this document.

NOTIFICATION OF CLIENT RESPONSIBILITY FOR PARTICIPATION IN THE HEALTH INSURANCE CONTINUATION PROGRAM (HICP) OF GEORGIA

I, ____________________________, am applying for assistance with payment of my health insurance premiums under the Georgia Department of Public Health (DPH) Health Insurance Continuation Program (HICP). I understand that I am responsible for my premium payments in full until DPH approves my HICP application and sends me notification. It will take a minimum of 30 days for my completed application/recertification to be processed by DPH; however, the process may take longer if completed documentation is not received and my application is returned to the enrolling agency. Should there be a lapse in payment, I understand that I am responsible for remittance directly to the insurance company/COBRA Administrator. I also understand that failure to pay my insurance premiums until DPH has approved my application for the HICP may result in the loss of my insurance coverage.

I understand that the maximum allowable monthly premium amount under the guidelines of the HICP is $1,375.00. My current insurance premium is $___________ per month.

I understand that it is my responsibility to provide regular monthly or quarterly billing statements to DPH to process accurate premium payments. Failing to provide billing statements may lead to termination of my policy. DPH will not be responsible for inaccurate premium payments sent to the insurance company or administrator.

I understand that it is my responsibility to maintain regular contact with my insurance company/COBRA Administrator and report any changes to my case manager as soon as I am aware of them.

I understand that if I receive a refund from the insurance company or COBRA administrator due to the termination of my policy, I must return it immediately to my enrolling agency to be forwarded to DPH to avoid future denial for eligibility or possible legal actions.

I understand and have been informed by my case manager that if I am accepted into the HICP, it is my responsibility to apply for recertification every six (6) months to continue to receive HICP benefits.

I understand that by signature of this form that I am waiving any responsibility or liability of the enrolling agency and the Georgia DPH Health Insurance Continuation Program and its staff for any loss of insurance or undue financial burden that I may experience as a result of this process. I also understand that the enrolling agency is not responsible for the approval of any HICP application and that the HICP is solely governed and administered by the DPH. I understand that this form is a DPH document to verify that I have been duly informed of my responsibilities if I am accepted into the HICP. I am aware that the signature on this form in no way guarantees approval of my application or recertification for the HICP.

PREMIUM REFUND REPAYMENT AGREEMENT FOR
PARTICIPATION IN THE HEALTH INSURANCE CONTINUATION PROGRAM OF GEORGIA

I, ____________________________, agree to repay to the Georgia Department of Public Health ADAP/HICP program $__________________, the total premium or tax credit amount refunded to me. I am agreeing to repay $______________ monthly, for continued eligibility for the Health Insurance Continuation Program (HICP) of Georgia. I understand that premium refund repayment must be submitted by money order each month to the Georgia Department of Public Health ADAP/HICP program.

I understand that failure to remit payment for 60 consecutive days will affect current and/or future ADAP/HICP eligibility.
