Georgia Breast and Cervical Cancer Program Logic Model

**Inputs**

- CDC
- GDFH
- Public Health Districts
- GRCCP Providers e.g. FQHCs
- ACS
- GA CORE
- Women receiving GRCCP services

**Strategies and Activities**

1. **Program Collaboration**
   - No. of cancer programs leadership team meetings held

2. **External Partnerships**
   - No. of partners developed, no. of partners maintained

3. **Cancer Data and Surveillance**
   - High quality cancer data measured and used

4. **Environmental Approach**
   - No. of education sessions, no. of employees educated

5. **Community-Clinical Linkage**
   - No. of high quality staff and providers recruited and retained

6. **Health Systems Change**
   - No. of clients navigated, no. and types of barriers reduced

7. **Program Monitoring and Evaluation**
   - No. of training sessions, no. of providers trained

**Outputs**

- No. of B & C cancer screening & diagnostic services provided
- No. of clients referred for B & C cancer screening & diagnostic services
- No. of partner FQHCs, no. and types of EBIs & supportive activities implemented, clinic-level data collected

**Outcomes**

- **Short-term**
  - Established health system and community partnerships to increase B & C cancer screening
  - Improved knowledge about B & C cancer screening among priority populations
  - Increased intention to receive B & C cancer screening among priority populations
  - Increased appropriate B & C cancer screening, rescreening and surveillance among priority populations
  - Reduced B & C cancer mortality and mortality
  - Reduced disparities in B & C cancer morbidity and mortality

- **Intermediate**
  - Increased timely and appropriate diagnostic follow-up and cancer treatment referral among priority populations
  - Improved provider knowledge of performing B & C cancer examinations

- **Long-term**
  - Retention of high quality, experienced staff and providers
  - Reduced structural barriers and increased access to B & C cancer screening and diagnostic services among priority populations
